Canada, Unemployment Relief, Dominion
Commissioner of

8

DEPARTMENT OF LABOUR, CANADA

HON. W. A. GORDON, M.P., MINISTER OF LABOUR

(UNEMPLOYMENT AND FARM RELIEF ACT, 1931)

REPORT

OF

Commissioner
Dominion *Director* of Unemployment
Relief

1931/32

MARCH 1, 1932

OTTAWA
F. A. ACLAND
PRINTER TO THE KING'S MOST EXCELLENT MAJESTY
1932

Unemployment and Farm Relief Act, 1931

DEPARTMENT OF LABOUR

REPORT OF THE DOMINION DIRECTOR OF UNEMPLOYMENT RELIEF

OTTAWA, March 1, 1932.

To the Hon. W. A. GORDON, K.C., M.P.,

Minister of Labour.

SIR,—The undersigned has the honour to report as follows concerning the administration of the Unemployment and Farm Relief Act, 1931.

Clause 7 of the Act provides:—

“A report shall be laid before Parliament within fifteen days after the expiration of this Act, containing a full and correct statement of the moneys expended under this Act and the purposes to which they have been applied, together with copies of all orders and regulations of the Governor in Council made under the provisions thereof”.

Clause 8 provides that the Act shall expire on the first day of March, 1932.

Copy of the Act, being chapter 58, 21-22 George V, assented to August 3, 1931, is attached to this report as appendix “A”.

Order in Council, P.C. 2043, was issued August 18, 1931 (see appendix “B”), containing general regulations and vesting the administration of the Act and regulations thereunder in the Minister of Labour subject to the approval of the Governor in Council.

After the issuance of the General Regulations, conferences between the Minister of Labour and the Governments of the various provinces were held, and agreements as provided in the regulations were executed with regard to expenditures for direct relief and for public works and undertakings for the purpose of providing work for the unemployed. The agreements provided that with regard to direct relief where no employment could be given, the Dominion would pay to the province for remittance to the municipalities such proportion of the expenditures of the municipalities as might be agreed upon, the balance being divided between the municipality and the province. (See appendix “C” for form of agreement.) In regard to provincial direct relief, in unorganized districts where no municipalities exist, the Dominion Government’s contribution to direct relief was set at 50 per cent.

For municipal public works, the Dominion Government agreed to contribute 25 per cent towards expenditures of municipalities in the five eastern provinces and 50 per cent in the western provinces unless the assumption by the Dominion of a greater proportion of the cost of such works and undertakings be specifically authorized by the Governor in Council. The Dominion contributed 50 per cent to provincial works and undertakings in all provinces and a similar percentage in all provinces was contributed by the Dominion in connection with work carried out on the Trans-Canada Highway. On provincial highways, the Dominion contribution was 50 per cent in Prince Edward Island, Manitoba, Saskatchewan, Alberta and British Columbia, and 40 per cent in Nova Scotia, New Brunswick, Quebec and Ontario. (Appendix “E” shows percentages contributed to each municipal and provincial project.)

Table No. 1 shows the percentages payable by the Dominion Government under the agreements with the provinces.

TABLE No. 1.—PERCENTAGES PAYABLE BY DOMINION UNDER AGREEMENTS

Clause.....	Date of agreement	Direct Relief		Public Works		Provincial Highways 9	Trans-Canada Highway 10
		Municipal 1	Provincial 3	Municipal 6	Provincial 8		
	1931	p.c.	p.c.	p.c.	p.c.	p.c.	p.c.
Prince Edward Island.....	Oct. 10....	33 $\frac{1}{3}$	50	25	50	50	50
Nova Scotia.....	Sept. 30....	33 $\frac{1}{3}$	50	25	50	40	50
New Brunswick.....	Sept. 29....	33 $\frac{1}{3}$	50	25	50	40	50
Quebec.....	Oct. 17....	33 $\frac{1}{3}$	50	25	50	40	50
Ontario.....	Nov. 6....	33 $\frac{1}{3}$	50	25	50	40	50
Manitoba.....	Sept. 1....	33 $\frac{1}{3}$	50	50	50	50	50
Saskatchewan.....	Sept. 29....	33 $\frac{1}{3}$	50	50	50	50	50
Alberta.....	Sept. 9....	33 $\frac{1}{3}$	50	50	50	50	50
British Columbia.....	Aug. 19....	33 $\frac{1}{3}$	50	50	50	50	50

Percentages for clause 6 may be increased by the Governor in Council (see Clause 6 of agreement, appendix "C").

The agreements entered into with the provinces provided that the province would submit to the Dominion for approval of the Minister of Labour "schedules" setting forth the public works and undertakings proposed to be carried on by the provinces and municipalities under the provisions of the agreement. Form of schedule used is shown in appendix "D".

P.C.'s 2608 and 2673 dated October 19, 1931, and October 23, 1931, appointed a Subcommittee of Council on unemployment relief consisting of:

The Minister of Labour, Chairman;
The Right Hon. Sir George H. Perley;
The Minister of Public Works;
The Minister of Agriculture;
The Minister of Fisheries;
The Solicitor General;

with the Dominion Director of Unemployment Relief as Secretary. The committee was empowered to deal with the proposals of the municipalities and provinces as put forward by the provincial authorities.

At the date of this report, March 1, there had been approved under the agreements with the provinces the amounts shown in Table No. 2 as a Dominion contribution to municipal and provincial expenditures for public works.

TABLE No. 2.—DOMINION CONTRIBUTIONS TO PROVINCIAL AND MUNICIPAL EXPENDITURES AS AT MARCH 1, 1932

Province	Municipal Works	Provincial Works	Provincial Highways	Trans-Canada Highways	Total
	\$ cts.	\$ cts.	\$ cts.	\$ cts.	\$ cts.
Prince Edward Island.....	11,125 00	12,500 00	101,375 00	125,000 00

Total.....	14,415,590 48	1,591,187 72	6,473,848 35	4,106,136 35	26,586,762 90

Appendix "E" gives a detailed statement by provinces of the municipal and provincial works approved, together with particulars of Dominion, provincial and municipal contributions thereto.

Orders in Council authorizing approval of municipal and provincial works referred to in table No. 2, and Orders in Council authorizing payment of expenditures in connection with the said approvals as set forth in table No. 2 are submitted with this report.

Table No. 3 shows expenditures authorized by Order in Council for works and undertakings to relieve unemployment, the Dominion Government paying the entire cost.

TABLE No. 3.—FEDERAL WORKS AND UNDERTAKINGS

Department, etc.	Cost of works approved		Amount expended	
	\$	cts.	\$	cts.
Department of Interior including Yukon.....	885,100	00	794,196	91
Department of Public Works.....	2,588,077	00	1,509,893	88

Saskatchewan Drought Area—Medical Aid.....	100,000	00		
Total.....	6,480,930	20	3,400,835	76

Details of the approvals referred to in table No. 3 form part of Orders in Council authorizing the said works submitted herewith. Appendix "F" gives details of Department of Public Works expenditures.

It has not been possible to include in this report statistics showing the volume of employment created up to the date of this report, the latest figures available being as at January 31, 1932. Table No. 4 shows the volume of employment created by the carrying out of the federal, provincial and municipal works above referred to.

TABLE No. 4.—EMPLOYMENT AFFORDED TO JANUARY 31, 1932

Province, etc.	*Individuals given employment	Number of mandays work given
Prince Edward Island.....	6,158	68,895
Nova Scotia.....	31,450	368,599

Total.....	741,241	2,223,671	462,461

In addition to expenditures for direct relief shown in table No. 6, the Saskatchewan Relief Commission report disbursements to February 20, 1932, amounting to \$4,275,991.08. This covers relief given to approximately 53,727 families which includes at least 322,362 individuals.

On receipt of accounts at Ottawa with prescribed certificate from provincial authorities they are audited by the Unemployment Relief Branch of the Department of Labour and an Order in Council requested to authorize payment; in due course requisition is made on the Finance Department for cheque to cover the account. Before cheque is issued the account is audited by the Auditor General.

Table No. 6 shows, at date of this report, March 1, the approved Dominion commitments for works, the accounts paid, and balance unpaid in respect of approved works. The table also shows amount of direct relief accounts paid.

Arrangements were made with the Canadian Passenger Association whereby a reduced fare was granted on railways from urban centres to relief camps established by provinces; and for the movement of unemployed farm help from urban centres to farms under arrangements made by provinces, municipalities, and farmers, whereby farm help would be given employment during the winter; and for the movement of unemployed to camps established in different centres for land clearing. The special rate arranged was $\cdot 01\frac{1}{2}$ cent per mile. Arrangements were made by which the Dominion Government and the province concerned each paid 50 per cent of the cost of such transportation. Upon termination of employment, providing that the worker remained ninety days or more, a return fare was arranged at the rate of $\cdot 02$ cent per mile payable by the worker.

Table No. 7 shows the total expenditures for railway transportation and the amounts collected from the province.

TABLE No. 7.—TRANSPORTATION OF UNEMPLOYED

Under authority of subsection C of section 3 of the Unemployment and Farm Relief Act, 1931, the Governor in Council assisted certain of the provinces by way of loans or advances in the financing of maturing obligations which the provinces were, at the moment, unable to refinance; also, in order that speedy and unhampered prosecution of the measures instituted to relieve distress and provide employment might be carried out. The following statement shows the amounts loaned or advanced, the purpose for which loans or advances were made and the security taken therefor:—

PROVINCE OF MANITOBA

Purpose for which loans or advances were made	Security taken	Amount loaned or advanced
Loans to cover Dominion's share of the cost of approved public works against which credits apply as accounts received and become approved.	1 year 5½% Treasury Bills...	\$ 500,000 00

APPENDIX "A"

21-22 GEORGE V

CHAP. 58

An Act to confer certain powers upon the Governor in Council in respect to unemployment and farm relief, and the maintenance of peace, order and good government in Canada.

[Assented to 3rd August, 1931.]

WHEREAS by reason of the continuing world wide economic depression there exists in many parts of Canada a serious state of unemployment and distress; and whereas the partial failure of the wheat crop of Western Canada has intensified the adverse economic conditions theretofore prevailing; and whereas it is in the national interest that Parliament should support and supplement the relief measures of the provinces and other bodies in such ways as the Governor in Council may deem expedient, and for that purpose should vest in the Governor in Council the powers necessary to insure the speedy and unhampered prosecution of all relief measures and the maintenance of peace, order and good government in Canada: Now therefore His Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

1. This Act may be cited as *The Unemployment and Farm Relief Act, 1931*. Short title.

2. There may be paid out of the Consolidated Revenue Fund such moneys as the Governor in Council in his discretion may deem expedient to expend for relieving distress, providing employment and maintaining within the competence of Parliament, peace, order and good government throughout Canada. Payments
authorized.

3. Without restricting the generality of the terms of the next preceding section hereof, and notwithstanding the provisions of any statute or law, the Governor in Council may, Powers of
Governor
in Council.

- (a) Provide for the construction, extension or improvement of public works, buildings, undertakings, railways, highways, subways, bridges and canals, harbours and wharves, and any other works and undertakings of any nature or kind whatsoever;
- (b) Assist in defraying the cost of the production, sale and distribution of the products of the field, farm, forest, sea, river and mine;
- (c) Assist Provinces, cities, towns, municipalities, and other bodies or associations, by loaning moneys thereto or guaranteeing repayment of moneys thereby, or in such other manner as may be deemed necessary or advisable;
- (d) Take all such other measures as may be deemed necessary or advisable for carrying out the provisions of this Act;

And, for the purposes aforesaid, may expend such moneys from the Consolidated Revenue Fund as may be required.

Orders and
regulations.

4. The Governor in Council shall have full power to make all such orders and regulations as may be deemed necessary or desirable for relieving distress, providing employment and, within the competence of Parliament, maintaining peace, order and good government throughout Canada.

Enforcement
of orders and
regulations.

5. All orders and regulations of the Governor in Council shall have the force of law and shall be enforced in such manner and by such court officers and authorities as the Governor in Council may prescribe, and may be varied, extended or revoked by any subsequent order or regulation; but if any order or regulation is varied, extended or revoked, neither the previous operation thereof nor anything duly done thereunder shall be affected thereby, nor shall any right, privilege, obligation or liability acquired, accrued, accruing or incurred thereunder be affected by any such variation, extension or revocation.

Fines and
penalties.

6. The Governor in Council may prescribe penalties that may be imposed for violation of the orders and regulations made under the authority of this Act, but no such penalty shall exceed a fine of one thousand dollars or imprisonment for a term of more than three years, or both fine and imprisonment, and may also prescribe whether such penalty shall be imposed upon summary conviction or upon indictment.

Report to
Parliament.

7. A report shall be laid before Parliament within fifteen days after the expiration of this Act, containing a full and correct statement of the moneys expended under this Act and the purposes to which they have been applied, together with copies of all orders and regulations of the Governor in Council made under the provisions thereof.

Duration
of Act.

8. This Act shall expire on the first day of March, 1932.

APPENDIX "B"

P.C. 2043

AT THE GOVERNMENT HOUSE AT OTTAWA

TUESDAY, the 18th day of August, 1931.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL

WHEREAS unemployment, which is primarily a municipal and provincial responsibility, has become so general throughout Canada as to constitute a matter of national concern;

AND WHEREAS Parliament has enacted legislation which may be cited as "The Unemployment and Farm Relief Act, 1931," in respect to unemployment, farm relief and maintenance of peace, order and good government;

AND WHEREAS the necessary powers having been granted to the Governor in Council it is deemed expedient to make regulations to govern the administration of the said Act;

THEREFORE His Excellency the Governor General in Council, on the recommendation of the Minister of Labour, is pleased to make the annexed regulations to govern the administration of the said Act, and they are hereby made and established accordingly.

G. G. KEZAR,
Asst. Clerk of the Privy Council.

GENERAL REGULATIONS

1. Except where the context otherwise requires, in these regulations the expression,—

(a) "Act" means the Unemployment and Farm Relief Act, 1931.

(b) "Minister" means the Minister of Labour.

2. There may be paid from the consolidated revenue fund such moneys as the Governor in Council may deem expedient to relieve distress, provide employment and maintain peace, order and good government.

3. The Minister may enter into an agreement with the Government of any Province for the payment through the Province to the Municipality of such proportion of the expenditures of any Municipality within the said Province for direct relief as may be agreed upon between the Municipality and the Province and approved by the Minister.

4. The Minister may enter into an agreement with the Government of any Province for the payment to such Province of such proportion of the expenditures of the said province for direct relief where no Municipal Government exists as may be agreed upon between the said Province and the Minister.

5. The expression "direct relief" in sections 3 and 4 hereof means food, clothing, fuel and shelter or payment in lieu thereof as may be determined by the Municipal Authorities and approved by the Province concerned, or approved by the Province where no Municipal Government exists.

6. The Minister may enter into an agreement with the Government of any Province in which any Municipality is situated for the payment through the Province to such Municipality of a proportion of the cost of such municipal works and undertakings as may be carried out, pursuant to the agreement to provide work for the unemployed.

7. The Minister may enter into an agreement with the Government of any Province for the carrying on by such provincial government of public works, improvements and other undertakings that will assist in providing suitable work for the unemployed, the cost of such public works and improvements to be borne by the Provincial and Dominion Governments in such proportion as may be agreed upon.

8. As the success of the relief measures under these regulations will largely depend upon the fair and equitable distribution of opportunities for employment and payment of reasonable rates of wages, the Federal Government will require that a maximum work day of eight hours shall prevail on works and undertakings carried on under the provisions of the Unemployment and Farm Relief Act, 1931, unless a modification of this requirement is previously agreed to by the Minister; the Provincial or Municipal Authorities may fix rates of wages to be paid provided that such rates be fair and reasonable and not in excess of the rates required to be paid by the Federal Government for the character or class of work in the district; and, if available, only goods and materials of Canadian manufacture or production shall be used, and contracts shall be let only to bona fide Canadian construction firms established and operating in Canada prior to January 1, 1931.

9. All agreements with provincial and municipal authorities shall contain a provisions to the effect that all persons employed on the works or undertakings referred to herein shall be residents of Canada, and so far as practicable of the locality in which the work is being performed, and in no case shall discrimination be made or permitted in the employment of, or in the granting of direct relief to any British subjects by reason of their political affiliation, race or religious views.

10. The Minister may at any time call upon the Province or Municipality to furnish such information as he may require in relation to statements of account rendered by the province or municipality.

11. The Minister shall have power to direct an inspection in connection with any measures for the relief of unemployment carried out pursuant to agreements under the provisions of these regulations.

12. The administration of the Act and regulations thereunder shall be vested in the Minister of Labour, subject to the approval of the Governor in Council.

13. The expenses of administration of the Federal Government under these regulations, including the salaries of temporary employees shall be paid out of the Consolidated Revenue Fund and the provincial and municipal Governments shall each bear their own expenses of administration in connection with any measures for the relief of unemployment pursuant to agreements under the provisions of these regulations.

APPENDIX "C"

INDENTURE OF AGREEMENT entered into this _____ day
of _____ A.D. 1931.

BETWEEN:

The Government of the Dominion of Canada (hereinafter called the "Dominion"), represented herein by the HONOURABLE GIDEON D. ROBERTSON,
Minister of Labour,

OF THE FIRST PART,

AND

The Government of the Province of _____ (hereinafter called
the "PROVINCE"), represented herein by _____

OF THE SECOND PART,

WHEREAS the Unemployment and Farm Relief Act, 1931, provides that there may be paid out of the Consolidated Revenue Fund such moneys as the Governor in Council in his discretion may deem expedient to expend for relieving distress, providing employment and maintaining within the competence of Parliament, peace, order and good government throughout Canada;

AND WHEREAS under the general regulations established by Order of His Excellency the Governor General in Council, dated August 18th, 1931, (P.C. 2043), copy of which is hereto attached marked "A," the Minister of Labour is empowered to enter into an agreement with the government of any Province for the purpose of supporting and supplementing the relief measures of the Province and Municipalities thereof.

AND WHEREAS the Province desires to enter into an agreement under the Provisions of the general regulations aforementioned.

NOW THEREFORE it is mutually agreed by and between the parties hereto as follows:—

1. The Dominion shall pay to the Province for remittance to any Municipality within the provincial territory such proportion of the expenditures of the Municipality for "direct relief," (as hereinafter defined), where suitable work cannot be provided for the unemployed, as may be agreed upon between the Province and the Dominion.

2. The Province shall pay to the Municipality an amount equal to that contributed by the Dominion for "direct relief," or such other proportion of the expenditures of the Municipality as may be agreed upon.

3. The Dominion shall pay to the Province _____ percentum of the expenditures made by the Province for "direct relief" in provincial territory where no Municipalities are established and where suitable work cannot be provided for the unemployed.

4. Contributions by the Dominion towards "direct relief" are to be made only after the submission by the Province of evidence satisfactory to the Minister of Labour that a serious unemployment situation exists in a designated locality and suitable work for the unemployed cannot be provided therein.

5. In this agreement, "direct relief" means necessary food, clothing, fuel and shelter, or the equivalent thereof.

6. The Dominion shall pay to the Province for remittance to any municipality such proportion of the cost of construction of municipal works and undertakings carried out to provide work for the unemployed, as may be agreed upon between the Province and the Dominion; but the proportion of the cost of any such municipal works and undertakings to be borne by the Dominion shall not exceed percentum thereof, unless, by reason of the financial conditions of the municipality, the assumption by the Dominion of a greater proportion of the cost of such works and undertakings is specifically authorized by the Governor in Council; and the balance of such cost shall be borne by the Province and the municipality in such proportions as may be agreed upon.

7. Such contributions by the Dominion and Province, respectively, towards the cost of municipal works and undertakings are to be made only after the submission by the municipality concerned of evidence satisfactory to the Province and the Minister of Labour that a serious unemployment situation exists in such municipality.

8. The Dominion shall pay to the Province percentum of the cost of such public works and undertakings as may be carried on by the Province to provide suitable work for the unemployed.

9. The Dominion shall pay to the Province percentum of any amount expended by the Province on provincial highways.

10. The Dominion shall pay to the Province fifty percentum of the amount hereafter expended by the Province on such highways, now existing or to be constructed, as may become part of the Trans-Canada Highway.

The expression "Trans-Canada Highway" means in relation to the Province, such provincial highways affording a continuous route connecting the province with any other or others of the provinces, as may be designated by the province and approved by the Dominion.

11. Contributions by the Dominion towards the cost of public works, undertakings and highways referred to in sections 8, 9 and 10 hereof, are to be made only after submission by the Province of evidence satisfactory to the Minister of Labour that a serious unemployment situation exists.

12. The Province agrees to submit to the Dominion for approval by the Minister of Labour, from time to time, a schedule or schedules setting forth a list of the public works and undertakings proposed to be carried on by the Province and Municipalities under the provisions of clauses 6, 8, 9 and 10 hereof and also setting forth the proportions of the expenditures in respect of such public works and undertakings to be borne by the Dominion and the Province respectively; and such schedules, when approved, shall become part of this agreement as if originally incorporated therein.

13. All public works and undertakings to which contributions may be made under the provisions of clauses 6, 8, 9 and 10 of this agreement, are to be carried on from the date of their commencement to the date of their completion, which latter date shall not be later than the 1st day of May, 1932.

14. A maximum work day of eight hours shall prevail on works and undertakings carried on under this agreement, unless a modification of this requirement is previously agreed to by the Minister of Labour; fair and reasonable rates of wages shall be paid by the Province and Municipalities but such rates shall not be in excess of the rates required to be paid by the Federal Government for the character or class of work in the district; only goods and materials of

Canadian manufacture or production, if available, shall be used; contracts shall be let only to *bona fide* Canadian construction firms established and operating in Canada prior to January 1st, 1931; and of the amounts expended pursuant to the provisions of clauses 6, 8, 9 and 10 hereof not less than forty percentum thereof shall be expended for labour unless a modification of this requirement is previously agreed to by the Minister of Labour.

15. All persons employed on the works or undertakings referred to herein shall be residents of Canada and, so far as practicable, of the locality in which the work is being performed, and in no case shall discrimination be made or permitted in the employment of any persons by reason of their political affiliation, race or religious views.

16. Statements of accounts for expenditures made by the Province and Municipalities, for direct relief or for public works and undertakings, pursuant to the provisions of this agreement shall be submitted by the Province to the Minister of Labour accompanied by a certificate of the appropriate Provincial authority that expenditures have been duly made in accordance with such statements; and such statements and certificates shall be in the form prescribed by the Minister of Labour.

17. The Province and Municipalities shall each bear their own expenses of administration in connection with any measures for the relief of unemployment undertaken pursuant to this agreement, and no portion of such expenses of administration shall be included in any statement of account rendered pursuant to this agreement or paid by the Dominion.

18. The Minister of Labour may at any time call upon the Province to furnish such information as he may require in relation to statements of accounts rendered by the Province or Municipalities.

19. The Minister of Labour may at any time direct an inspection in connection with any measures for the relief of unemployment carried out pursuant to this agreement.

IN WITNESS WHEREOF the Honourable Gideon D. Robertson, Minister of Labour, has hereunto set his hand on behalf of the Dominion of Canada and the Honourable
of

THE RELIEF ACT, 1932

DEPARTMENT OF LABOUR

REPORT OF THE DOMINION COMMISSIONER OF UNEMPLOYMENT RELIEF

OTTAWA, March 31, 1933.

To the Hon. W. A. GORDON, K.C., M.P.,
Minister of Labour.

SIR,—The undersigned has the honour to report as follows concerning the administration of The Relief Act, 1932.

Clause 8 of the Act provides that "A report shall be laid before Parliament within fifteen days after the expiration of this Act, or if Parliament is not then in session, shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the moneys expended, guarantees given and obligations contracted under this Act."

Clause 9 provides that the Act shall expire on the 31st day of March, 1933.

Copy of the Act being Chapter 36, 22-23 George V, assented to May 13th, 1932, is attached to this report as Appendix "A."

Order in Council P.C. 1202 was issued May 31st, 1932, (*see* Appendix "B") vesting the administration of the Act in the Minister of Labour.

Prior to the enacting of The Relief Act, 1932, a conference was held at which the provinces were all represented, and at which conference the view expressed by the provinces was that the situation did not permit of any further extension of programs of public works to relieve unemployment, and that it was desirable that the Dominion Government should contribute to the expenditures of the provinces and the municipalities in respect to direct relief, also continuing to contribute to the completion of certain works approved and commenced under the 1931 legislation.

The following telegram was sent to all the provinces on April 21st, 1933, by the Minister of Labour:—

"Referring to clause thirteen of agreement between Dominion and Province providing that all works shall be completed not later than first day of May, nineteen thirty-two, would inform you with regard to extensions of time beyond this date as follows: *Firstly*—The time for concluding all works presently under way and not capable of being finished before first of May next may be extended to permit of such works being finished provided that such works are in the opinion of the Provincial and Federal Governments of such a kind and character that the stopping of same would cause loss by reason of their non-completion, for example in the case of buildings, sewers and works of like character; *Secondly*—Where contractual undischarged obligations under entire contracts exist, the time for completing such works in order to fulfil such contracts and discharge such obligations may be extended; *Thirdly*—Works such as road work will be discontinued on the present basis and following your expression of view at recent conference between provinces and Dominion, the Dominion agrees to your proposal to

contribute under agreements to be hereafter entered into, toward direct relief and subsistence (Stop) Would request you forward list of schedules recommended for extension soon as possible with dates to which extension is desired so that same may be considered and formal approval given such as approved."

Under The Relief Act, 1932, the Dominion has continued to contribute to the expenditures of the provinces and municipalities for direct relief (food, fuel, clothing, shelter, or the equivalent thereof), the normal arrangement in the case of organized municipalities being $33\frac{1}{3}\%$ contribution from the Dominion Government with equal contributions from the province and the municipalities.

In the case of municipalities unable to carry the financial burden of $33\frac{1}{3}\%$ contribution, the municipal contribution has been lessened on the recommendation of the province with the approval of the Dominion, the difference between the municipal contribution and the total expenditure being divided equally between the Dominion and the province.

In the case of unorganized territory, the Dominion Government has continued to pay 50% of the provincial expenditures for direct relief.

Agreements have been entered into with all the provinces, with the exception of Prince Edward Island, providing for a Dominion non-recoverable expenditure of one-third of an amount not to exceed \$600 per family for the purpose of providing a measure of self-sustaining relief to families who would otherwise be in receipt of direct relief, by placing such families on the land, it being provided that the remaining two-thirds of the expenditures will be contributed by the province and the municipality concerned as may be decided between the province and the municipality.

The agreements provide that the Dominion contribution shall be payable to the province progressively as expenditures are made by the province and municipalities and that the total expenditure on behalf of any one family during the first year shall not exceed \$500 for all purposes inclusive of subsistence and establishment, a minimum amount of \$100 to be withheld to provide subsistence if necessary during the second year.

Reports received from the provinces in regard to the number of settlers approved under this plan are as follows:—

	Number of Settler Families	Number of Individuals
Nova Scotia.....	94	613
Quebec.....	523	3,262
Ontario.....	210	1,101
Manitoba.....	190	866
Saskatchewan.....	395	1,834
Alberta.....	51	249
	1,463	7,925

It should be observed that the above mentioned settlement represents only the beginning of the movement, as agreements with the provinces cover a period of two years and do not expire until March 31st, 1934.

Representations having been made to the Government with respect to certain municipalities in western Canada to the effect that they were unable to bear the cost of the relief of many thousands of transients, who it was represented were neither residents of the municipalities nor the province itself, the

provincial authorities set up honorary commissions in each province who undertook to administer relief to this class of needy persons under agreements which were entered into with the four western provinces in November, 1932, whereby it was agreed that the province should establish under the management of the Commission, camps at various leading centres where single homeless persons selected by the Commission could be provided with food, fuel, clothing and shelter, and so far as possible employed on useful work. It was also provided by the agreement that where suitable, the single homeless persons might be placed on farms or at the discretion of the Commission cared for by any municipality or charitable organization. The agreement provided that the Dominion Government would pay 100% of the cost of providing food, fuel, clothing and shelter to the persons referred to at a cost not to exceed 40 cents per diem, except in the case of persons placed on farms who it was provided would receive \$5 per month, the province to bear any necessary costs of administration.

The number of persons placed under this arrangement is shown month by month since the inception of the agreement in Appendix "C."

Table No. 1 shows at date of this report, March 31st, 1933, the approved Dominion commitments for relief settlement and various projects and the amount of accounts paid in connection therewith.

The table also shows the amount of other relief accounts which have been paid to date.

It may be mentioned that the accounts paid do not necessarily represent the expenditures made by the province and municipalities to date, as frequently several weeks and in some cases months elapse before certified accounts are received in the Department of Labour.

Appendix "C" shows the combined expenditures of the Dominion, provinces and municipalities by months and the numbers receiving relief to February 28, 1933, later figures not being available at date of this report.

Arrangements were continued with the Canadian Passenger Association whereby a reduced fare was granted on railways from urban centres to relief camps established by provinces; and for the movement of unemployed farm help from urban centres to farms under arrangements made by provinces, municipalities, and farmers, whereby farm help would be given employment during the winter; and for the movement of unemployed to camps established in different centres for land clearing. The special rate arranged was $\cdot 01\frac{1}{2}$ cent per mile. Arrangements were made by which the Dominion Government and the province concerned each paid 50 per cent of the cost of such transportation. Upon termination of employment, providing that the worker remained ninety days or more, a return fare was arranged at the rate of $\cdot 02$ cents per mile payable by the worker.

Table No. 3 shows the total expenditures for railway transportation and the amounts collected from the province under The Relief Act, 1932, as at March 31, 1933.

TABLE No. 3—TRANSPORTATION OF UNEMPLOYED

Under authority of Section 2-(b) of The Relief Act, 1932, the Dominion Government assisted certain of the provinces by way of loans or advances in financing of maturing obligations which the provinces were at the time unable to refinance; also, in order that speedy and unhampered prosecution of the measures instituted to relieve distress and provide employment might be carried out.

The following statement as at March 31st, 1933, supplied by the Department of Finance shows the amounts loaned or advanced, the purpose for which loans or advances were made and the security taken therefor, and includes renewals of loans from previous years:—

RELIEF ACT, 1932

Under authority of Section 2 (b) and (c) of The Relief Act, 1932, certain guarantees were given by the Dominion Government as set forth in the following statement as at March 31st, 1933, supplied by the Department of Finance:—

RELIEF ACT, 1932, GUARANTEES

No. OF ORDER IN
COUNCIL AND DATE

PROVISIONS OF GUARANTEE
1930 Wheat Crop

P.C. 1576,
11th July, 1932. Guaranteeing repayment of such further advances, and interest thereon, made by Canadian chartered banks to Canadian Co-Operative Wheat Producers Ltd. subsequent to 30th April, 1932 (on which date the powers created by the Unemployment and Farm Relief Act, 1931, expired), as may be required in order to secure the advantageous sale or disposition of the grains purchased or under the control of the said Company.

1932 Wheat Crop

P.C. 2077, 20th
September, 1932. Guaranteeing, subject to certain safeguarding provisions, repayment of advances, and interest thereon, made by Canadian chartered banks to marketing agencies in Manitoba, Saskatchewan and Alberta, in connection with the marketing of the 1932 crop.

The agencies and the limit of credit established for each was as follows:—
Manitoba Wheat Pool, with its subsidiary Manitoba Pool Elevators, Limited, \$1,395,000; Saskatchewan Co-Operative Wheat Producers, Limited, with its subsidiary, Saskatchewan Pool Elevators, Limited, \$15,000,000; Alberta Wheat Pool, with its subsidiary Alberta Pool Elevators, Limited, \$9,000,000.

P.C. 508, 20th
March, 1933. Guaranteeing, in addition to advances covered by P.C. 2077 of 20th September, 1932, repayment by each of the marketing agencies referred to of advances, and interest thereon, in respect of an additional payment of 5c. per bushel in respect of wheat delivered on the pool plan.

Province of Manitoba Savings Office

P.C. 318, 22nd
February, 1933. By Order-in-Council P.C. 972, dated 28th April 1932, passed pursuant to the Unemployment and Farm Relief Continuance Act, 1932, the Government of Canada guaranteed the chartered banks doing business in Winnipeg from loss in respect of the assumption, by these banks, of all liabilities of the Province of Manitoba Savings Office. The banks received from the

Province of Manitoba as security for the assumption of such liabilities, \$12,442,400 One-Year 5½ per cent treasury bills maturing 27th February, 1933. On the maturity of these bills the banks were willing to accept a renewal, less the sum of \$334,098 paid on principal account, provided the guarantee was continued. This the Governor in Council authorized under minute of 22nd February, 1933, P.C. 318.

Beauharnois Light, Heat and Power Company

P.C. 1577, 11th July, 1932. Guaranteeing repayment of advances amounting to \$15,539,000, and
P.C. 213, 6th March, 1933. interest thereon, made by several Canadian chartered banks to the Beau-
harnois Light, Heat and Power Co., the said advances being secured by
first mortgage bonds of the Company of the aggregate amount of \$30,007,500.

Government of Newfoundland

P.C. 538, 22nd March, 1933. Guaranteeing repayment of a loan of \$625,000, and interest thereon,
made by certain Canadian chartered banks to the government of New-
foundland.

Orders in Council covering activities under the statute have been laid before Parliament after the issuance thereof when Parliament has been in session, otherwise abstracts of the said Orders in Council, disclosing their essential provisions, have been published in the Canada Gazette, in accordance with Clause 7 of the Act.

Appendix "D" shows payments made by the Dominion Government to March 31, 1933, in respect to expenditures for relief under THE UNEMPLOYMENT RELIEF ACT, 1930, and appendix "E" shows payments made by the Dominion Government to March 31, 1933, in respect to expenditures for relief under the UNEMPLOYMENT AND FARM RELIEF ACT, 1931, and CONTINUANCE ACT, 1932.

Appendix "F" gives a recapitulation of disbursements made by the Dominion Government under the UNEMPLOYMENT RELIEF ACT, 1930, the UNEMPLOYMENT AND FARM RELIEF ACT, 1931, and CONTINUANCE ACT, 1932, and THE RELIEF ACT, 1932, as at March 31, 1933.

Respectfully submitted,

HARRY HEREFORD,
Dominion Commissioner.

APPENDIX "A"

22-23 GEORGE V

CHAP. 36

An Act respecting Relief Measures

[Assented to 13th May, 1932]

Whereas by reason of the prolonged world wide economic depression, recovery to a more normal economic condition has been retarded in the Dominion of Canada; and whereas the Provinces require assistance in carrying out necessary relief measures and to meet financial conditions as the same may arise; and whereas it is in the national interest that Parliament should support and supplement the relief measures of the Provinces and grant them financial assistance in such manner and to such extent as the Governor in Council may deem expedient; and whereas it is necessary to make special provisions to deal with the situation in the National Parks of Canada and in the drought stricken areas of the Province of Saskatchewan; and whereas for these and similar purposes the powers necessary to insure the speedy and unhampered prosecution of such relief measures and the maintenance of the credit of the Dominion and the Provinces thereof should be vested in the Governor in Council: Now, therefore, His Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

Preamble.

1. This Act may be cited as *The Relief Act, 1932*.

Short title.

2. The Governor in Council may, on such terms and conditions as may be agreed upon, and notwithstanding the provisions of any statute or law,—

Agreements with provinces authorized.

- (a) Enter into agreements with any of the Provinces respecting relief measures therein;
- (b) Grant financial assistance to any Province by way of loan, advance, guarantee or otherwise;
- (c) Take all such measures as in his discretion may be deemed necessary or advisable to protect the credit and financial position of the Dominion or any Province thereof;
- (d) Loan or advance money to, or guarantee the payment of money by any public body, corporation or undertaking.

3. Without restricting the generality of the terms of the next preceding section hereof and notwithstanding the provisions of any statute or law, the Governor in Council may

Powers of Governor in Council.

- (a) Provide for special relief, works and undertakings, in the National Parks of Canada, and for the continuance during such period as may be necessary and advisable of the relief measures heretofore undertaken and now being carried on at the cost of Canada in the drought stricken areas of Saskatchewan by the Saskatchewan Relief Commission;
- (b) Assist in defraying the cost of the sale and distribution of the products of field, farm, forest, sea, river and mine;
- (c) Take all such other measures as may be deemed necessary or advisable for carrying out the provisions of this Act.

Payments out
of Consoli-
dated
Revenue
Fund.

4. The Governor in Council may pay out of the Consolidated Revenue Fund such moneys as may be necessary for all or any of the purposes of this Act.

Orders and
regulations.

5. The Governor in Council shall have full power to make all such orders and regulations as may be deemed necessary or desirable to carry out the purposes and intentions of this Act.

Enforcement
of orders and
regulations.

6. All orders and regulations of the Governor in Council made hereunder shall have the force of law and may be varied, extended or revoked by any subsequent order or regulation; but if any order or regulation is varied, extended or revoked, neither the previous operation thereof nor anything duly done thereunder shall be affected thereby, nor shall any right, privilege, obligation or liability acquired, accrued, accruing or incurred thereunder be affected by any such variation, extension or revocation.

Orders and
regulations
laid before
Parliament.

7. All orders in council and regulations made under the provisions of this Act shall be laid before the House of Commons forthwith after the making thereof if Parliament is then sitting, or if not, said orders in council or regulations or an abstract thereof disclosing their essential provisions shall be published in the next following issue of the *Canada Gazette*.

Report to
Parliament.

8. A report shall be laid before Parliament within fifteen days after the expiration of this Act, or if Parliament is not then in session, shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the moneys expended, guarantees given and obligations contracted under this Act.

Duration
of Act.

9. This Act shall expire on the thirty-first day of March, 1933, and any obligation or liability incurred or created under the authority of this Act prior to the thirty-first day of March, 1933, may be paid and discharged out of the Consolidated Revenue Fund notwithstanding the expiration of this Act on the said date.

APPENDIX "B"

P.C. 1202

CERTIFIED to be a true copy of a Minute of a Meeting of the Committee of the Privy Council, approved by His Excellency the Governor General on the 31st May, 1932.

The Committee of the Privy Council have had before them a Report, dated 18th May, 1932, from the Minister of Labour, submitting:—

1. That Parliament has enacted legislation which may be cited as "The Relief Act, 1932";
2. That Section 5 thereof provides that the Governor in Council shall have full power to make all such Orders and Regulations as may be deemed necessary or desirable to carry out the purposes and intentions of this Act;

The Committee, on the recommendation of the Minister of Labour, advise that the administration of the Act be vested in the Minister of Labour, and that in pursuance of paragraph 4 of The Relief Act, 1932, the expenses of administration of the Dominion Government, including salaries of temporary employees, and such administration expenses as may be incurred in connection with undischarged obligations under the Unemployment and Farm Relief Continuance Act, 1932, shall be paid out of the Consolidated Revenue Fund.

(Sgd.) E. J. LEMAIRE,

Clerk of the Privy Council.

The Honourable the Minister of Labour.

APPENDIX "C"

The following tables provide a summary of relief as reported by Provinces and Federal Departments month by month. In connection with the figures shown in the second, third, and fourth columns, which pertain to the numbers given direct relief, it must be borne in mind that these figures include children as well as adults, and every individual given direct relief is included, though such relief may have been given for only a few days during the month.

With reference to the total cost of direct relief as shown in column seven, it should be observed that this includes family relief as well as relief to individuals, and also urban and rural relief, and as the rates vary very widely in different places it is not practicable to report an average per capita expenditure.

THE RELIEF ACT, 1933

DEPARTMENT OF LABOUR

REPORT OF THE DOMINION COMMISSIONER OF UNEMPLOYMENT RELIEF

OTTAWA, March 31, 1934.

To the Hon. W. A. GORDON, K.C., M.P.,
Minister of Labour.

SIR,—The undersigned has the honour to report as follows concerning the administration of The Relief Act, 1933.

Clause 8 of the Act provides that "A report shall be laid before Parliament within fifteen days after the expiration of this Act, or if Parliament is not then in session, shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the moneys expended, guarantees given and obligations contracted under this Act."

Clause 9 provides that the Act shall expire on the 31st day of March, 1934.

Copy of the Act being Chapter 18, 23-24 George V, assented to March 30, 1933, is attached to this report as Appendix "A."

Order in Council P.C. 885 was passed May 9, 1933 (see Appendix "B") vesting the administration of the Act in the Minister of Labour.

In accordance with the views of the provinces as expressed at the Dominion-Provincial Conference of January, 1933, the Dominion Government has continued to assist the provinces in the discharge of their constitutional obligations on the basis of the province dealing with the present unprecedented economic conditions by distribution of Direct Relief, and the Dominion, as will be seen from the details set forth in this report, in line with the views of the provinces, resuming the policy of contributing to provincial and municipal works when requested by the provinces. This policy was in effect in 1930 and 1931 but was largely dropped in 1932 at the expressed request of the provinces.

The Dominion has continued to contribute to the expenditures made by the four western provinces in connection with the care of homeless unemployed persons, in addition to the provision made for the care of such persons through the projects carried on by the Department of National Defence in all the provinces except Prince Edward Island, and by the Department of the Interior in the National Parks of Canada.

Agreements were entered into with all the provinces with regard to expenditures for direct relief and for public works and other undertakings. The agreements provided that the provinces would submit to the Dominion for approval by the Minister of Labour, from time to time, a schedule or schedules setting forth the list of public works and undertakings proposed to be carried out by the provinces, and/or the municipalities under the provisions of the agreements. Copies of the agreements have been laid before Parliament.

The Relief Act, 1933, authorized the continuation and expansion of projects inaugurated under The Relief Act, 1932, by the Department of National Defence for the purpose of affording relief to single homeless men. The numbers cared for month by month on these projects are given in Appendix "C."

These projects were located in every province, except Prince Edward Island where the problem of the homeless man has not been serious. The class of work done included clearing and grading of landing fields, forestry work, road construction, and other work that could be economically carried out for the general advantage of Canada. The map of the Dominion, in this report shows the location of unemployment relief projects under the Department of National Defence as at March 31, 1934.

The men were provided with food, accommodation, clothing, a free issue of tobacco, an allowance of twenty cents per day and in addition, necessary medical, dental, and hospital attention.

Continuation of works carried on by the Department of the Interior in the National Parks, and on the Golden-Revelstoke Highway, for the relief of single homeless unemployed men, was authorized under The Relief Act, 1933. Provision was also made for the relief of needy permanent residents of the parks.

Of the works carried on in connection with the camps administered by the National Parks Branch of the Department of Interior, road construction operations were of major importance. By agreement between the Federal Government and the Province of British Columbia, the Dominion, as represented by the Department of the Interior, carried on construction operations on the east leg of the Big Bend or Golden-Revelstoke Highway, which forms a portion of the Trans-Canada Highway. Work was continued in connection with the construction of the Banff-Jasper Highway, which is one of the most important development projects undertaken in the National Parks in recent years, and which when completed will form a direct north and south connecting line between Banff and Jasper National Parks. Work was carried out on entrance and internal highways at Prince Albert National Park in Saskatchewan and Riding Mountain National Park in Manitoba.

In addition to the road projects referred to, numerous other useful works were carried on, such as construction and improvement of recreational areas, and camp ground extensions and improvements, reclamation of low land, underbrushing and clearing, and erection of structures. Works were carried out in the Kootenay and Yoho National Parks in British Columbia, in Banff, Jasper, Elk Island and Waterton Lakes Parks in Alberta, in Prince Albert Park in Saskatchewan and in Riding Mountain Park in Manitoba.

The numbers of men cared for each month under these arrangements are shown in Appendix "C," and the map of the Dominion in this report shows the location of unemployment relief projects under the Department of the Interior as at March 31, 1934.

Table No. 1 shows the approved Dominion commitments for the various projects and undertakings, exclusive of Direct Relief, authorized under The Relief Act, 1933, and the Dominion disbursements in respect to these and to Direct Relief as at March 31, 1934.

It may be mentioned that the accounts paid do not necessarily represent the total expenditures made by the provinces and municipalities to date, as frequently several weeks and in some cases months elapse before certified accounts are received in the Department of Labour.

Appendix "C" shows the combined expenditures of the Dominion, provinces and municipalities by months and the numbers receiving relief to February 28, 1934, later figures not being available at date of this report.

By Order of the Governor in Council dated September 30, 1932 (P.C. 2163) the Auditor General was authorized to conduct such audit of Provincial accounts, in connection with unemployment relief expenditures, as he deemed necessary to safeguard the interests of the federal treasury, and to investigate provincial

systems of auditing municipal relief accounts to the end that the Dominion Government may be satisfied that the municipal accounts put forward by the provinces are in accordance with the agreements entered into between the Dominion Government and the provinces.

As a result of his investigations of provincial audits of municipal accounts the Auditor General reported to the Minister of Labour that in his judgment many of the provincial audits were not of the kind and character which would satisfy him and the Federal Government that the municipal accounts put forward by the provinces were in accordance with the agreements entered into between the Dominion Government and the provinces. Consequently P.C. 222, of the 12th of March, 1934, was approved by the Governor in Council, which directed the Auditor General to conduct such audit of Provincial and Municipal accounts, in connection with unemployment relief expenditures, as he deemed essential to safeguard the interests of the federal treasury.

As a result of the audits made, the Unemployment Relief Branch has, on receipt of the Auditor General's reports, requested of the provinces concerned that certain adjustments and refunds indicated by the Auditor General be made. In many instances the Auditor General did not ascertain the amount recoverable by the Federal Government, although observing that adjustments were necessary. In such cases the amount of the necessary adjustment has been or is being computed. The following amounts were specifically mentioned and have been or are being recovered, subject to such satisfactory explanation as the provincial authorities may be able to submit:—

Nova Scotia.....	\$ 54,953 59
New Brunswick.....	8,889 24
Quebec.....	34,228 70
Ontario.....	11,692 00
Manitoba.....	24,862 27
Saskatchewan.....	73,554 20

Alberta.....	66,637 08
British Columbia.....	23,601 08
	<hr/>
	\$ 306,597 05

In addition to the audits made by the Auditor General, inspectors of the Department of Labour have conducted investigations and the provincial officials have also carried out enquiries which have resulted in refunds being made by the provinces to the Dominion to adjust various overpayments.

As a result of Dominion and/or provincial action considered apart from the Auditor General's examinations, the following amounts have been recovered to date either by cash refunds or deductions from subsequent payments to the province concerned:—

Manitoba.....	432,267 65 (10.26)	2,305,490 83 (54.70)	275,396 27 (6.53)	1,201,906 77 (28.51)			4,215,061 52 100%
Saskatchewan.....	1,027,935 91 (25.04)	2,051,783 12 (49.99)	705,986 79 (17.20)	318,402 57 (7.76)	339 69 (0.01)		4,104,448 08 100%
Alberta.....	102,163 68 (4.76)	1,442,981 70 (67.21)	80,970 77 (3.77)	521,008 25 (24.26)			2,147,124 40 100%
British Columbia.....	122,665 88 (2.74)	2,165,472 22 (48.40)	213,631 28 (4.78)	398,863 29 (8.92)	1,573,147 80 (35.16)		4,473,780 47 100%
Percentage of Total Expenditure.....	9.54	62.90	7.54	14.92	5.10	172 66	44,843,672 71 100%

Agreements entered into with all the provinces, with the exception of Prince Edward Island, in 1932, provided for a Dominion non-recoverable expenditure of one-third of an amount not to exceed \$600 per family for the purpose of providing a measure of self-sustaining relief to families who would otherwise be in receipt of direct relief, by placing such families on the land, it being provided that the remaining two-thirds of the expenditures be contributed by the province and the municipality concerned as might be decided between the province and the municipality.

The agreements, which were for two years expiring March 31, 1934, provided that the Dominion contribution should be payable progressively as expenditures were made by the province and municipalities and that the total expenditure on behalf of any one family during the first year should not exceed \$500 for all purposes inclusive of subsistence and establishment, a minimum amount of \$100 to be withheld to provide subsistence if necessary during the second year.

Reports received from the provinces in regard to the number of settlers approved under this plan as at March 31, 1934, and the Dominion contributions as at that date, are as follows:—

Province	*Dominion Contributions	Number of Settler Families	Number of Individuals
	\$		
Nova Scotia.....	4,900 00	302	1,902
Quebec.....	88,235 17	814	4,938
Ontario.....	20,564 60	362	1,833
Manitoba.....	56,363 49	443	2,102
Saskatchewan.....	37,189 42	503	2,356
Alberta.....	47,789 66	361	1,731
British Columbia.....	6,604 33	51	279
	261,646 67	2,836	15,141

* Not including expenditures which may have been made prior to March 31, 1934 but for which accounts have not been received.

Arrangements were continued with the Canadian Passenger Association whereby a reduced fare was granted on railways from urban centres to relief camps established by the Dominion and the provinces; and for the movement of unemployed farm help from urban centres to farms under arrangements made by provinces, municipalities and farmers, whereby farm help would be given employment. The special rate arranged was one and one half cents per mile.

Arrangements were made with the four western provinces whereby the Dominion Government and the province concerned each paid 50 per cent of the cost of such transportation. Upon termination of employment, providing that the worker remained ninety days or more, a return fare was arranged at the rate of two cents per mile payable by the worker.

Table No. 3 shows expenditures for railway transportation and the amounts collected from the provinces under The Relief Act, 1933, as at March 31, 1934.

TABLE No. 3—TRANSPORTATION OF UNEMPLOYED

Province	Total Accounts Paid	Provincial Proportion	Collected from Province	Balance Collectable from Province
	\$	\$	\$	\$
Manitoba.....	11,076 39	5,538 25	5,538 25	
Saskatchewan.....	5,757 11	2,878 62	2,495 95	382 67
Alberta.....	3,383 68	1,691 85	1,691 85	
British Columbia.....	3,637 27	1,818 58	1,698 79	119 79
	23,854 45	11,927 30	11,424 84	502 46

This does not include transportation charges in respect of federal relief camps.

Under authority of section 2 (a) of The Relief Act, 1933, the Dominion Government assisted certain of the provinces by way of loans or advances in financing of maturing obligations which the provinces were at the time unable to refinance; also, in order that speedy and unhampered prosecution of the measures instituted to relieve distress and provide employment might be carried out.

The following statement as at March 31, 1934, shows the amounts loaned to provinces under authority of Orders in Council passed pursuant to The Relief Act, 1933, the purpose for which loans were made and renewals of loans outstanding March 31, 1933, less cash repayments and credits applied during the year. All loans are secured by Treasury bills of the province bearing interest at $5\frac{1}{2}$ per cent to May 1, 1933, and 5 per cent thereafter payable half-yearly:—

DEPARTMENT OF FINANCE,
OTTAWA, March 31, 1934.

Appendix "H" shows a summary of all loans outstanding under Relief Legislation as at March 31, 1934.

In addition to the foregoing, advances have been made, pending receipt of accounts, to the provinces of Manitoba, Saskatchewan, Alberta and British Columbia for the purpose of defraying the cost of commitments of the Dominion Government under agreements entered into with the aforesaid provinces for the relief of single homeless persons.

The following statement shows the amount of such advances made as at March 31, 1934, together with the amount of accounts received and approved, and the balances outstanding against further accounts in course of submission:—

	Total Advances (including balances outstanding from previous advances)	Expenditures Credited	Balances to be Accounted for
	\$	\$	\$
Manitoba.....	485,000 00	366,406 73	118,593 27
Saskatchewan.....	257,315 61	185,149 15	72,166 46
Alberta.....	335,000 00	188,008 77	146,991 23
British Columbia.....	840,000 00	839,586 13	413 87
	1,917,315 61	*1,579,150 78	338,164 83

*Includes expenditures incurred under authority of the Relief Act 1932 credited to advances made under the Relief Act 1933.

Under authority of section 2 (a) and (b) of The Relief Act, 1933, certain guarantees were given by the Dominion Government as set forth in the following statement as at March 31, 1934, supplied by the Department of Finance:—

THE RELIEF ACT, 1933, GUARANTEES

NO. OF ORDER IN
COUNCIL AND DATE

PROVISIONS OF GUARANTEE

P.C. 1078, 2nd
June, 1933.

Province of British Columbia:

Guaranteeing payment of Treasury bills of the Province of British Columbia amounting to \$626,533.75, bearing interest at the rate of 5 per cent per annum, issued in connection with the payment of obligations of the province in New York.

P.C. 1077, 2nd
June, 1933.

Province of Manitoba:

Guaranteeing payment of Treasury bills of the province of Manitoba amounting to \$5,894,127.49, bearing interest at the rate of 5 per cent per annum, issued in connection with the payment of obligations of the province in New York.

P.C. 1285, 28th
June, 1933.

Algoma Steel Corporation Ltd.:

Guaranteeing repayment of bank advances not exceeding \$660,000 and interest thereon, to the receivers and managers of the Algoma Steel Corporation Ltd., in connection with the manufacture of 30,000 tons of steel rails for the Canadian National Railways; and authorizing payment by the Government of interest on such guaranteed advances at 5 per cent per annum.

P.C. 1076, 2nd
June, 1933.

Dominion Steel and Coal Corporation, Ltd.:

Guaranteeing repayment of bank advances, not exceeding \$1,100,000, and interest thereon, to the Dominion Steel and Coal Corporation, Ltd., in connection with the manufacture of 50,000 tons of steel rails for the Canadian National Railways; and authorizing payment by the Government of Canada of interest on such guaranteed advances at 5 per cent per annum.

P.C. 2490, 29th
November, 1933.

Canadian Pacific Railway Company:

Guaranteeing repayment of loans and interest thereon, amounting to \$60,000,000, made by chartered banks to the Canadian Pacific Railway Company; the said loans being secured by \$100,000,000 par value of Canadian Pacific Railway 4 per cent Perpetual Consolidated Debenture Stock.

P.C. 685, 12th
April, 1933

Wheat Marketing:

Supplementing the guarantees authorized in 1931 and 1932 arising out of the marketing of the 1930 crop, this Order in Council guaranteed repayment of such further advances and interest thereon as may be made by chartered banks to Canadian Co-operative Wheat Producers Limited subsequent to March 31, 1933, in respect of contracts already acquired or contracts in substitution for or in addition to existing contracts for delivery of wheat and other grains, in order to secure the advantageous sale or disposition of such grains and contracts.

P.C. 746, 20th
April, 1933.

1932 Wheat Crop:

Supplementing the guarantee authorized in 1932, this Order in Council guaranteed repayment of such further advances and interest thereon, as may be made by chartered banks to the Manitoba Wheat Pool, the Saskatchewan Co-operative Wheat Producers Ltd., and the Alberta Wheat Pool, and subsidiaries of each, subsequent to March 31, 1933, in connection with the marketing of wheat and other grains grown in 1932.

P.C. 1101, 6th
June, 1933.

Beauharnois Light, Heat and Power Company:

By this Order in Council, the guarantee authorized under The Relief Act, 1932, was amended so as to relate to the guarantee against loss, in respect of bank advances of \$15,538,500 and interest thereon, upon sale or realization of First Mortgage Bonds of the Beauharnois Light, Heat and Power Company, to the amount of \$16,807,463 par value, accepted in satisfaction of such advances.

DEPARTMENT OF FINANCE,
OTTAWA, March 31, 1934.

Table No. 4 shows expenditures made for administration purposes under The Relief Act, 1933, to the date of this report, namely March 31, 1934.

Orders in Council covering activities under the statute have been laid before Parliament after the issuance thereof when Parliament has been in session, otherwise abstracts of the said Orders in Council, disclosing their essential provisions, have been published in the Canada Gazette, in accordance with clause 7 of the Act.

Appendix "D" shows disbursements made by the Dominion Government to March 31, 1934, in respect to expenditures for relief under The Unemployment Relief Act, 1930, Appendix "E" shows disbursements made by the Dominion Government to March 31, 1934, in respect to expenditures for relief under The Unemployment and Farm Relief Act, 1931, and Continuance Act, 1932, Appendix "F" shows disbursements made by the Dominion Government to March 31, 1934, in respect to expenditures for relief under The Relief Act, 1932, and Appendix "G" gives a recapitulation of these disbursements.

Respectfully submitted,

HARRY HEREFORD,

Dominion Commissioner.

APPENDIX "A".

23-24 GEORGE V.

CHAP. 18

An Act respecting Relief Measures

[Assented to 30th March, 1933.]

Whereas by reason of the prolonged world wide economic depression, recovery to a more normal economic condition has been retarded in the Dominion of Canada; and whereas the Provinces may require assistance in carrying out necessary relief measures and to meet financial conditions as the same may arise; and whereas in such event it is in the national interest that Parliament should support and supplement the relief measures of the Provinces and grant them financial assistance in such manner and to such extent as the Governor in Council may deem expedient; and whereas it is necessary to make special provisions to deal with the situation in the National Parks of Canada and elsewhere; and whereas for these and similar purposes the powers necessary to insure the speedy and unhampered prosecution of such relief measures and the maintenance of the credit of the Dominion and the Provinces thereof should be vested in the Governor in Council: Now, therefore, His Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

1. This Act may be cited as *The Relief Act, 1933*. Short title.
2. Notwithstanding the provisions of any statute or law the Governor in Council may,—
 - (a) Upon such terms and conditions as may be agreed upon,—

enter into agreements with any of the provinces respecting relief measures therein; grant financial assistance to any province by way of loan, advance, guarantee or otherwise; loan or advance money to or guarantee the payment of money by any public body, corporation or undertaking; and in respect of such loans, advances and guarantees, may accept such security, enter into such agreements and generally do all such things as the Governor in Council may deem necessary and expedient in the public interest;

Agreements with provinces.

Loans to provinces, and others.

Maintain
peace, order
and good
government.

Protect
financial
credit.

- (b) When Parliament is not in session, to take all such measures as in his discretion may be deemed necessary or advisable to maintain, within the competence of Parliament, peace, order and good government throughout Canada; and at all times to take all such measures as in his discretion may be deemed necessary or advisable to protect and maintain the credit and financial position of the Dominion or any Province thereof.

Further
powers of
Governor in
Council.

3. Without restricting the generality of the terms of the next preceding section hereof and notwithstanding the provisions of any statute or law, the Governor in Council may

- (a) Provide for special relief, works and undertakings in the National Parks of Canada and elsewhere;
- (b) Assist in defraying the cost of the sale and distribution of the products of field, farm, forest, sea, river and mine;
- (c) Take all such other measures as may be deemed necessary or advisable for carrying out the provisions of this Act.

Payments
for direct
relief not
to exceed
\$20,000,000.

4. The Governor in Council may pay out of the Consolidated Revenue Fund such moneys as may be necessary for all or any of the purposes of this Act, but the amount paid for direct relief for the fiscal year ending the 31st day of March, 1934, shall not exceed the sum of twenty million dollars.

Orders and
regulations.

5. The Governor in Council shall have full power to make all such orders and regulations as may be deemed necessary or desirable to carry out the purposes and intention of this Act.

Enforcement
of orders and
regulations.

6. All orders and regulations of the Governor in Council made hereunder shall have the force of law and may be varied, extended or revoked by any subsequent order or regulation; but if any order or regulation is varied, extended or revoked, neither the previous operation thereof nor anything duly done thereunder shall be affected thereby, nor shall any right, privilege, obligation or liability acquired, accrued, accruing or incurred thereunder be affected by any such variation, extension or revocation.

Orders and
regulations
laid before
Parliament.

7. All orders in council and regulations made under the provisions of this Act shall be laid before the House of Commons forthwith after the making thereof if Parliament is then sitting, or if not, said orders in council or regulations or an abstract thereof disclosing their essential provisions shall be published in the next following issue of the *Canada Gazette*.

Report to
Parliament.

8. A report shall be laid before Parliament within fifteen days after the expiration of this Act, or if Parliament is not then in session, shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the moneys expended, guarantees given and obligations contracted under this Act.

Duration
of Act.

9. This Act shall expire on the thirty-first day of March, 1934, and any obligation or liability incurred or created under the authority of this Act prior to the thirty-first day of March, 1934, may be paid and discharged out of the Consolidated Revenue Fund notwithstanding the expiration of this Act on the said date.

APPENDIX "B"

P.C. 885

CERTIFIED to be a true copy of a Minute of a Meeting of the Committee of the Privy Council, approved by His Excellency the Governor General on the 9th May, 1933.

The Committee of the Privy Council have had before them a report, dated 28th April, 1933, from the Minister of Labour, submitting:—

1. That Parliament has enacted legislation which may be cited as "The Relief Act, 1933;"
2. That section 5 thereof provides that the Governor in Council shall have full power to make all such Orders and Regulations as may be deemed necessary or desirable to carry out the purposes and intentions of this Act.

The Committee, on the recommendation of the Minister of Labour, advise that the administration of the said Act be vested in the Minister of Labour.

(Sgd.) E. J. LEMAIRE,
Clerk of the Privy Council.

The Honourable the Minister of Labour.

APPENDIX "C"

The following tables provide a summary of relief as reported by Provinces and Federal Departments month by month. In connection with the figures shown in the second, third, and fourth columns, which pertain to the numbers given Direct Relief, it must be borne in mind that these figures include children as well as adults, and every individual given Direct Relief is included, though such relief may have been given for only one day or part of a day during the month.

With reference to the total cost of Direct Relief as shown in column seven, this represents the combined expenditures of the Dominion, provinces and municipalities, and it should be observed that this cost includes family relief as well as relief to individuals, and also urban and rural relief, and as the rates vary greatly in different places, it is not practicable to report an average per capita expenditure.

The cost shown in column ten represents the joint expenditures of the Dominion and the provinces.

1935

OTTAWA, March 30, 1935.

To the Hon. W. A. GORDON, K.C., M.P.,
Minister of Labour,
Ottawa.

SIR,—The Relief Act, 1934, provides that a report shall be laid before Parliament within fifteen days after the expiration of the Act, containing a full and correct statement of the moneys expended, guarantees given, and obligations contracted under the Act.

I have the honour to transmit herewith the report of Mr. Harry Hereford, Dominion Commissioner of Unemployment Relief, which, in addition to setting forth statements of expenditures, guarantees, and obligations, also contains much additional information referring to the administration of The Relief Act, 1934, and also to activities under the relief legislation of 1930, 1931, 1932, and 1933.

Respectfully submitted,

W. M. DICKSON,
Deputy Minister of Labour.

THE RELIEF ACT, 1934

DEPARTMENT OF LABOUR

REPORT OF THE DOMINION COMMISSIONER OF UNEMPLOYMENT RELIEF

OTTAWA, March 30, 1935.

To W. M. DICKSON, Esq., B.A.,
Deputy Minister of Labour.

SIR,—The undersigned begs to report as follows concerning the administration of The Relief Act, 1934.

The Relief Act, 1934, being Chapter 15 of 24-25 George V, was assented to April 20, 1934. Copy of the statute follows this report as Appendix "A."

Clause 9 of the Act provides that a report shall be laid before Parliament within fifteen days after the expiration of the Act, or if Parliament is not then in session, shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the moneys expended, guarantees given and obligations contracted under the Act.

Clause 11 of the Act provides that the Act shall expire on the thirty-first day of March, 1935, but as that date fell upon Sunday, March 30 has been taken as the expiry date of the statute.

By an Order in Council P.C. 875, of May 1, 1934, (see Appendix "B") administration of the Act was vested in the Minister of Labour.

Prior to the passing of the Act by Parliament, a Dominion-Provincial conference was held during January, 1934, the conference setting forth the following recommendations on unemployment relief measures for 1934:—

- "1. That until such time as the large numbers of unemployed throughout Canada have been substantially absorbed, either by improved industrial employment or by public works, federal assistance to the provinces should be continued on the basis of the provinces dealing with present economic conditions by the distribution of direct relief as provided in the existing agreements between the Dominion and the provinces.
- "2. That the Government of Canada should co-operate with such provinces as will organize commissions to administer relief funds, under such conditions as may be agreed upon.
- "3. That the time has arrived when a program of municipal and public works should be undertaken to absorb as large a proportion of the unemployed as possible, and that any such works should be commenced early in the spring in order to be effective in limiting the demand for direct relief in the following winter.
- "4. That the various provinces represented at the conference have no objection to the federal Government giving special consideration to provinces where conditions warrant.
- "5. That the existing agreements providing for land settlement be altered to permit of a further expenditure of not more than one hundred (\$100) dollars per family to provide for additional subsistence during the third year of settlement.

"In respect to recommendation No. 1 above the Dominion Government and the provincial representatives are united in the hope that a total discontinuance of direct relief can take place at an early date."

In July, the provincial Premiers were requested to attend a meeting at Ottawa on July 30 for the purpose of considering and dealing with the question of direct relief.

In accordance with the views expressed by the provinces the Dominion continued, under the provisions of The Relief Act, 1934, to assist the provinces in the discharge of their constitutional obligations in connection with necessary direct relief, and has also contributed at the request of the provinces to certain provincial and municipal works carried out as relief projects.

From the commencement of operations under the Act, namely, April 1, 1934, to July 31, 1934, contributions to direct relief expenditures were on a basis of a $33\frac{1}{3}$ per cent contribution by the Dominion to municipal expenditures, and in cases where no municipality was functioning and relief was distributed by the province, the Dominion Government contributed 50 per cent of the provincial expenditure.

From August 1, 1934, to March 30, 1935, the federal Government in place of contributing to direct relief expenditures on a percentage basis has paid to each province for the period mentioned, a monthly grant-in-aid to assist the province in discharging its responsibilities connected with the relief of necessitous persons within its borders during the period referred to; the province undertaking that all moneys received by virtue of this arrangement should be used solely for relief purposes.

The Dominion continued to contribute to the expenditures made by the four western provinces in connection with the care of homeless unemployed persons, in addition to the provisions made for the care of such persons through the projects carried on by the Department of National Defence and by the Department of the Interior in the National Parks of Canada.

The agreements with the provinces provided that the Dominion Government would contribute 50 per cent of the amounts expended by the provinces on such highways as have been designated by the provinces and approved by the federal Government as part of the Trans-Canada Highway, exclusive of the cost of administration and of acquisition of lands, the provinces agreeing to first submit to the Dominion for approval schedules setting forth the projects proposed to be carried on under the provisions of this arrangement.

The agreements with the provinces further provided in the case of Prince Edward Island, Nova Scotia, Quebec and Ontario, that the Dominion Government would contribute $33\frac{1}{3}$ per cent of the labour cost of certain projects which were recommended by the provinces and approved of by the federal Government.

Provision was also made in the agreements with the provinces of Prince Edward Island, Nova Scotia, New Brunswick, Quebec, Ontario and Manitoba for contribution to provincial highways other than the Trans-Canada Highway, while provision was made in the provinces of Prince Edward Island, Manitoba and Alberta for contribution to certain provincial works.

No agreements were entered into with the provinces of Saskatchewan and British Columbia, but the details of commitments and expenditures made are set forth in Table No. 1.

To the end of March, 1935, \$5,000,000 has been paid out by way of advance to the Province of Saskatchewan for relief in the dried out area and actual disbursements by the province are being checked by a representative of the Dominion stationed at Regina. A final decision has not yet been reached with the province as to the amount of the cost of these relief measures which will be assumed by the Dominion and, in the meantime, the sum advanced is being treated by the Department of Labour as an accountable advance.

The Relief Act, 1934, provided that the Governor in Council might provide for special relief, works and undertakings under the control and direction of the Department of National Defence and the Department of the Interior, for the purpose of affording relief to single homeless men. The numbers cared for month by month on these projects are set forth in Appendix "C."

Table No. 1 shows the approved Dominion commitments for the various projects and undertakings authorized under The Relief Act, 1934, and the Dominion disbursements in respect to all matters under The Relief Act, 1934, as at March 30, 1935.

(a) Not including expenditures which may have been made prior to March 31, 1935, accounts for which have not been received.

(b) Not including accountable advances of \$5,000,000.00 for relief purposes in the dried out areas. See Paragraph No. 8, Page No. 4.

(c) Under the Relief Settlement agreements the number of Settlers that may be placed is not limited.

In addition to expenditures under The Relief Act, 1934, the Public Works Construction Act, passed at the last Session of Parliament, provided for a program of Dominion public works with a total expenditure of \$39,690,000. While the actual disbursements to the end of the fiscal year were approximately \$8,500,000, contracts and commitments actually made to date are in the neighbourhood of \$25,000,000.

The disbursements for direct relief have been much greater than the actual expense incurred in the fiscal year period. In the first place, it will be remembered that the Relief Act of 1933 limited the amount which could be expended for direct relief to \$20,000,000. This resulted in a carry-over from last year amounting to \$9,355,127.41, which has been disbursed in the present fiscal year. Furthermore, the institution of monthly grants in aid to the provinces covering the Dominion's contribution for relief expenditure from August 1st last, has had the effect of bringing up to date the Dominion's share of direct relief expenditure, whereas in previous years the usual delay in the presentation of accounts first by the municipality to the province and then by the province to the Dominion, had the effect of creating a very considerable lag in the disbursements.

By Order of the Governor in Council of September 30, 1932 (P.C. 2163), the Auditor General was authorized to conduct such audits of provincial accounts in connection with unemployment relief expenditures as he deemed essential to safeguard the interests of the federal treasury, and to investigate the provincial systems of auditing municipal relief accounts to the end that the Dominion Government might be satisfied that the municipal accounts put forward by the provinces were in accordance with the agreements entered into between the Dominion Government and the provinces.

As a result of the Auditor General's investigations of the provincial systems of auditing the municipal accounts, he reported that in his judgment the provincial audits of municipal expenditures did not sufficiently protect the interests of the federal treasury. Consequently, on the recommendation of the Minister of Labour the Auditor General was directed by Order in Council of March 12, 1934 (P.C. 222), to conduct such audit of provincial and municipal accounts in connection with unemployment relief expenditures as he deemed essential to safeguard the interests of the federal treasury. This policy was continued under The Relief Act, 1934, the Auditor General being so authorized by Order in Council of August 11, 1934 (P.C. 1835).

On the basis of the information contained in the Auditor General's reports the provinces have been requested to make refunds to the federal treasury in respect of all expenditures which in the Auditor General's opinion should not have been charged to the Dominion. In many instances, although reporting that a refund was necessary, the Auditor General did not compute the amount of the adjustment required. In such cases, the amount has been or is being computed. In certain other instances the claims for refunds on the basis of information contained in the Auditor General's reports have been dropped because of satisfactory explanations and justifications submitted by the provinces.

Negotiations by correspondence and conferences regarding these matters have been carried on continuously with the provincial administrations during the past fiscal year and amounts recovered and otherwise adjusted to date under all relief legislation as follows:—

	Amounts Specifically Reported by the Auditor General as Refundable	Refunded	Otherwise Adjusted	Pending
	(1)	(2)	(3)	(4)
	\$	\$	\$	\$
P.E.I.....	27,586 89	1,114 76	14,148 31	12,363 07
N.S.....	54,953 59	5,541 45	39 60	49,499 14
N.B.....	8,889 24	2,036 05	2,533 20	4,538 01
Que.....	494,984 60	257 82	24 00	494,702 78
Ont.....	72,266 64	35,610 43	487 64	39,153 56
Man.....	103,217 83	19,916 45	68,467 66	15,492 70
Sask.....	107,895 95	33,219 13	16,555 34	62,871 01
Alta.....	66,637 08	33,971 35	41,659 15	303 47
B.C.....	23,601 08	23,956 26	229 74
	960,032 90	155,623 70	143,914 90	679,153 48

NOTE: The total of columns 2, 3 and 4 does not balance with column 1 because in many instances the amounts of the items questioned increased between the date of the Auditor General's examination and the date of settlement and because in other cases the Provinces made adjustments in respect of items where no amount had been established as refundable during the course of the audit, although the Auditor General indicated that an adjustment was necessary.

In addition to the foregoing, investigators of the Department of Labour have conducted enquiries and the provincial officials at the request of the Department of Labour have carried out investigations which have resulted in refunds being made by the provinces to the Dominion to adjust various overpayments. As a result of these investigations, considered apart from the Auditor General's examinations the following amounts have been recovered to date:—

Prince Edward Island.....	\$ 69,001 01
Nova Scotia.....	34,524 87
New Brunswick.....	317 83
Quebec.....	120,242 20

British Columbia.....	14,589 12
	708,981 93

Agreements effective from April 1st, 1934, to March 31st, 1936, were entered into with all the provinces excepting Prince Edward Island and British Columbia, providing continuity of settlement with the agreements respecting relief settlement entered into with the provinces under The Relief Act, 1932, which agreements expired on March 31, 1934. The agreements entered into under The Relief Act, 1934, make provision, as did the agreements entered into under the 1932 Act, for a Dominion non-recoverable expenditure of one-third of an amount not to exceed \$600. per family for the purpose of providing a measure of self-sustaining relief to families who would otherwise be in receipt of direct relief, by placing such families on the land, it being provided that the remaining two-thirds of the expenditures be contributed by the province and the municipality concerned as may be decided between the province and the municipality.

It is provided that the Dominion contribution shall be payable progressively as expenditures are made by the province and municipalities, and that the total expenditure on behalf of any one family during the first year shall not exceed \$500 for all purposes, inclusive of subsistence and establishment, a minimum amount of \$100 to be withheld to provide subsistence if necessary during the second year.

Provision is also made in the 1934 agreements for an additional non-recoverable contribution by the Dominion, on the recommendation of the Province and with the approval of the Governor in Council, of one-third of an amount not exceeding \$100 in the case of a settler who may not be self-supporting at the end of the two year period and for whom subsistence expenditures during the third year of settlement are deemed necessary. This additional amount for subsistence during the third year where necessary, applies both to those settled under the 1932 agreements and 1934 agreements.

Reports received from the provinces in regard to the number of approved settlers on the land under both the 1932 and 1934 agreements as at March 30, 1935, and the Dominion contributions as at that date, are as follows:—

Province	*Dominion Contri- butions	No. of Settler Families	No. of Individuals
Nova Scotia.....	29,766 54	263	1,655
Quebec.....	155,228 79	795	4,929
Ontario.....	52,881 01	503	2,483
Manitoba.....	85,923 28	507	2,430
Saskatchewan.....	104,450 95	826	4,096
Alberta.....	91,338 33	518	2,451
British Columbia.....	7,803 85	43	235
	527,392 75	3,455	18,279

*Not including expenditures which may have been made prior to March 30, 1935, but for which accounts have not been received.

Arrangements were continued with the Canadian Passenger Association whereby a reduced fare was granted on railways from urban centres to relief camps established by the Dominion and the provinces; and for the movement of unemployed farm help from urban centres to farms under arrangements made by provinces, municipalities and farmers, whereby farm help would be given employment. The special rate arranged was one and one half cents per mile.

Arrangements were made with the three Prairie Provinces in this respect as follows:—

- (a) Dominion contribution of 50 per cent of the cost of reduced rate for the movement of unemployed men from urban centres to Provincial relief camps during the period April 1, 1934 to September 1, 1934.
- (b) Dominion contribution of 50 per cent of cost of reduced rate for the movement of unemployed men from urban centres to farms during the period August 1, 1934 to March 31, 1935.
- (c) The utilization, by the Province, at its own expense, for the period Sept. 1, 1934 to March 31, 1935, of the reduced rate for the movement of unemployed men to Provincial relief camps.
- (d) Payment by the Dominion Government of the accounts as rendered by the Railway Companies, covering transportation as above, the Dominion in turn collecting from the Province, or in the alternative, by deducting from payments due by it to the said Province, its contribution as per (a) and (b) above, namely, 50 per cent each and as per (c) above, namely, 100 per cent.

The following table shows expenditures for railway transportation and the amounts collected from the provinces under The Relief Act, 1934, as at March 30, 1935.

Province	Total Accounts Paid	Pro- vincial Pro- portion	Col- lected from Province	Balance Collect- ible from Province
	\$	\$	\$	\$
Manitoba.....	3,578 28	2,055 49	2,055 49
Saskatchewan.....	383 52	191 77	191 77
Alberta.....	2,608 46	1,826 29	945 39	880 90
	6,570 26	4,073 55	3,192 65	880 90

The above table does not include transportation charges in respect of federal camps.

Under authority of section two of The Relief Act, 1934, the Dominion Government granted financial assistance to certain provinces by way of loans totalling \$33,199,811.47 which amount includes \$5,518,000 authorized but not yet paid. As security for the repayment of loans, the Dominion holds Provincial Treasury Bills bearing interest at the rate of 5% to July 1, 1934 and 4½% thereafter payable half-yearly.

The following statement shows the amounts loaned to provinces under authority of Orders-in-Council passed pursuant to the Relief Act, 1934, the purpose for which the loans were made and the renewals of loans outstanding March 31, 1934, less cash repayments and credits applied during the year:—

Province of Manitoba—

Loans for provincial purposes including Public Works and Direct Relief.....	\$ 2,502,000 00
Loans for re-loan to certain municipalities on account of relief outlays.....	1,400,000 00
Loans covering Provincial and/or Municipal share of relief in drought area.....	225,000 00

	\$ 4,127,000 00
Net loans outstanding March 31, 1934.....	10,233,998 63

	\$ 14,360,998 63
Less cash repayments and credits applied during 1934-35.....	1,252,369 18

Total outstanding 30th March, 1935.....	\$ 13,108,629 45
---	------------------

Province of Saskatchewan—

Loans for provincial purposes including Public Works and Direct Relief.....	\$ 3,934,811 47
Loans for agricultural relief including grasshopper control and purchase of seed grain.....	3,000,000 00
Loan to permit province to pay relief, feed and seed accounts on hand as at July 31, 1934.....	4,500,000 00

	\$ 11,434,811 47
Net loans outstanding March 31, 1934.....	23,982,137 14

	\$ 35,416,948 61
Less cash repayments and credits applied during 1934-35.....	1,293,797 45

Total outstanding 30th March, 1935.....	\$ 34,123,151 16
---	------------------

NOTE: In addition to above, accountable advances totalling \$5,000,000 have been made for relief purposes in Drought Area of Saskatchewan, which under authority of P.C. 834 of 30th March, 1935 are now treated as expenditures.

Province of Alberta—

Loans for provincial purposes including Public Works and Direct Relief.....	\$ 1,050,000 00
Loans for re-loan to certain municipalities on account of relief outlays.....	750,000 00
Loans for agricultural relief including purchase of seed grain.....	2,095,000 00

	\$ 3,895,000 00
Net loans outstanding March 31st, 1934.....	10,050,524 31

	\$ 13,945,524 31
Less cash repayments during 1934-35.....	1,968,524 31

Total outstanding 30th March, 1935.....	\$ 11,977,000 00
---	------------------

Province of British Columbia—

Loans for provincial purposes including Public Works and Direct Relief.....	\$ 5,225,000 00
Loans for re-loan to certain municipalities on account of relief outlay.....	500,000 00
Loans to meet maturing obligations and interest.....	2,500,000 00

	\$ 8,225,000 00
Net loans outstanding March 31st, 1934.....	7,047,520 83

Less cash repayments and credits during 1934-35.....	\$ 15,272,520 83
	258,286 10

Total outstanding 30th March, 1935.....	\$ 15,014,234 73
---	------------------

Grand Total of Loans Outstanding 30th March, 1935.....	\$ 74,223,015 34
--	------------------

In addition to the above the following loans were authorized by the Relief Act, 1934,
but actual payments not yet made:

Manitoba.....	\$ 410,000
Alberta.....	3,858,000
British Columbia.....	1,250,000
	<hr/>
	5,518,000 00
	<hr/>
	\$ 79,741,015 34

DEPARTMENT OF FINANCE,
OTTAWA, March 30th, 1935.

Appendix "D" shows a summary of all loans outstanding under relief legislation as at March 30, 1935.

THE RELIEF ACT, 1934, GUARANTEES

NO. OF ORDER IN
COUNCIL AND DATE

PROVISIONS OF GUARANTEE

P.C. 890, 14th
May, 1934.

Wheat Marketing:

Supplementing the guarantees authorized in 1931, 1932 and 1933 arising out of the marketing of the 1930 crop, this Order in Council guaranteed repayment of such further advances and interest thereon as may be made by chartered banks to Canadian Co-operative Wheat Producers Limited subsequent to March 31, 1934, in respect of contracts already acquired or contracts in substitution for or in addition to existing contracts for delivery of wheat and other grains, in order to secure the advantageous sale or disposition of such grains and contracts.

DEPARTMENT OF FINANCE,
OTTAWA, March 30, 1935.

Orders in Council covering activities under the statute have been laid before Parliament after the issuance thereof when Parliament has been in Session, otherwise abstracts of the said Orders in Council, disclosing their essential provisions, have been published in the Canada Gazette, in accordance with Clause 8 of the Act.

Annexed to this report as Appendix "E" is a memorandum setting forth in considerable detail the various activities and expenditures under the relief legislation of 1930, 1931, 1932, 1933 and 1934.

Tables showing expenditures made and staff employed for administration purposes under The Relief Act, 1934, are shown on page 48 of Appendix "E".

Respectfully submitted,

HARRY HEREFORD,

Dominion Commissioner.

APPENDIX "A"

24-25 GEORGE V.

CHAP. 15.

An Act respecting Relief Measures.

[Assented to 20th April, 1934.]

Preamble. Whereas the Provinces may require further assistance in carrying out necessary relief measures and in meeting financial conditions as the same may arise; and whereas in such event it is in the national interest that Parliament should support and supplement the relief measures of the Provinces and grant them financial assistance in such manner and to such extent as the Governor in Council may deem expedient; and whereas it is necessary to make provision for further expenditure for relief purposes under the Department of National Defence and the Department of the Interior; and whereas for these and similar purposes the powers necessary to insure the speedy and unhampered prosecution of such relief measures and the maintenance of the credit of the Dominion and the Provinces thereof should be vested in the Governor in Council; Now, therefore, His Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

Short title. **1.** This Act may be cited as *The Relief Act, 1934.*

Agreements with provinces **2.** Notwithstanding the provisions of any statute or law the Governor in Council may, upon such terms and conditions as may be agreed upon,—enter into agreements with any of the provinces respecting relief measures therein; grant financial assistance to any province and to Canadian Co-operative Wheat Producers Limited by way of loan, advance, guarantee, or otherwise; and in respect of such loans, advances and guarantees, may accept such security, enter into such agreements and generally do all such acts and things as the Governor in Council may deem necessary and expedient in the public interest.

Loans to provinces, and Canadian Co-operative Wheat Producers Limited. **3.** In addition to the powers conferred under the provisions of any statute or law the Governor in Council may, when Parliament is not in session, take all such measures as in his discretion may be deemed necessary or advisable to maintain, within the competence of Parliament, peace, order and good government throughout Canada; and at all times take all such measures as in his discretion may be deemed necessary or advisable to protect and maintain the credit and financial position of the Dominion or any Province thereof.

Maintain peace, order and good government.

Protect financial credit.

4. Without restricting the generality of the terms of the next preceding section hereof and notwithstanding the provisions of any statute or law, the Governor in Council may

Further powers of Governor in Council.

- (a) Provide for special relief, works and undertakings under control and direction of the Department of National Defence and the Department of the Interior;
- (b) Take all such other measures as may be deemed necessary or advisable for carrying out the provisions of this Act.

5. The Governor in Council may pay out of the Consolidated Revenue Fund such moneys as may be necessary for all or any of the purposes of this Act.

Payments out of the Consolidated Revenue Fund.

6. The Governor in Council shall have full power to make all such orders and regulations as may be deemed necessary or desirable to carry out the purposes and intention of this Act.

Orders and regulations.

7. All orders and regulations of the Governor in Council made thereunder shall have the force of law and may be varied, extended or revoked by any subsequent order or regulation; but if any order or regulation is varied, extended or revoked, neither the previous operation thereof nor anything duly done thereunder shall be affected thereby, nor shall any right, privilege, obligation or liability acquired, accrued, accruing or incurred thereunder be affected by any such variation, extension or revocation.

Enforcement of orders and regulations.

8. All Orders in Council and regulations made under the provisions of this Act shall be laid before the House of Commons forthwith after the making thereof if Parliament is then sitting, or if not, said orders in council or regulations or an abstract thereof disclosing their essential provisions shall be published in the next following issue of the *Canada Gazette*.

Orders and regulations laid before Parliament.

9. A report shall be laid before Parliament within fifteen days after the expiration of this Act, or if Parliament is not then in session, shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the moneys expended, guarantees given and obligations contracted under this Act.

Report to Parliament.

10. The Governor in Council may pay out of the Consolidated Revenue Fund any accounts in respect of the Dominion contributions towards direct relief for the fiscal year 1933-34 which may be received after the thirty-first day of March, 1934, notwithstanding that by the payment of the said accounts the total amount paid for that purpose for the fiscal year ending the thirty-first day of March, 1934, may exceed the sum of twenty million dollars as fixed by section four of chapter eighteen of the statutes of 1932-33.

Payment of delayed accounts in excess of amount authorized.

11. This Act shall expire on the thirty-first day of March, 1935, but any obligation or liability incurred or created under the authority of this Act prior to the thirty-first day of March, 1935, together with any liability for expenditures after that date for projects required to be completed in order to preserve the value of work already done may be paid and discharged out of the Consolidated Revenue Fund at any time prior to the first day of July, 1935.

Duration of Act.

APPENDIX "B"

P.C. 875

CERTIFIED to be a true copy of a Minute of a Meeting of the Committee of the Privy Council, approved by His Excellency the Governor General on the 1st May, 1934.

The Committee of the Privy Council have had before them a report, dated 27th April, 1934, from the Minister of Labour, representing:

That Parliament has enacted legislation which may be cited as The Relief Act, 1934;

That Clause 6 thereof provides that the Governor in Council shall have full power to make all such Orders and Regulations as may be deemed necessary or desirable to carry out the purposes and intentions of this Act.

The Committee, on the recommendation of the Minister of Labour, advise that the administration of the said Act be vested in the Minister of Labour.

(Sgd.) E. J. LEMAIRE,

Clerk of the Privy Council.

The Honourable The Minister of Labour.

APPENDIX "C"

The tables which follow provide a summary of relief as reported by Provinces and Federal Departments month by month. In connection with the figures which pertain to the numbers given Direct Relief, it must be borne in mind that these figures include children as well as adults, and every individual given Direct Relief is included, though such relief may have been given for only one day or part of a day during the month.

DEPARTMENT OF FINANCE,
30TH MARCH, 1935

APPENDIX "E"

FEDERAL CONTRIBUTIONS TO RELIEF EXPENDITURES

SEPTEMBER 22, 1930-MARCH 30, 1935

In the year 1930 unemployment had become so general throughout Canada as to constitute a matter of national concern and, while not overlooking the principle that it is primarily a provincial and municipal responsibility, it was deemed desirable that assistance should be rendered by the Government of Canada towards its relief. The first session of the Seventeenth Parliament was, therefore, specially summoned for the purpose of dealing with the problems arising out of the exceptional economic conditions with resultant unemployment which were prevalent. At that session Parliament enacted The Unemployment Relief Act, 1930, which received Royal Assent on September 22, 1930. Under the provisions of this statute the sum of twenty million dollars was appropriated for the relief of unemployment under such terms and conditions as might be approved by the Governor General in Council. The Act specified that the \$20,000,000 might be expended "in constructing, extending or improving public works and undertakings, railways, highways, bridges and canals, harbours and wharves; assisting in defraying the cost of distribution of products of the field, farm, forest, sea, lake, river and mine; granting aid to provinces and municipalities in any public work they may undertake for relieving unemployment and reimbursing expenditures made by provinces and municipalities in connection with unemployment and generally in any way that will assist in providing useful and suitable work for the unemployed."

At the date of expiration of The Unemployment Relief Act, 1930, namely March 31st, 1931, unemployment conditions throughout Canada had increased to the extent that the twenty million dollars voted by Parliament in 1930, while alleviating unemployment, proved insufficient to entirely cope with the situation, and Parliament therefore enacted at the second session of the Seventeenth Parliament legislation cited as The Unemployment and Farm Relief Act, 1931. This Act which received Royal Assent on August 3, 1931, unlike

the previous legislation which appropriated a specific amount for the relief of unemployment, conferred power upon the Governor in Council to expend such moneys as in his discretion might be deemed expedient for relieving distress, providing employment and maintaining within the competence of Parliament, peace, order, and good government throughout Canada.

When the Unemployment and Farm Relief Act, 1931, expired on March 1, 1932, an Act cited as The Unemployment and Farm Relief Continuance Act, 1932, was enacted by Parliament. This Act received Royal Assent on April 4th, 1932, and in effect extended all the provisions of the Unemployment and Farm Relief Act, 1931, to May 1, 1932, notwithstanding the expiration of this statute on March 1, 1932.

As a condition of unemployment still existed in the years 1932, 1933 and 1934, it was deemed desirable to continue rendering assistance to the unemployed. Provision was, therefore, made by Parliament in the form of The Relief Act, 1932, which received Royal Assent on May 13, 1932, The Relief Act, 1933, which received Royal Assent on March 30, 1933, and The Relief Act, 1934, which received Royal Assent on April 20, 1934. These statutes invested the Governor in Council with similar powers to those invested by The Unemployment and Farm Relief Act, 1931.

Expenditures for relief extended to those in need, which were participated in by the Dominion Government under the provisions of the legislation referred to above, have included contributions to the construction of federal, provincial and municipal works, such as public buildings, the Trans-Canada and other highways, sidewalks, sewers, gas mains, water mains, breakwaters, dams, wharves, bridges, culverts, National Park improvements, subways and grade crossing eliminations, interest on the cost of railway construction carried out in advance of normal programs, the movement of settlers from the dried out areas of Western Canada, freight on feed into the dried out areas, freight on livestock from and return to the dried out areas, the transportation of unemployed to employment opportunities, a land settlement plan, the operation of relief camps for single homeless men, the making of loans, the furnishing of various guarantees, and the provision of food, fuel, clothing and shelter to those for whom no employment could be provided, all of these matters being dealt with in detail in the following pages.

PUBLIC WORKS AND UNDERTAKINGS

Under the provision of The Unemployment Relief Act, 1930, agreements were entered into between the Dominion and the provinces providing that the Dominion would contribute 25% of the cost of public works and undertakings carried on by the municipalities to provide work for the unemployed, it being provided that a like percentage would be contributed by the province and the balance of 50% borne by the municipality concerned. The agreements further provided that the Dominion would pay one-half of the cost of provincial public works and undertakings carried on to provide work for the unemployed, including one-half of any amounts expended by the provinces on the Trans-Canada Highway.

The agreements between the Dominion and the provinces, and the tripartite agreements between the Dominion, the province and the municipalities, in the case of municipal works, contained a provision that on all works to which the Dominion contributed fair wages were to be paid and that the maximum work day should be eight hours; that all persons employed on such works were to be, so far as practicable, residents of the locality in which the work was to be performed, and that there should be no discrimination in the employment of persons by reason of their political affiliations.

The amount contributed by the Dominion under the provisions of the Unemployment Relief Act, 1930, towards the cost of public works and undertakings carried out by the provinces and municipalities was \$11,720,257.45.

Supplementary to the contributions made to municipal and provincial works and undertakings, \$500,000 was transferred from the unemployment relief appropriation to the Grade Crossing Fund to be used to implement the fund available for the elimination of grade crossings so that unemployment might be relieved by the building of subways.

In order to provide employment for Canadian miners, in the Nova Scotia coal mines, and further to create a greater consumption of the Canadian product, the Dominion contributed one-third, namely \$41,718.22 of the additional cost of banking during the winter of 1930 and 1931 an additional 100,000 tons of Nova Scotia bituminous coal for use by the Canadian National Railways in areas west of Montreal. The remaining two-thirds of the cost was borne in equal portions by the Canadian National Railways and the coal producers.

Agreements were also entered into with the Canadian Pacific Railway Company and the Canadian National Railways whereby there would be expended by the two railway companies the sum of approximately \$25,000,000 in the performance of certain works, and the purchase of certain material over and above their normal expenditures. As compensation to the railway companies for undertaking the various works immediately the Dominion paid, under the provisions of The Unemployment Relief Act, 1930, interest at the rate of 5 per cent per annum, calculated for a period of eighteen months on the total estimated cost of the works referred to. The Dominion's disbursement in this respect was \$863,550.00 to the Canadian Pacific Railway Company, and \$882,412.35 to the Canadian National Railways.

In addition to the foregoing the sum of \$36,996.37 was expended out of the appropriation provided under The Unemployment Relief Act, 1930, by the Department of Interior on certain works in the National Parks of Canada to provide relief for the permanent residents of the Parks.

Under The Unemployment and Farm Relief Act, 1931, and the Continuance Act, 1932, the agreements between the Dominion and the provinces provided, with respect to municipal public works and undertakings, that the Dominion would contribute 25% towards the expenditures of municipalities in the five eastern provinces and 50% in the western provinces, unless by reason of their financial condition any municipality was unable to contribute the required amount in which case assumption of a greater proportion by the Dominion might be specifically authorized by the Governor General in Council. With respect to provincial works and undertakings, the Dominion contribution was 50% in all provinces and a similar percentage in all provinces was contributed by the Dominion in connection with work carried out on the Trans-Canada Highway. Towards the cost of provincial highways, the Dominion contribution was 50 per cent in Prince Edward Island, Manitoba, Saskatchewan, Alberta, and British Columbia, and 40 per cent in Nova Scotia, New Brunswick, Quebec and Ontario.

The agreements provided that a maximum work day of eight hours was to prevail; that fair and reasonable rates of wages were to be paid by the provinces and municipalities, but that such rates were not to be in excess of the rates required to be paid by the federal Government for the character or class of work in the district; that only goods and materials of Canadian manufacture or production if available were to be used; that contracts were to be let only to bona fide Canadian construction firms; and that not less than 40 per cent of the amounts spent on public works and undertakings was to be expended for labour. Provision was also made in the agreements that all persons employed

on works or undertakings were to be residents of Canada and so far as practicable of the locality in which the work was being performed and in no case was discrimination to be made or permitted in the employment of any person by reason of their political affiliation, race or religious views.

The amount contributed by the Dominion under the provisions of The Unemployment and Farm Relief Act, 1931, and continuance Act, 1932, towards the cost of public works and undertakings carried out by the provinces and municipalities was at March 30, 1935 \$25,225,707.79.

In addition to the employment afforded by the construction of public works and other undertakings of the provinces and municipalities, certain works were undertaken by the federal Government through various departments as follows:

Department of Interior—public works in the Yukon and National Parks of Canada.

Department of Agriculture—Improvements at experimental station, Fredericton, New Brunswick.

Department of Railways and Canals—Construction of C.N.R. subway at St. Lambert, P.Q., and construction on the Welland ship canal.

Board of Railway Commissioners—Grants to construction of subways and grade crossings at various points in Canada.

Department of National Defence—Repairs to Peterborough armoury, exterior painting of the Napanee armoury, completion of construction of the North Vancouver, British Columbia, rifle range; repairs to fortification walls at Quebec, P.Q.; repairs and improvements, Levis, P.Q.; repairs and improvements at the Valcartia camp, P.Q.

National Battlefields Commission—terracing a portion of avenue destined to be connected later to one of the avenues to be built across the "Covefields" in the National Battlefields of Quebec, also exploitation of Corrigan Quarry on St. Louis road, Quebec City and district, and extraction of stones for building avenues.

An extensive programme of public works was also undertaken throughout the Dominion by the Department of Public Works.

The amount expended under the Unemployment and Farm Relief Act, 1931, and Continuance Act, 1932, on such federal works and undertakings was at March 30, 1935 \$3,878,648.29.

Prior to the enacting of The Relief Act, 1932, a conference was held at which all the provinces were represented. At this conference the view expressed by the provinces was that the situation would not permit of any further extension of programmes of public works to relieve unemployment and that it was desirable that the Dominion Government should continue to contribute to the expenditures of the provinces and municipalities in respect to direct relief. Consequently public works were not carried out as extensively as under the previous relief statutes. The Dominion did, however, at the request of the provinces contribute to the construction of the various works and undertakings outlined below.

Prince Edward Island—Falconwood Hospital.

Nova Scotia—Trans-Canada highway and provincial highways.

Ontario—Roads and Trans-Canada Highway. Also board camps established by the provincial Government for unemployed who were engaged chiefly on road work.

Manitoba—Roads.

Saskatchewan—Roads.

Alberta—Roads and Embankment on Highwood River.

British Columbia—Board camps.

The amount contributed by the Dominion towards the cost of public works and undertakings carried out by the provinces under the provisions of The Relief Act, 1932, was at March 30, 1935, \$1,350,425.18.

Under the 1932 legislation, as under the 1931 legislation, the undertakings carried out by the provinces were supplemented by various federal projects, namely, relief works in the Yukon, also works in the National Parks to provide relief for the permanent residents of the Parks carried out by the Department of Interior; construction of dykes on the Assiniboine River at Winnipeg (to the cost of which the province contributed 10 per cent) carried out by the Department of Public Works; and the equipping of two steamers for the exporting of cattle by the Department of Agriculture. In addition camps for the care of single homeless men were established by the Departments of National Defence and Interior. These camps, which were continued and expanded under the subsequent Relief Acts are dealt with under the heading of "Relief to Single Homeless Persons".

The amount expended by the Dominion on federal works and undertakings under the provisions of The Relief Act, 1932, exclusive of the Department of National Defence and Department of Interior camps, was at March 30, 1935 \$38,297.43.

At a Dominion-Provincial conference held in January, 1933, the provinces expressed the view that the Dominion should resume the policy in effect in 1930 and 1931 whereby extensive programmes of public works and undertakings were carried out.

Agreements were, therefore, entered into with the provinces providing generally for Dominion contribution to municipal works on a basis of 33 $\frac{1}{3}$ per cent of the direct labour cost; to Trans-Canada Highway work on a basis of 60 cents per man-day of work performed; and to work undertaken on roads other than the Trans-Canada Highway on a basis of 50 cents per man-day of work performed.

Provision was made in the agreements, as in the 1930 and 1931 agreements, that a maximum work day of eight hours should prevail on all works; that only goods and materials of Canadian manufacture or production, if available, should be used; that contracts were to be let only to Canadian persons, bona fide Canadian firms or corporations; that and all persons employed on the works were to be residents of Canada; and in no case was discrimination to be made or permitted by reason of political affiliation, race, or religious views.

With respect to municipal works, the agreements provided that the rates of wages were to be set by the municipalities, while with respect to work on the Trans-Canada Highway, and roads other than the Trans-Canada Highway, the agreements provided that should the provinces, for the purpose of carrying out the construction of such highways, establish work camps, the conditions regarding clothing, subsistence, accommodation, medical care, and allowances to labourers, and supervisory staffs, should be similar to those standardized by the Department of National Defence in their relief camps.

Under the provisions of The Relief Act, 1933, the Dominion contributed as at March 30, 1935, \$3,059,340.85 towards the cost of public works and undertakings carried out by the provinces and municipalities.

Under the 1933 legislation the Department of Interior continued relief works in the National Parks for the relief of permanent residents of the parks, the expenditure in this connection being \$66,683.06 during the fiscal year.

Under the provisions of The Relief Act, 1934, public works were not carried out as extensively as under the 1930, 1931 and 1933 statutes. However, the agreements entered into with the provinces of Prince Edward Island, Nova Scotia, New Brunswick, Quebec, Ontario, Manitoba and Alberta provided for Dominion contributions with respect to construction of public works as follows:

Prince Edward Island—Trans-Canada Highway; provincial roads and municipal works.

Nova Scotia—Trans-Canada Highway; completion of various provincial highway works and municipal works approved under the 1933 Act.

New Brunswick—Trans-Canada Highway and provincial roads.

Quebec—Trans-Canada Highway; completion of certain provincial highway works and municipal works approved under the 1933 Act.

Ontario—Trans-Canada Highway; completion of various provincial highway works and municipal works approved under the 1933 Act.

Manitoba—Trans-Canada Highway; provincial roads; addition to Brandon Mental Hospital.

Alberta—Trans-Canada Highway, provincial roads, and addition to Ponoka Hospital.

No agreements were entered into with the provinces of Saskatchewan and British Columbia under The Relief Act, 1934, but authority for Dominion contribution towards the cost of camps established by the province of Saskatchewan for the purpose of carrying out road work was obtained by Order of His Excellency the Governor in Council, for the period April 1, 1934, to September 1, 1934.

The approved Dominion contribution towards the provinces' cost of construction of the Trans-Canada Highway under The Relief Act, 1934, was 50 per cent.

The provisions of the agreements with respect to rates of wages were similar to those contained in the agreements entered into with the provinces under The Relief Act, 1933, viz., a maximum work day of eight hours was to prevail; rates of wages with respect to municipal works to be set by the municipalities; rates of wages with respect to provincial works to be set by the provinces; and in no case was discrimination to be made or permitted against any resident of Canada by reason of his or her race, religious views or political affiliation.

Under The Relief Act, 1934, the carrying out of works in the National Parks to provide relief for the permanent residents of the Parks was continued by the Department of Interior, the Dominion's expenditure in this respect being \$56,468.46 during the fiscal year.

In addition to expenditures under The Relief Act, 1934, the Public Works Construction Act, passed at the last Session of Parliament, provided for a programme of Dominion public works with a total expenditure of \$39,690,000. While the actual disbursements to the end of the fiscal year were approximately \$8,500,000, contracts and commitments actually made to date are in the neighbourhood of \$25,000,000.

The following table sets forth the Dominion's disbursements with respect to public works under relief legislation from September 22, 1930, to March 30, 1935, by provinces, etc.:—

	1930 Act	1931 Act	1932 Act	1933 Act	1934 Act		Total
					On Expenditures prior to March 31, 1934	On Expenditures after March 31, 1934	
	\$	\$	\$	\$	\$	\$	\$
Prince Edward Island....	90,000.00	131,054.85	5,328.24	68,454.57		118,056.16	412,893.82

	14,027,936.31	28,238,548.73	1,363,725.24	3,034,598.55	1,756,498.15	843,304.01	49,294,610.99

The above table does not include expenditures made by the Department of Interior for works in the National Parks to provide relief for the permanent residents of the Parks as the records of that Department with respect to such works are kept by fiscal years and not by Acts. The total amount expended by the Department of Interior from September 22, 1930, to date, in this connection is, however, \$1,050,952.81.

DIRECT RELIEF

Out of the sum of \$20,000,000 appropriated under The Unemployment Relief Act, 1930, an amount of \$4,000,000 was set aside for the purpose of supplementing the expenditures of the municipal and provincial authorities for "Direct Relief" (which was defined as food, fuel, clothing and shelter, or the equivalent thereof) where suitable work could not be provided. The Dominion contribution towards the direct relief expenditures of municipalities was $33\frac{1}{3}$ per cent, a similar proportion being borne by the province and municipality concerned, while the cost of provincial direct relief in unorganized territories was borne on a 50-50 basis between the Dominion and province concerned.

Unlike relief works, the amounts granted to the various provinces and municipalities were not approved prior to the incurring of the expenditure, but were paid by the Dominion on receipt of certified statements of expenditure from the provinces.

Of the \$4,000,000 set aside for direct relief under the provisions of The Unemployment Relief Act, 1930, the Dominion disbursed to the provinces for that purpose the sum of \$3,532,119.44.

The agreements entered into between the Dominion and the provinces under the terms of The Unemployment and Farm Relief Act, 1931, provided for Dominion contribution towards the direct relief expenditures of the muni-

palities and provinces on a similar basis to that in effect under the 1930 Act. In 1931 however a situation had arisen chiefly in the western provinces whereby a number of destitute persons, who having no settled place of abode, were moving about the country and receiving direct relief at different centres. It was represented that the cost of this class of relief was not a proper charge against the municipalities, and authority was therefore obtained under the provisions of the 1931 Act for a Dominion contribution of 50% of the cost of direct relief distributed to "transients," the balance of the cost of such relief being borne by the province concerned. Authority was also obtained under the 1931 legislation for a Dominion contribution of 50 per cent of the direct relief expenditures of municipalities which, owing to their financial condition were unable to bear their share of direct relief costs.

The amount expended by the Dominion for direct relief purposes under The Unemployment and Farm Relief Act, 1931, and Continuance Act, 1932, was at March 30, 1935, \$6,406,654.54. This figure does not include contributions to the province of Saskatchewan for direct relief distributed by the Saskatchewan Relief Commission, the activities of that Commission being dealt with under the heading "Relief in the Dried Out Areas."

Under the provisions of The Relief Act, 1932, the same basis of contribution in respect to direct relief as was in force under The Unemployment and Farm Relief Act, 1931, and Continuance Act, 1932, applied generally. In the case of municipalities unable to bear the full $33\frac{1}{3}$ per cent, special percentages were approved on the recommendation of the provinces, the Dominion and province concerned bearing the increased balance equally. Under this legislation, the Dominion also contributed 100 per cent, not exceeding 40 cents per person, per diem, of the cost of direct relief extended to single homeless persons. This phase of relief is dealt with under the heading "Relief to Single Homeless Persons."

The total cost to the Dominion for direct relief purposes under The Relief Act, 1932, exclusive of "Single Homeless Persons" relief was at March 30, 1935, \$16,989,313.09.

The agreements entered into with the provinces under The Relief Act, 1933, provided for Dominion contributions towards the cost of direct relief similar to those made under The Relief Act, 1932. One deviation from previous direct relief regulations, however, was the provision contained in the 1933 agreements requiring that before the equivalent of food, fuel, clothing or shelter was distributed by the municipalities and provinces, the distribution of such equivalent must be approved by the Dominion.

The amount expended for direct relief purposes by the Dominion under The Relief Act, 1933, was at March 30, 1935, \$18,226,980.66.

Under the provisions of The Relief Act, 1934, the agreements entered into with the provinces under the provisions of The Relief Act, 1933, in so far as they concerned direct relief, were extended by Orders of the Governor General in Council to July 31, 1934. From August 1st, 1934, to March 30th, 1935, the federal Government in place of contributing to direct relief expenditures on a percentage basis paid to the provinces for the period mentioned, a monthly grant-in-aid to assist each province in discharging its responsibilities connected with the relief of necessitous persons within its borders during the period referred to; the province undertaking that all moneys received by virtue of this arrange-

ment should be used solely for relief purposes. These grants-in-aid for the eight months August 1934 to March 1935 inclusive, were determined on the basis of need and the ability of the province to deal with the problem, as follows:

Prince Edward Island.....	\$ 17,000	equal to \$ 2,125.00 per month
Nova Scotia.....	327,000	" " 40,875.00 " "
New Brunswick.....	200,000	" " 25,000.00 " "
Quebec.....	4,000,000	" " 500,000.00 " "
Ontario.....	4,800,000	" " 600,000.00 " "
Manitoba.....	1,080,000	" " 135,000.00 " "
Saskatchewan.....	1,600,000	" " 200,000.00 " "
Alberta.....	800,000	" " 100,000.00 " "
British Columbia.....	1,200,000	" " 150,000.00 " "

Apart from the direct relief arrangements set out above, the Dominion paid to the province of Saskatchewan 100 per cent of the direct relief expenditures of the Saskatchewan Relief Commission in certain sections of the dried out areas of that province under the 1931 and 1932 legislation. Likewise the Dominion contributed 100 per cent of certain direct relief expenditures made by the province of Alberta in the dried out areas of that province under the 1932 Act. These undertakings however are dealt with under the heading of "Relief in the Dried Out Areas."

The following table sets forth the Dominion's disbursements with respect to "Direct Relief" under relief legislation since 1930 by provinces exclusive of the grants-in-aid under the Relief Act, 1934:—

	1930 Act	1931 Act	1932 Act	1933 Act	1934 Act		Total
					Expenditures for fiscal year March 31, 1934	Expenditures after March 31, 1934

RELIEF SETTLEMENT

Under the provisions of The Relief Act, 1932, agreements were completed with all the provinces except Prince Edward Island providing for a Dominion non-recoverable expenditure of one-third of an amount not to exceed \$600.00 per family for the purpose of providing a measure of self-sustaining relief to families who would otherwise be in receipt of direct relief by placing such families on the land, it being provided that the remaining two-thirds of the expenditure were to be contributed by the province and municipality concerned as might be decided between the province and the municipality. The agreements provided that the Dominion contribution should be payable to the provinces progressively as expenditures were made by the provinces and municipalities and that the total expenditure on behalf of any one family during the first year should not exceed \$500.00 for all purposes, inclusive of subsistence and establishment, a minimum amount of \$100.00 to be withheld to provide subsistence if necessary during the second year of settlement. The agreements which covered a period of two years expired on March 31, 1934.

Under the provisions of The Relief Act, 1934, agreements effective from April 1, 1934, to March 31, 1936, providing continuity of settlement with the agreements which expired March 31st, 1934, were entered into with all the provinces excepting Prince Edward Island and British Columbia. Provision is made in the new agreements for an additional non-recoverable contribution by the Dominion, on the recommendation of the province and with the approval of the Governor in Council, of one-third of an amount not exceeding \$100 in the case of a settler who may not be self-supporting at the end of the two year period and for whom subsistence expenditures during the third year of settlement are deemed necessary. This additional amount for subsistence during the third year where necessary, applies both to those settled under the 1932 agreements and 1934 agreements.

With respect to transportation, arrangements have been made with the railway companies whereby reduced passenger and freight rates are in effect for settlement operations under this plan.

Under the terms of the Dominion-Provincial relief settlement agreements the provinces are responsible for the administration of the settlement including,

- (a) the selection of suitable families;
- (b) the selection of suitable lands;
- (c) the settlement of families on the land;
- (d) the expenditure of the public monies involved.

The agreements further provide that the provinces shall each set up an advisory committee upon which shall be included representatives of the Dominion Land Settlement Branch, the Colonization Branch of the Canadian Pacific Railway Company, and the Colonization Branch of the Canadian National Railways. The counterpart of the provincial advisory committees is a Dominion committee appointed to act in an advisory capacity to the Minister of Labour, who is charged with the responsibility of the disbursement of the Dominion funds involved. The Dominion advisory committee consists of the Deputy Minister of Immigration and Colonization, the Dominion Commissioner of Unemployment Relief, the Chief Commissioner of Colonization of the Department of Immigration and Colonization, the Chief Commissioner of Colonization for the Canadian Pacific Railway Company, the Director of Colonization for the Canadian National Railways and the Chief Accountant of the Dominion Unemployment Relief Branch.

Reports received from the provinces in regard to the number of approved settler families and the total number of individuals on the land, both under the 1932 and 1934 agreements as at March 30, 1935, are as follows, while the total cost to the Dominion in connection with this scheme at the same date is \$527,392.75:—

Province	No. of Settler Families	No. of Indi- viduals
Nova Scotia.....	263	1,655
Quebec.....	795	4,929
Ontario.....	503	2,483
Manitoba.....	507	2,430
Saskatchewan.....	826	4,096
Alberta.....	518	2,451
British Columbia.....	43	235
	3,455	18,279

RELIEF TO SINGLE HOMELESS PERSONS

In the fall of 1932, representations were made to the Government with respect to certain municipalities in Western Canada to the effect that they were unable to bear the cost of relief of many thousands of transients who, it was represented, were neither residents of the municipalities nor the provinces themselves.

Agreements were consequently entered into with the four western provinces whereby it was agreed that the provinces should establish camps under the management of honorary commissions appointed by provincial Executive Order, such camps to be operated at various leading centres where single homeless persons selected by the commissions could be provided with food, fuel, clothing and shelter and so far as possible be engaged in useful work. It was also provided by the agreements that, where suitable, single homeless persons might be placed on farms, or, at the discretion of the commissions, cared for by any municipality or charitable organization. The agreements provided that the Dominion Government would pay 100 per cent of the cost of providing necessary food, fuel, clothing and shelter to this class of unemployed persons at a cost not to exceed 40 cents per person per diem, except in the case of persons placed on farms, who, it was provided, would receive \$5.00 per month, the provinces bearing any necessary costs of administration.

These agreements were in effect to July 31st, 1933, after which date agreements entered into with the four western provinces under the terms of The Relief Act, 1933, provided that the Dominion would assume the responsibility for the care of physically fit homeless men. This responsibility the Dominion discharged by establishing camps under the administration of the Departments of Interior and National Defence. With respect to those not eligible for the federal camps, the 1933 agreements provided that the Dominion would contribute one-half of the actual cost, the total of such actual cost not to exceed 40 cents per day per person, of providing the necessary food, fuel clothing and shelter for each homeless person placed in residence in a provincially operated camp with the same allowance when relief was distributed to such persons by a municipality or charitable organization. Under the Relief Act, 1934, the Dominion is continuing to care for physically fit homeless men in federally operated camps, while the Dominion's contribution to the provinces' cost of caring for physically unfit homeless persons is included in the monthly grants-in-aid being made to the provinces as described in the section of this summary dealing with direct relief.

At March 30, 1935, the Dominion's contributions to the provinces for the care of single homeless persons exclusive of the cost of operating the federal camps, the grants-in-aid under the 1934 Act, and the placement of persons on farms, all of which are dealt with in other sections of this summary, aggregated to the province of Manitoba \$679,863.34, to the province of Saskatchewan \$124,255.27, to the province of Alberta \$585,843.51, and to the province of British Columbia \$1,896,168.70.

DEPARTMENT OF INTERIOR

In 1932 relief operations for the care of single homeless men were carried on by the Department of Interior during the summer season and until December 31st, camps being established on the Banff-Jasper Highway and men taken principally from the cities of Calgary and Edmonton. This work was done under an agreement with the province of Alberta whereby the cost was divided between the province of Alberta and the Dominion. The allowance to ordinary labour was \$7.50 per month up to November 1st, from which date on the allowance was \$5.50 per month. Early the same fall relief work was carried out in Riding Mountain Park under a somewhat similar arrangement between the Dominion Government and the provincial Government of Manitoba.

Since the fall of 1933, 20 cents per working day has been the allowance granted the men taken into the camps. Supplementary to the allowance mentioned above for general labour, free clothing, food, living quarters, medical attention, transportation, etc., were supplied by the Government.

In addition to the relief works undertaken in the National Parks, construction operations, as a relief measure for single homeless men and at relief rates, were undertaken by the Department of Interior on the Big Bend Highway in the province of British Columbia beginning in the fall of 1931 and for various periods since that date.

In all the different National Parks a great variety of projects were undertaken including general brushing and clearing of deadfall and debris adjacent to town-sites, along highways, etc., in order to improve the general appearance of the Parks, as well as to reduce the fire hazard. During the first few years relief operations were undertaken, considerable labour was used in the cutting out of boundary lines for Riding Mountain, Prince Albert, Jasper and Banff Parks. In the way of development in townsites in the various Parks, such works were undertaken as the construction of recreational areas, camp sites, and various structures necessary in the development of the Parks.

Road construction was a major class of work undertaken as a relief measure and the following are examples of this class:—

Clear Lake-Norgate and Clear Lake-Dauphin Roads in Riding Mountain Park,
Rabbit-Meridian Road in Prince Albert Park,
Sandy Beach Road in Elk Island Park,
Maligne Canyon and Jasper West Roads in Jasper Park,
Belly River Road in Waterton Lakes Park.

The most outstanding and better known roads on which there has been relief work are the Banff-Jasper Highway, to join Banff and Jasper National Parks, and the Big Bend Highway in British Columbia, the latter road being part of the Trans-Canada Highway.

The number of men in the camps administrated by the Department of Interior at March 30, 1935, was 743 while the total cost of maintaining these camps to March 30, 1935, was \$2,111,320.30.

DEPARTMENT OF NATIONAL DEFENCE

An Order in Council of October 8, 1932, passed under the provisions of The Relief Act, 1932, provided for the establishment of camps by the Department of National Defence wherein a maximum of 2,000 single unemployed homeless men in need of relief might be employed on the clearing of 24 landing fields, on the Trans-Canada Airway, and on repairs to the citadel walls at Halifax and Quebec, both of which are important national historical memorials. This plan of taking care of the unemployed homeless men through the Department of National Defence proved so effective that it was steadily expanded under subsequent relief legislation with a view to taking care of additional single homeless men out of employment, with the result that authority obtained at March 30, 1935, for the care of a maximum of 28,173 men on works that included development of intermediate landing fields, aerodromes and municipal and provincial airports; forestry; clearing; development of air stations; highway construction; rifle ranges; development of military training camps; improvements to barracks, and repairs to historic fortifications.

The men taken into the National Defence Relief camps were provided with transportation, food, accommodation, clothing, a free issue of tobacco, an allowance of 20 cents per working day, and in addition necessary medical, dental and hospital attention.

Since October 8, 1932, 137 projects have been instituted by the Department of National Defence of which 103 were active at March 30, 1935.

The actual personnel in the camps at March 30, 1935, numbered 20,359, while the total number who had passed through the Defence Camps at February 28, 1935, was 112,949.

The Dominion disbursements with respect to the operation of the National Defence camps aggregated at March 30, 1935, \$13,657,957.21.

* * * *

One of the fundamental reasons for the establishment of the federal camps was the far reaching injury to the State which might result from the effect of unemployment upon those just reaching manhood who are faced with idleness and uncertainty. It was with a view of preserving the morale and efficiency of this class of needy persons that the camps were established and not with the idea of giving permanent employment to young men. The purpose was to maintain their health and efficiency until such time as they could be absorbed into the natural channels of industry.

FARM PLACEMENTS

Under the provisions of The Unemployment and Farm Relief Act, 1931, and Continuance Act, 1932, the Dominion agreed at the request of the province of Manitoba to contribute 50 per cent towards the cost of placing unemployed men on farms, it being agreed that the province and municipality concerned would each contribute 25 per cent of such cost. The arrangement consisted of payment by the province of \$5.00 per month to the worker and \$5.00 per month to the farmer. Under this plan 1,602 men were placed on farms during the fall and winter of 1931-32 at a cost to the Dominion of \$14,885.04.

Under the provisions of the 1931 legislation, the Dominion also agreed at the request of the province of Saskatchewan to contribute 50 per cent towards the cost of placing unemployed men on farms in that province, the balance of such cost being borne by the province. The arrangement in Saskatchewan provided for payment of \$5.00 per month with board and laundry to the worker and \$10.00 per month to the farmer. In the province of Saskatchewan 7,937 men were placed on farms under the 1931 Act at a cost to the Dominion of \$140,274.91.

During the months of May, June, July and August, 1932, the province of Saskatchewan placed 335 unemployed men taken from the three year crop failure area of that province on farms paying the worker \$5.00 per month. Towards the cost of these placements the Dominion contributed under the provisions of The Relief Act, 1932, 50 per cent or \$1,567.89.

The agreements entered into with the four western provinces under the 1932 Act respecting "Single Homeless Persons" provided amongst other things for the placement of such persons on farms on a basis of \$5.00 per month being paid to the worker, the Dominion contributing to the provinces in this connection 100 per cent of their expenditures exclusive of administration costs. These agreements were in force to July 31, 1933.

The arrangements made with the four western provinces under the "Single Homeless Persons" agreements insofar as they concerned farm placements were extended under the terms of the general relief agreements entered into with

those provinces under The Relief Act, 1933, to March 31, 1934, while provision for a similar contribution from the Dominion namely \$5.00 per month for each person placed on a farm was included in the arrangements made with the provinces of Manitoba, Saskatchewan and Alberta under the provisions of The Relief Act, 1934. The farm placement arrangement under the 1934 Act was effective in the provinces of Alberta and Manitoba from August 1, 1934, to March 31, 1935, and in Saskatchewan from October 1, 1934, to March 31, 1935.

Statistics as to the number of persons placed on farms under the "Single Homeless Persons" agreements and subsequent farm placement arrangements were submitted by the provinces on a monthly basis not cumulatively as was the case under the 1931 Act. The following table shows in the case of the 1931 Act the total number of placements effected as reported by the provinces and in the case of the other Acts the number on farms during the peak month. The Dominion's disbursements with respect to farm placements are also set forth in the ensuing table:—

Province	1931 Act		1932 Act		1933 Act		1934 Act		Totals

RELIEF IN THE DRIED OUT AREAS

During the years 1929 and 1930 a large area of the province of Saskatchewan consisting of approximately 50 rural municipalities, with a population of approximately 125,000 people, was affected by drought. In view of the great distress caused by this drought, an agreement was entered into between the Dominion and the province of Saskatchewan under the provisions of the Unemployment Relief Act, 1930, in which agreement it was provided that the Dominion might pay to the province a sum not to exceed \$500,000 to reimburse to the province one-half the cost of its expenditures for undertakings and other services carried on by the province to provide necessary relief in the dried out areas. Under the provisions of this agreement the full amount of \$500,000 was paid to the province.

By 1931 a situation had arisen in the province of Saskatchewan by which 93 rural municipalities and local improvement districts, known as "A" area, had suffered three years of successive crop failure; a smaller portion consisting of 76 rural municipalities and local improvement districts, known as "B" area, had suffered two years' successive crop failure and a still smaller portion consisting of 69 rural municipal and local improvement districts, known as "C" area, had suffered a total crop loss. In addition to the areas above referred to, a problem presented itself in the northern areas of the province comprising 90 rural municipalities and local improvement districts to which families had migrated from the dried out areas of the south carrying with them their personal belongings, but who had no means of support. It was apparent that the task of relieving distress in these areas was too serious and too difficult to be dealt with by ordinary methods, that is to say, through local welfare societies or ordinary local constituted authority, where such authority existed in the form of municipal councils. A commission known as the Saskatchewan Relief Commission was, therefore, appointed by Executive Order of the Saskatchewan Government dated August 3, 1931.

The Dominion contributed to the province towards the relief expenditures of the Saskatchewan Relief Commission under the provisions of the Unemployment and Farm Relief Act, 1931, and Continuance Act, 1932, as follows:—

1. 50 per cent of freight charges on shipments of food supplies and other commodities shipped to "A" area by churches and other organizations in Canada for distribution by the commission.
2. 100 per cent of direct relief expenditures in "A" area.
3. 100 per cent of direct relief expenditures for those moved from "A" area to other parts of the province.
4. 100 per cent of expenditures for feed grain and fodder in "A" area.
5. 50 per cent of expenditures for movement of settlers' effects at a reduced rate arranged with the railway companies from "A" and "B" areas.
6. 50 per cent of expenditures for the movement of stock from "A" and "B" areas to other parts of the province at a reduced rate arranged with the railway companies for the purpose of feeding and return of such stock to owners.
7. Payment of 100 per cent grazing dues for stock.
8. 50 per cent of direct relief expenditures in "B" area.

The Dominion contributions towards the expenditures of the Saskatchewan Relief Commission were made by way of advances to the province of Saskatchewan, who, in turn, advanced the money to the commission against which certified statements of expenditure were credited after audit.

The total cost to the Dominion for relief distributed by the Saskatchewan Relief Commission, under The Unemployment and Farm Relief Act, 1931, and Continuance Act, 1932, was at March 30, 1935, \$5,372,971.30.

In 1931 a similar situation to that existing in Saskatchewan was prevalent in certain sections of the province of Alberta and it was deemed advisable that the Dominion contribute towards the cost of special relief measures in the dried out areas of that province. Special measures in Alberta were contributed to by the Dominion on a 50 per cent basis and consisted of the following:—

- (1) Movement of settlers from dried out areas.
- (2) Freight for movement of stocker and feeder cattle.
- (3) Freight on feed.
- (4) Freight and passenger expenditures for movement of settlers.
- (5) Freight on six cars of donated vegetables.
- (6) Bonus to registered seed growers.
- (7) Freight on seed grain.
- (8) Seed grain including cleaning charges.

The cost to the Dominion in connection with special relief measures in the dried out areas of Alberta under The Unemployment and Farm Relief Act, 1931, and Continuance Act, 1932, was at March 30, 1935, \$146,433.20.

Under the provisions of The Relief Act, 1932, the Dominion continued to contribute to the expenditures of the Saskatchewan Relief Commission on the same basis as under The Unemployment and Farm Relief Act, 1931, and Continuance Act, 1932. In addition, however, the Dominion contributed 100 per cent of the cost of freight on feed and fodder shipped at reduced rates to "A" area and 100 per cent of the cost of freight for removal of haying outfits at reduced rates from and return to "A" area. The Dominion also agreed to contribute 100 per cent not exceeding \$100,000 of expenditures for medical relief in the dried out areas of the province of Saskatchewan to be utilized for payment of not more than \$75.00 per month to Doctors treating patients residing

in "A" area, and not more than \$40.00 per month for Doctors treating patients residing in "B" area, to enable them to visit their patients, and not more than 50 cents per patient, per diem, for city hospitals treating patients from "A" area, and not more than 25 cents per patient, per diem, to city hospitals treating patients from "B" area.

The amount contributed towards the expenditures of the Saskatchewan Relief Commission, under the provisions of The Relief Act, 1932, which, as under The Unemployment and Farm Relief Act, 1931, and Continuance Act, 1932, were made by way of advances to the province against which certified statements of expenditure were credited after audit, was at March 30, 1935 \$4,455,533.28.

Under the provisions of The Relief Act, 1932, the Dominion contributed towards the expenditures of the province of Alberta for relief in the dried out areas as follows:—

- (a) 50 per cent of the cost of purchase and shipment of seed grain for the dried out areas in less than car load lots.
- (b) 100 per cent of the cost of fodder distributed to settlers in the dried out areas.
- (c) 100 per cent of certain direct relief expenditures incurred in the dried out areas.

The dominion disbursements with respect to such relief in the dried out areas of the province of Alberta under The Relief Act, 1932, aggregated at March 30, 1935, \$43,942.80.

Under the provisions of The Relief Act, 1933, the Dominion agreed to contribute with respect to the dried out areas of Saskatchewan and Alberta one-third of the cost of moving settlers from dried out areas; 25 per cent of the cost of transportation of stock from dried out areas for winter feeding and return and one-third of the cost of freight on fodder moved into the dried out areas.

By 1933, certain sections of the province of Manitoba had also suffered crop failures and the Dominion agreed to contribute to that province under the provisions of The Relief Act, 1933, 25 per cent of the cost of transportation of livestock from dried out areas for winter feeding and return and one-third of the cost of freight on fodder moved into the dried out areas.

No accounts have at this date been received from the provinces of Saskatchewan and Alberta with respect to this type of relief, but payments to the province of Manitoba under The Relief Act, 1933, in this connection aggregate \$6,831.79.

Under The Relief Act, 1933, the Dominion also contributed towards the direct relief expenditures of the provinces in the dried out areas, the amount of the Dominion assistance in this regard being similar to the arrangements in effect in the other sections of the provinces, which arrangements are set out fully under the heading "Direct Relief".

Under the provisions of The Relief Act, 1934, the Dominion agreed to contribute towards the cost of relief in the dried out areas of the three Prairie Provinces from September 1, 1934 to March 31, 1935 one-half of:—

- 1. Movement of settlers with their effects and stock from dried out areas to suitable location.
- 2. Movement of cattle from dried out areas to suitable locations for winter feeding and return.
- 3. Movement of feed and fodder into dried out areas.

The Dominion expenditures with respect to these measures were at March 30, 1935, \$59,965.42 in Manitoba and \$13,760.81 in Alberta while no accounts had been received from the province of Saskatchewan.

The Dominion further agreed to pay one-half of the net cost of freight on live cattle shipped under provincial certificate from dried out areas in the provinces of Manitoba, Saskatchewan and Alberta, to stockyards within those provinces where abattoirs were located, provided that such cattle were there slaughtered and converted into tankage or boneless beef. The Dominion also agreed to pay one-half of the net cost of freight on such tankage or boneless beef from the point of manufacture to the point of marketing, provided that such tankage was not shipped to the United Kingdom and that such boneless beef was not consumed in Canada or the United Kingdom. It was provided that the provinces were also to pay one-half the net cost of freight on the live animals and manufactured products. At March 30, 1935, no accounts had been received from the provinces with respect to this arrangement.

To March 30, 1935, \$5,000,000 has been paid out under the Relief Act 1934 by way of advance to to the province of Saskatchewan for relief in the dried out area and actual disbursements by the province are being checked by a representative of the Dominion stationed at Regina. A final decision has not yet been reached with the province as to the amount of the cost of these relief measures which will be assumed by the Dominion and, in the meantime, the sum advanced is being treated by the Department of Labour as an accountable advance.

Under the provisions of The Relief Act, 1934, as under The Relief Act, 1933, contributions were also made by the Dominion towards the direct relief expenditures of the Prairie Provinces in the dried out areas, the Dominion's contribution to such expenditures being on the same basis as in other sections of those provinces.

TRANSPORTATION OF UNEMPLOYED TO EMPLOYMENT OPPORTUNITIES

Since 1931 arrangements have been in effect with the Canadian Passenger Association whereby a reduced fare of .01½ cents per mile was granted on Railways for men going to relief camps, both federal and provincial, and for the movement of unemployed farm help from urban centres to farms under arrangements made by provinces, municipalities, and farmers, whereby farm help would be given employment. The cost of such transportation was borne generally on a fifty-fifty basis by the Dominion and the province concerned, except of course in the case of men going to federal camps in which case the Dominion paid the entire cost.

Upon termination of employment, provided that the worker remained 90 days or more, a return fare was arranged at the rate of .02 cents per mile payable by the worker.

The following table shows the amounts contributed by the Dominion to the provinces with respect to the transportation of unemployed as at March 30, 1935, but does not include the cost of transportation of men to federal camps such cost being included in the figures shown under the Department of National Defence and Department of Interior camps.

—	1931 Act	1932 Act	1933 Act	1934 Act	Total
	\$	\$	\$	\$	\$
Ontario.....	32,414.91	68.15	32,483.06

*Includes \$880.90 collectible from the Province.

LOANS AND GUARANTEES

Apart from contributing to the cost of public works and undertakings, direct relief, etc., the Dominion assisted the four western provinces by way of loans. These loans, which were authorized under relief legislation, were secured by provincial Treasury Bills and bore interest at rates ranging from $4\frac{1}{2}$ per cent to $5\frac{1}{2}$ per cent.

Generally speaking, loans were made for the purpose of:—

- (1) Assisting the provinces in defraying their share of the cost of approved relief works and/or to loan to the municipalities for the same purpose.
- (2) Assisting the provinces in defraying their share of the cost of direct relief and/or to loan to municipalities for the same purpose.
- (3) Meeting commitments in Canada and New York.
- (4) Assistance to farmers in connection with seeding operations including purchase of seed grain.

At March 30, 1935, the amounts due to the Dominion by the provinces of Manitoba, Saskatchewan, Alberta and British Columbia with respect to loans were as follows:—

Manitoba.....	\$ 13,108,629 45
Saskatchewan.....	34,123,151 16*
Alberta.....	11,977,000 00
British Columbia.....	15,014,234 73

all of which bore interest at $4\frac{1}{2}$ per cent.

In addition to the foregoing at March 30, 1935, loans aggregating \$5,518,000.00 had been authorized under the Relief Act, 1934, but not yet paid.

In addition to the loans made to the western provinces for relief purposes, the Dominion loaned to the Canadian Pacific Railway Company, under the provisions of The Unemployment and Farm Relief Act, 1931, the sum of \$1,447,222.71 for the purpose of paying shop wages to 8,455 employees of that railway company from November 17 to December 31st, 1931, in order that the company might give employment during that period to that number of employees who would otherwise have been laid off. The Order in Council authorizing this loan specified that repayment was to be made to the Government without interest on demand, as soon as the railway company was able to resume payment of dividends at more than at the rate of 5 per cent per annum.

Under the provisions of The Relief Act, 1932, authority was obtained by Order in Council for a loan to be made to the Canadian Pacific Railway Company of \$1,000,000 for the purpose of paying the wages of workmen in connection with shop operations prior to December 31, 1932. This loan the Order in Council specified, was to be repaid without interest before further dividends were declared by the company.

The Dominion also under authority of the various Relief Acts authorized the following guarantees:—

- (1) Orders in Council dated June 28, 1933, and July 27, 1933, authorized the guarantee of repayment to the Bank of Montreal of an amount up to \$660,000 advanced to the Algoma Steel Corporation relative to the production of 30,000 tons of steel rails and authorized payment by the Dominion of interest at 5 per cent on such guaranteed advances until such time as the rails are paid for by the Canadian National Railways.

*This figure does not include an advance of \$5,000,000, to the province of Saskatchewan for relief purposes in the dried out areas as referred to on page 42, outstanding for settlement when accounts respecting the Dominion contribution thereto are received and approved.

- (2) Orders in Council dated July 11, 1932, February 6, 1933, and June 6, 1933, authorized a guarantee to certain banks against loss in respect to advances amounting to \$15,538,500 secured by first mortgage bonds of the Beauharnois Light, Heat and Power Company.
(All liability under this guarantee has been extinguished as the company repaid the guaranteed bank advances.)
- (3) An Order in Council dated June 2, 1933, authorized the guarantee of interest and principal of Treasury Bill of the province of British Columbia to the amount of \$626,533.75; issued to the Canadian Bank of Commerce to meet New York maturity.
- (4) An Order in Council of June 2, 1933, authorized a guarantee to certain chartered banks of repayment of an amount up to \$1,100,000 advanced to the Dominion Steel and Coal Corporation relative to the production of 50,000 tons of steel rails and authorized payment by the Government of interest at 5 per cent on such guaranteed advances until such time as the rails are paid for by the Canadian National Railways.
- (5) An Order in Council of June 2, 1933, authorized the guarantee of interest and principal of Treasury Bill of the province of Manitoba to the amount of \$5,894,127.49; issued to the Royal Bank of Canada to meet New York maturities.
- (6) Orders in Council dated April 28, 1932, and February 22, 1933, authorized a guarantee to chartered banks in Winnipeg against loss due to the assumption of liabilities of the province of Manitoba Savings Office which were, at March 30, 1935, \$8,820,660.08.
- (7) Order in Council dated March 22, 1933, authorized the guarantee of repayment to certain chartered banks of an advance of \$625,000 and interest made to Newfoundland.
- (8) Orders in Council dated September 12, 1931, July 11, 1932, April 12, 1933, and May 14, 1934, authorized the guarantee of repayment of advances made by chartered banks to Canadian Co-operative Wheat Producers in connection with wheat or other grains grown in 1930 and purchases of wheat or other grains deemed necessary to secure the advantageous sale of such grains.

Orders in Council dated September 12, 1931, September 28, 1931 and November 30, 1931, authorized the guarantee of repayment of advances by chartered banks to marketing agencies in connection with the 1931 crop.

Orders in Council dated September 20, 1932, March 20, 1933, and April 20, 1933, authorized the guarantee of repayment of advances by chartered banks to marketing agencies in connection with the 1932 crop.

(In connection with the 1931 and 1932 crops, the advances obtained by the marketing organization under guarantee were repaid and no liability was incurred by the Dominion Government).

- (9) An Order in Council of November 29, 1933, authorized the guarantee by the Dominion of repayment of loans made by chartered banks to the Canadian Pacific Railway Company totalling \$60,000,000 with interest thereon at the rate of 5 per centum, per annum, payable half yearly, said loan to be repaid on or before the 1st of December, 1938, and to be secured by the deposit with, and pledge to the several banks by the said railway company of its perpetual 4 per cent consolidated debenture stock having a nominal or par value of \$100,000,000. In the event of the Dominion being called upon to repay at maturity the whole or any part of the said loans and interest, provision is made for the transfer by the banks to the Crown of securities held. (The Government's liability under this guarantee has to date been reduced by \$12,000,000.)

OTHER UNEMPLOYMENT RELIEF PROJECTS TO WHICH THE DOMINION CONTRIBUTED

In addition to the various, more or less, set policies under which assistance with respect to unemployment relief was rendered to the provinces as illustrated in the foregoing pages, a number of other methods of alleviating unemployment were followed which, while not carried out as extensively as the major projects, are of interest by reason of their nature. A description of these measures which indicates the extent of the Dominion's contributions follows:

Under the provisions of The Unemployment and Farm Relief Act, 1931, and Continuance Act, 1932, authority was obtained by Order in Council for payment by the Dominion, not in excess of \$1,300,000 of the cost of 2,000,000 railway ties to be immediately purchased by the Canadian National Railways, throughout Canada, with a view to substantially relieving the existent unemployment situation. Under this authority the sum of \$1,099,359.39 was expended.

Arrangements were made with the Canadian Pacific Railway Company under the same legislation for the laying during the months of October, November and December, 1931, of heavy steel rail which had been rolled for that company, but which was not intended to be laid in the Fall of 1931, and also for the relaying of released rail. The labour cost incurred in the rail laying programme referred to, which amounted to \$209,196.98, was paid by the Dominion.

In the summer of 1932 representations were made to the Dominion Government by the provincial authorities of Nova Scotia to the effect that owing to the closing of the mine at the Town of New Waterford, which is the centre of the mining district in Cape Breton, a serious unemployment situation had arisen, it being estimated that there were some 700 men out of work. The province further represented that there were some 300 foreigners and their families amongst those unemployed who were not deportable, but who were willing to go to their native countries if transportation was provided. The places to which these people sought return included the British Isles, France and some Central European countries, while others wished to return to the West Indies. In view of the existent situation, the Dominion agreed to contribute under the provisions of The Relief Act, 1932, 2/5 of the total cost of repatriation of these miners from the Town of New Waterford to their homes, such total cost not to exceed \$20,000. The cost of this undertaking, however, proved more expensive than was estimated, and when the repatriation operations, which were carried out by the Town of New Waterford and the Dominion Steel and Coal Corporation the latter contributing 1/5 towards the cost, were completed, it was found that only 234 persons had been repatriated, the total cost of such repatriation being \$19,893.53. The Dominion contributed towards this undertaking as agreed 2/5 of the total cost or \$7,957.41.

In order to relieve distress in the coal mining area of Nova Scotia, an arrangement was entered into between the Dominion, the province of Nova Scotia, the province of Ontario and the Dominion Coal Company, whereby it was agreed that the excess cost of \$2.39 per ton over the price at which American coal could be purchased, for a cargo not exceeding 6,500 tons of Nova Scotia coal to be delivered in Toronto for use in provincial public buildings, be divided as follows:—

Dominion Coal Company52
Province of Ontario87
Province of Nova Scotia50
Dominion Government50

Under this arrangement 6,087 tons 441 lbs. of Nova Scotia coal were delivered, toward the cost of which the Dominion contributed, under The Relief Act, 1932, as agreed 50 cents per ton, or \$3,043.61.

Under the provisions of The Relief Act, 1933, an Order in Council dated June 2, 1933, was passed authorizing, as a temporary measure to off-set the disturbing effects of instability in the exchange markets, the establishing of a fund from which payments might be made to exporters of certain commodities to Great Britain of the difference between the amounts actually received in respect of such exports at the ruling rate of exchange, and the amount which would have been received had the pound sterling been valued at \$4.60. Out of this fund the Dominion paid the following amounts:—

<i>Commodity—</i>	
Cheese.....	\$ 5,466.99
Bacon and Hams.....	24,021.03
Cattle.....	10,683.44
Eggs.....	409.80
Canned lobsters.....	2,010.57
Canned salmon.....	158.39
	<hr/>
	\$42,750.22
Administration.....	217.82
	<hr/>
	<u>\$42,968.04</u>

In the spring of 1933 the province of New Brunswick supplied various municipalities with seed grain, potatoes, etc., for distribution to farmers, the amount of seed obtainable by any one farmer being limited as follows:—

Oats.....	30 bush.
Wheat.....	4 bush.
Buckwheat.....	4 bush.
Timothy.....	80 lbs.
Red clover.....	40 lbs.
Potatoes.....	As may be determined by Councillors.

For the seed grain, etc., supplied, the province took the municipalities cash or six month notes with interest at 6 per cent, the municipalities in turn taking cash or six month notes with interest at 6 per cent from the farmers. At the request of the province the Dominion agreed under the provisions of The Relief Act, 1933, to share one-third of any loss which might result from this arrangement, the Dominion contribution, however, not to exceed \$7,000. At the date of this report, namely, March 30, 1935, no accounts have been received from the province with respect to this arrangement and it is, therefore, not known whether or not any loss was sustained.

In the summer of 1933, representations were made to the Dominion by the province of New Brunswick to the effect that fishermen in the counties of Charlotte, Gloucester, Kent, St. John and Restigouche, were financially in a very poor condition, many of them being on relief, although the hake fishing industry showed by far the largest catch for some time. The price being paid for hake, however, was very low. The province further represented that local dealers had offered to assist the unemployment situation by paying fishermen 80 cents per cwt., if the province would also assist the industry by contributing 20 cents, that being half of the amount required to bring the current price up to 80 cents per cwt. The province requested, therefore, that the Dominion contribute 50 per cent of the provincial expenditure, namely 20 cents per cwt., the Dominion's expenditure in this respect not to exceed \$8,000. This request which met with the approval of the Dominion was included in the agreement respecting relief measures entered into with the province of New Brunswick under the provisions of The Relief Act, 1933, and at March 30, 1935, the Dominion had paid to the province with respect to this undertaking the sum of \$7,041.83.

The Dominion agreed to contribute to the province of British Columbia under the provisions of The Relief Act, 1933, twenty-five cents per day for a period not exceeding two months for each homeless man sent by the province for a course of instruction in the processes of placer mining at camps which the province established for that purpose, together with one-half the cost of the transportation of each such man from relief camps, or other points, within the province, to the placer mining camps. The Dominion's share of the cost of the transportation of each man, it was provided, should not exceed three-quarters of a cent per mile. At March 30, 1935 no accounts had been received from the province with respect to this arrangement.

A somewhat similar arrangement was also entered into with the province of Alberta, the Dominion agreeing to contribute to the province twenty-five cents per day for a period not exceeding sixty days for each physically fit homeless man selected by the province as a suitable person to undertake placer mining. The Dominion contribution to the province of Alberta in this respect was at March 30, 1935, \$5,734.40.

Under the provisions of The Relief Act, 1934, the Dominion Government agreed to contribute towards the cost of emergency relief for 1934 forest fire sufferers and their dependents, in the colonization areas of the province of New Brunswick, such expenditures to be made for the purpose of replacing burned cabins and such other necessities as might be required in the judgment of the province. The approved Dominion contribution in this connection was 50 per cent of a total expenditure not to exceed \$10,000. Approval was also given under The Relief Act, 1934, for Dominion contribution not in excess of 50 per cent of a total expenditure of \$24,000 to be utilized in aiding colonization settlers and their dependents on location in the province of New Brunswick. Expenditures under this arrangement were to be made for food and such other necessities as were deemed essential in the opinion of the province. At March 30, 1935 the Dominion had paid to the province of New Brunswick \$2,204.14 with respect to the former arrangement and \$10,423.06 with respect to the latter.

ADMINISTRATION

The regulations governing the administration of The Unemployment Relief Act, 1930, stipulated that not more than one-half of 1 per cent, namely \$100,000, of the amount appropriated by Parliament was to be expended for administration purposes. The total cost of administration of The Unemployment Relief Act, 1930, however, was only \$43,061.97.

There were no definite amounts set aside for administration purposes under the subsequent relief Acts, it being provided that such expenditures were to be paid out of the Consolidated Revenue Fund, but taking into consideration the amount expended by the Dominion Government for unemployment relief, which aggregates at the date of this report as shown in the recapitulation of disbursements appearing on page 49 \$160,686,331.40, the cost of administration of the various relief measures set forth on the preceding pages has not been excessive.

The following tables show the classification and number of persons engaged in the administration of the various relief Acts and the cost of such administration respectively.

Totals	502,775 29	5,180,932 69	3,211,665 69	29,632,257 09	54,324,420 95	12,545,863 46	22,638,208 50	11,007,564 30	18,957,462 44	38,648 53	2,296,544 43	160,686,331 40

The chart which follows indicates the numbers receiving various classes of relief as reported monthly by the provinces and federal departments carrying out projects under relief legislation.

The large increase from *October, 1932* to *November, 1932*, is accounted for by higher numbers afforded Direct Relief in November in the provinces of New Brunswick, Quebec, Ontario and in Saskatchewan through the Saskatchewan Relief Commission.

From *September, 1933* to *October, 1933*, while all the provinces except Nova Scotia reported increased numbers on direct relief, the increase in Quebec was proportionately greater than the increases in other provinces. In *November, 1933*, there were substantial increases in Ontario direct relief figures and in direct relief distributed by the Saskatchewan Relief Commission.

In *April, 1934*, all provinces reported decreased figures for direct relief as compared with *March, 1934*, the largest decreases being reported by Nova Scotia, Ontario, Manitoba and the Saskatchewan Relief Commission.

Commencing *April 1, 1934*, relief previously administered by the Ontario Department of Northern Development on a subsistence basis was changed to a wage basis.

The decrease in direct relief shown from *May, 1934*, to *June, 1934*, was fairly uniform in all provinces.

The increase in Direct Relief from *September, 1934*, to *October, 1934*, was chiefly accounted for by an increase of 34% in Saskatchewan, 14½% in Quebec and 11½% in Ontario.

The employment index is based on the number of employees at work on the first day of the month as indicated by the firms reporting, in comparison with the average number of employees reported during the calendar year 1926, which is taken as 100.

When reading employment index scale, 100,000 is to be read as 10; for example, on February 1, 1935, the employment index is 94.6.

THE RELIEF ACT, 1935

REPORT

OF

DOMINION COMMISSIONER OF
UNEMPLOYMENT RELIEF

MARCH 31, 1936

OTTAWA
J. G. PATENAUDE, I.S.O.
PRINTER TO THE KING'S MOST EXCELLENT MAJESTY
1936

OTTAWA, March 31 1936.

To the Hon. NORMAN McL. ROGERS,
Minister of Labour,
Ottawa.

SIR,—The Relief Act, 1935, provides that a report shall be laid before Parliament within fifteen days after the expiration of the Act, containing a full and correct statement of the moneys expended, guarantees given, and obligations contracted under the Act.

I have the honour to transmit herewith the report of Mr. Harry Hereford, Dominion Commissioner of Unemployment Relief, which, in addition to setting forth statements of expenditures, guarantees, and obligations, also contains much additional information referring to the administration of The Relief Act, 1935, and also shows expenditures made under the relief legislation of 1930, 1931, 1932, 1933 and 1934.

Respectfully submitted,

W. M. DICKSON,
Deputy Minister of Labour.

THE RELIEF ACT, 1935

REPORT OF THE DOMINION COMMISSIONER OF UNEMPLOYMENT RELIEF

OTTAWA, March 31, 1936.

To W. M. DICKSON, Esq.,
Deputy Minister of Labour.

SIR.—The undersigned begs to report as follows concerning the administration of The Relief Act, 1935.

The Relief Act, 1935, being Chapter 13 of 25-26 George V, was assented to April 4, 1935. Copy of the statute follows this report as Appendix "A".

Clause 9 of the Act provides that a report shall be laid before Parliament within fifteen days after the expiration of the Act, or if Parliament is not then in session, shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the moneys expended, guarantees given and obligations contracted under the Act.

Clause II of the Act provides that the Act shall expire on the thirty-first day of March, 1936.

By an Order in Council P.C. 968, of April 12, 1935, (see Appendix "B") administration of the Act was vested in the Minister of Labour.

The Dominion continued under the provisions of The Relief Act, 1935 to assist the Provinces in the discharge of their constitutional obligations in connection with necessary relief by way of a monthly grant-in-aid; in addition, contributing at the request of the provinces to certain municipal and provincial works carried out as relief projects.

The amounts of the monthly grants-in-aid paid to the provinces during the period April to November, both months inclusive, were as follows:—

Prince Edward Island...	\$ 1,250.00	Saskatchewan	200,000.00
Nova Scotia.....	40,000.00	Alberta	100,000.00
New Brunswick.....	25,000.00	British Columbia.....	150,000.00
Quebec	500,000.00		
Ontario	600,000.00	Dominion	<u>1,751,250.00</u>
Manitoba	135,000.00		

A Dominion-Provincial Conference was held at Ottawa from December 9th to the 13th, 1935, at which Conference the following items were given consideration by the Committee of the Conference on Unemployment and Relief:—

- (i) General unemployment situation;
- (ii) Question of relief camps;
- (iii) Question of provincial and municipal responsibility;
- (iv) Division of responsibility for social services;
- (v) Future policy.

Certain resolutions were adopted by the Committee of the Conference on Unemployment and Relief respecting the subject matter of the terms of reference set forth above, and while those resolutions were published in the report of the proceedings of the Dominion-Provincial Conference, for convenience, they appear in this report as Appendix "C".

As a result of representations made by the provinces and pursuant to the recommendation contained in section six of the resolution respecting Future Policy adopted by the Committee of the Dominion-Provincial Conference on Unemployment and Relief (see Appendix "C"), the Dominion authorized by Order in Council increases with respect to the grants-in-aid for the months

of December, 1935, January, February and March, 1936, to enable the provinces to lighten the pressure and burden upon the municipalities. The amounts paid to the provinces for each of those months were as follows:

Prince Edward Island...	\$ 3,718.75	Saskatchewan	350,000.00
Nova Scotia.....	70,000.00	Alberta	175,000.00
New Brunswick.....	43,750.00	British Columbia.....	262,500.00
Quebec	875,000.00		
Ontario	1,050,000.00	Dominion	\$ 3,066,218.75
Manitoba	236,250.00		

Agreements were entered into under the provisions of the Relief Act, 1935, with all the provinces, excepting Quebec and British Columbia, providing for Dominion contribution of fifty per cent of amounts expended by the provinces on such highways as have been designated by the provinces and approved by the federal Government as part of the Trans-Canada Highway exclusive of the costs of administration and of acquisition of lands.

The agreements with the provinces further provided in the case of Prince Edward Island, New Brunswick, Ontario and Manitoba, for Dominion contribution towards the cost of certain provincial undertakings, mainly highways, which were recommended by the provinces and approved of by the federal Government.

Provision was also made in an agreement with the province of Ontario for a contribution towards certain municipal undertakings, while an agreement entered into with the province of Manitoba provided for Dominion contribution toward the cost of a sewage disposal plant to be constructed in the City of Winnipeg. The Dominion also contributed towards the cost of clearing and silvicultural work carried out by the Parks Board of the City of Vancouver in Stanley Park, British Columbia.

In addition, the Dominion contributed fifty per cent of the net cost, in each of the three Prairie Provinces during the months of April, May, June, and July, 1935, of the following relief measures in the dried out areas of those provinces:

- (a) The movement of settlers with their effects and stock from the dried out areas to such locations as deemed to be suitable by the province;
- (b) The movement of cattle from the dried out areas to such locations as deemed to be suitable by the province for feeding purposes, together with any equipment required in connection therewith and return of said cattle and equipment upon completion of the feeding season;
- (c) The movement of necessary feed and fodder into the dried out areas; together with the movement of any equipment required in connection therewith and return thereof.

The Dominion continued under The Relief Act, 1935, to contribute to the three Prairie Provinces one hundred per cent of the cost of placing persons on farms, exclusive of administration, under an arrangement whereby each person so placed received \$5 per month.

As set forth in the report of the undersigned concerning the administration of The Relief Act, 1934, \$5,000,000 was paid out under the provisions of that statute by way of accountable advances to the province of Saskatchewan, secured by Provincial Treasury Bills, for relief purposes in the dried out areas of that province, the issue of such moneys being under the supervision and control of a Dominion representative appointed for that purpose. Under the provisions of The Relief Act, 1935, further advances were made to the province of Saskatchewan for the same purpose, aggregating \$4,000,000.

By Order in Council passed under the provisions of The Relief Act, 1935, it is provided that the Dominion will apply to the accountable advances of \$9,000,000 expenditures made or to be made by the Government of the province of Saskatchewan covering the cost and distribution of direct relief and agricultural relief (as defined by the Order in Council) from the 1st of September, 1934

to the 31st of August, 1935 in one hundred and ninety-two municipalities and local improvement districts which are set forth in the Order in Council.

In addition to the said amount of \$9,000,000 there was advanced, under the provisions of The Relief Act, 1935, by way of a loan a further amount of \$2,750,000 secured by a treasury bill of the Province. The Order-in-Council authorizing this loan made provision for the reduction of the treasury bill in part by crediting thereto any amount or amounts of expenditures which may be definitely established as properly constituting and forming part of the Dominion's obligation, with respect to relief disbursements made in the drought area of the Province from September 1st, 1934, to August 31st, 1935. The proportion of this loan to be regarded as the Dominion's obligation will not be known until accounts are received from the Province and approved.

Under the provisions of The Relief Act, 1935, the Dominion continued to operate camps under the direction of the Department of National Defence for the care of single unemployed men. During the period April 1st, 1935 to March 1st, 1936, an allowance of 20 cents per diem for each day worked was paid to the ordinary personnel in the camps in addition to other allowances in kind.

In November, 1935 a Committee was appointed to make a personal survey of the relief camp situation in Canada and to report thereon to the Minister of Labour. An extensive survey was made by the Committee appointed and based on their report an Order in Council was passed pursuant to the provisions of The Relief Act, 1935, providing that authority be granted to close at any time or to continue to operate unemployment relief projects until on or about the 1st of July, 1936, and that the cash allowance of 20 cents per diem be changed effective March 1st, 1936, to a monthly allowance of \$15, or in the case of periods less than a month at the rate of 50 cents per day for the time each individual labourer is authorized to remain on the strength of any of the projects together with such other allowances in kind as may be fixed, and under such conditions as may be authorized by the Minister of National Defence in consultation and co-operation with the Minister of Labour. The Order in Council further provides that the allowance of \$15 per month be paid on the following basis: \$7.50 per month while the man is in camp, the remaining \$7.50 per month being placed to the man's credit, the sum thus accumulated to be payable by means of non-negotiable vouchers at any Post Office in Canada after the man has left the camp, at the rate of \$4 per week.

In conformity with the announced intention of the Government to close the relief camps administered by the Department of National Defence at the earliest possible date, preliminary arrangements have been made at the date of this report for setting up machinery which will absorb, from time to time, those on the strength of the camps into gainful and useful employment. As a result of negotiations with the Canadian National Railways, and the Canadian Pacific Railway Company, arrangements have been made whereby 10,000 men will be employed on deferred maintenance work on the trackage of these companies during the summer of 1936. This work which will be in addition to the usual maintenance work of the railways will be undertaken on a co-operative basis and the men taken from the relief camps by the railroads will be in private employment and on a basis of work for wages.

Camps under the direction of the Department of Interior were also operated from time to time under The Relief Act, 1935.

The numbers cared for month by month on these projects are set forth in Appendix "D".

Table No. 1 shows the approved Dominion commitments for the various projects and undertakings authorized under The Relief Act, 1935, and the Dominion disbursements in respect to all matters under The Relief Act, 1935, as at March 31, 1936.

(A) Not including expenditures which may have been made prior to March 31, 1936, for which accounts have not been received, or if received have not been passed for payment at date of this report.
(B) Amount not specified.

Following the Dominion-Provincial Conference, necessary forms were supplied to all provinces and federal departments administering relief directly for the purpose of obtaining a detailed classification of those on relief, the arrangements providing that all recipients of relief be classified as to, "Employable persons and their dependents", "Unemployable persons and their dependents", "Farm families" and "Transient persons"; also as to heads of families, dependents and individual cases, with further classification as to sex, length of time on relief, age, occupation, number working for relief and number afforded partial relief.

A sufficient supply of forms was furnished to the provinces so that they might supply the requirements of the municipalities and arrangements were made for the municipal returns to be tabulated by the provinces and in due course furnished to the Dominion, together with copies of each of the municipal returns. In addition the provinces were requested to submit monthly preliminary classification figures. Reports from the provinces indicated that in some of the larger municipalities a re-registration of relief recipients was necessary to provide the required information.

Appendix "E" shows the preliminary classification of recipients of relief as reported by the provinces for the month of January 1936.

By Order of the Governor in Council of June 26, 1935 (P.C. 1721), the Auditor General was authorized to conduct such audits of provincial and municipal accounts in connection with unemployment relief expenditures incurred under The Relief Act, 1935, as he deemed essential to safeguard the interests of the Federal Treasury. This effected a continuation of the policy pursued in respect to expenditure under the five preceding relief acts, as set out at some length on pages 7 and 8 of the report of the undersigned relative to The Relief Act, 1934. As the investigations and reports resulting from these authorizations are cumulative in effect, the activities of the department in effecting settlements and adjustments thereunder were considerably increased during the past fiscal year.

Various factors have tended to make these settlements and adjustments difficult and protracted. Among these may be cited (1) the delays between the dates of expenditures and of the audits and investigations of the Auditor General, resulting in many instances in the department having to seek refunds, adjustments and computations from provincial governments other than those which made the expenditures in question; (2) the necessity of having to reconcile divergences of opinion existing between provincial governments on the one hand and the Auditor General on the other, the former treating relief problems from a humanitarian standpoint, as requiring emergent action, and the latter passing judgment upon federal contributions, technically according to his interpretation of the authorizing agreements and orders; (3) the differences existing between the various provincial and municipal accounting and auditing systems; (4) the fact that in many instances the Auditor General is forced, by reason of the incomplete state of the accounts and supporting records presented to him by the provinces, to leave to provincial officials the computing of the amount of irregular payments, itself an obvious cause for delay in effecting settlements.

As some of the cases in which the provinces have not accepted the findings of the Auditor General, and have either refused or neglected to make the refunds called for, or to compute the amount of such refunds as requested, are of long standing, and as there may be virtue in some of the contentions of the provinces that their claims are within the terms or intent of the agreements or arrangements with the Dominion and, therefore, not requiring adjustment, it is suggested that the desirability of having any such contentious matters dealt with by arbitration be given consideration.

With a view to overcoming the above mentioned difficulties, so far as possible, in respect to any future Dominion contributions, the further suggestion is made of

changing the basis of payment to provide a seventy-five per cent accountable advance, the resulting twenty-five per cent holdback to be payable when the Auditor General is fully satisfied that the expenditures are within the terms of the relevant federal authorizations.

Despite the difficulties above referred to, considerable progress has been made during the past fiscal year in the adjustment and settlement of the matters reported by the Auditor General. In several instances claims for refunds, made on information contained in the audit reports, have been dropped upon the provinces producing satisfactory explanation and justification of the questioned expenditures. Totals, by provinces, of all amounts specifically reported by the Auditor General as refundable, of the amounts refunded, otherwise adjusted or pending, as at March 31, 1936, under all federal relief legislation for the period from September 22, 1930, to March 31, 1936, are shown in table No. 2.

TABLE No. 2

	Amounts established as refundable through the Auditor General's reports	Refunded	Otherwise adjusted	Pending

	<u>\$ 791,051.59</u>

As outlined in the report of the undersigned respecting the administration of The Relief Act, 1934, agreements effective from April 1, 1934 to March 31, 1936 were entered into with all the provinces excepting Prince Edward Island and British Columbia, providing continuity of settlement with the agreements respecting relief settlement entered into with the provinces under The Relief Act, 1932, which agreements expired on March 31, 1934. The agreements entered into under The Relief Act, 1934, made provision, as did the agreements

entered into under the 1932 Act, for a Dominion non-recoverable expenditure of one-third of an amount not to exceed \$600 per family for the purpose of providing a measure of self-sustaining relief to families who would otherwise be in receipt of direct relief, by placing such families on the land, it being provided that the remaining two-thirds of the expenditures be contributed by the province and the municipality concerned as might be decided between the province and the municipality.

It was provided that the Dominion contribution be payable progressively as expenditures were made by the province and municipalities, and that the total expenditure on behalf of any one family during the first year should not exceed \$500 for all purposes, inclusive of subsistence and establishment, a minimum amount of \$100 to be withheld to provide subsistence if necessary during the second year.

Provision was also made in the 1934 agreements for an additional non-recoverable contribution by the Dominion, on the recommendation of the Province and with the approval of the Governor in Council, of one-third of an amount not exceeding \$100 in the case of a settler who may not be self-supporting at the end of the two year period and for whom subsistence expenditures during the third year of settlement are deemed necessary. This additional amount for subsistence during the third year where necessary, applies both to those settled under the 1932 agreements and 1934 agreements.

Under the provisions of The Relief Act, 1935, an agreement respecting relief settlement similar to agreements entered into with other provinces under The Relief Act, 1934 was entered into with the province of British Columbia, leaving Prince Edward Island the only province not participating in the plan.

Reports received from the provinces in regard to the number of approved settlers on the land under both the 1932 and 1934 agreements as at March 31, 1936, and the Dominion contributions as at that date are shown in table No. 4.

REPORT OF DEPARTMENT OF FINANCE RESPECTING LOANS AND GUARANTEES

Under authority of section 2 of The Relief Act, 1935, the Dominion continued to grant financial assistance by way of loans to certain provinces. The total amount loaned during the year 1935-36, including amounts previously authorized under The Relief Act, 1934, but not advanced during the fiscal year 1934-35, was \$43,062,699.08. As security for repayment the Dominion holds Provincial Treasury Bills, bearing interest at the rate of $4\frac{1}{2}$ per cent per annum to July 1, 1935, and 4 per cent thereafter, payable half-yearly.

The following statement shows by provinces the amounts loaned during the year 1935-36; the net loans outstanding March 31, 1935; cash repayments and credits applied during the year and the net loans outstanding, March 31, 1936:—

PROVINCE OF MANITOBA—

Loans made during 1935-36:	
For provincial purposes including public works and direct relief.....	\$ 3,775,500.00
For re-loan to certain municipalities.....	537,000.00
For relief purposes in drought area including seed grain.....	408,155.26
	<hr/>
	4,720,655.26
Net loans outstanding March 31, 1935.....	13,108,629.45
	<hr/>
	17,829,284.71
Less cash repayments during 1935-36.....	2,324,429.48
	<hr/>
Total outstanding March 31, 1936.....	15,504,855.23
	<hr/>

PROVINCE OF SASKATCHEWAN—

Loans made during 1935-36:	
For provincial purposes including public works and direct relief.....	\$ 4,096,043.82
For seed grain and seeding operations.....	6,000,000.00
For re-loan to municipalities.....	145,000.00
For payment of direct relief and agricultural relief accounts unpaid as at August 31, 1935.....	2,750,000.00
	<hr/>
	12,991,043.82
Net loans outstanding March 31, 1935.....	34,123,151.16
	<hr/>
	47,114,194.98
Less cash repayments and credits applied during 1935-36.....	45,565.39
	<hr/>
Total outstanding March 31, 1936.....	\$ 47,068,629.59
	<hr/>

NOTE:—In addition to above, accountable advances totalling \$4,000,000 were made in 1935-36 for relief purposes in Drought Area of Saskatchewan which are now treated as expenditures. Loan of \$1,300,000 authorized by P.C. 783 of March 31, 1936, not included in above.

PROVINCE OF ALBERTA—

Loans made during 1935-36:	
For provincial purposes including public works and direct relief.....	\$ 5,850,000.00
For agricultural relief purposes.....	1,050,000.00
For re-loan to municipalities.....	450,000.00
For the purpose of meeting maturing obligations.....	5,435,000.00
	<hr/>
	12,785,000.00
Net loans outstanding March 31, 1935.....	11,977,000.00
	<hr/>
	24,762,000.00
Less cash repayment 1935-36.....	13,000.00
	<hr/>
Total outstanding March 31, 1936.....	\$ 24,749,000.00
	<hr/>

PROVINCE OF BRITISH COLUMBIA—

Loans made during 1935-36:	
For provincial purposes including public works and direct relief.....	\$ 6,195,000.00
For re-loan to municipalities.....	400,000.00
For the purpose of meeting maturing obligations.....	5,971,000.00
	<hr/>
	12,566,000.00
Net loans outstanding March 31, 1935.....	15,014,234.73
	<hr/>
	27,580,234.73
Less cash repayment 1935-36.....	7,554.63
	<hr/>
Total outstanding March 31, 1936.....	27,572,680.10
	<hr/>

GRAND TOTAL OF LOANS OUTSTANDING MARCH 31, 1936.....	\$ 114,895,164.92
--	-------------------

Appendix "F" shows a summary of all loans outstanding under Relief Legislation as at March 31, 1936.

THE RELIEF ACT, 1935, GUARANTEES

NO. OF ORDER IN
COUNCIL AND DATE

PROVISIONS OF GUARANTEE

P.C. 974, 12th
April, 1935.

Wheat Marketing:

Supplementing the guarantees authorized in 1931, 1932, 1933 and 1934 arising out of the marketing of the 1930 crop, this Order in Council guaranteed repayment of such further advances and interest thereon as may be made by chartered banks to Canadian Co-operative Wheat Producers Limited subsequent to March 31, 1935, in respect of contracts already acquired or contracts in substitution for or in addition to existing contracts for delivery of wheat and other grains, in order to secure the advantageous sale or disposition of such grains and contracts.

P.C. 975, 12th
April, 1935.

Guarantee of advances and interest thereon as may be made by chartered banks to Canadian Co-operative Wheat Producers Limited in connection with the purchase of 5,000,000 bushels of wheat and 8,000,000 bushels of oats or contracts for the purchase and future delivery thereof, the wheat and oats so acquired to be used for agricultural relief purposes in the Province of Saskatchewan.

DEPARTMENT OF FINANCE, MARCH 31, 1936.

Appendix "G" shows a recapitulation of Dominion disbursements under Relief Legislation from September 22, 1930, to March 31, 1936 by provinces, federal departments, etc., and by Acts; also a summary of loans and advances outstanding as at the same date.

Appendix "H" sets forth the Dominion disbursements with respect to relief from September 22, 1930, to March 31, 1936, by provinces, federal departments, etc., and by classes of expenditure.

Table No. 5 shows expenditures made for administration purposes for the year ending March 31, 1936.

Orders in Council covering activities under the statute have been laid before Parliament after the issuance thereof when Parliament has been in Session, otherwise abstracts of the said Orders in Council, disclosing their essential provisions, have been published in the *Canada Gazette*, in accordance with clause 8 of the Act.

Respectfully submitted,

HARRY HEREFORD,
Dominion Commissioner.

APPENDIX A

25-26 GEORGE V.

CHAP. 13.

An Act respecting Relief Measures.

[Assented to 4th April, 1935.]

Preamble.
1932, c. 36.
1932-33, c. 18.
1934, c. 15.

WHEREAS the Provinces may require further assistance in carrying out necessary relief measures and in meeting financial conditions as the same may arise; and whereas in such event it is in the national interest that Parliament should support and supplement the relief measures of the Provinces and grant them financial assistance in such manner and to such extent as the Governor in Council may deem expedient; and whereas it is necessary to make provision for further expenditure for relief purposes under the Department of National Defence and the Department of the Interior; and whereas for these and similar purposes the powers necessary to insure the speedy and unhampered prosecution of such relief measures and the maintenance of the credit of the Dominion and the Provinces thereof should be vested in the Governor in Council; Now, therefore, His Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

Short title.

1. This Act may be cited as *The Relief Act, 1935*.

Agreements
with
provinces.

2. Notwithstanding the provisions of any statute or law the Governor in Council may, upon such terms and conditions as may be agreed upon,—enter into agreements with any of the provinces respecting relief measures therein; grant financial assistance to any province and to Canadian Co-operative Wheat Producers Limited by way of loan, advance, guarantee or otherwise; and in respect of such loans, advances and guarantees, may accept such security, enter into such agreements and generally do all such acts and things as the Governor in Council may deem necessary and expedient in the public interest.

Loans to
provinces,
and
Canadian
Co-operative
Wheat
Producers
Limited.

Maintain
peace, order
and good
government.

3. In addition to the powers conferred under the provisions of any statute or law the Governor in Council may, when Parliament is not in session, take all such measures as in his discretion may be deemed necessary or advisable to maintain, within the competence of Parliament, peace, order and good government throughout Canada; and at all times take all such measures as in his discretion may be deemed necessary or advisable to protect and maintain the credit and financial position of the Dominion or any Province thereof.

Protect
financial
credit.

Further
powers of
Governor in
Council.

4. Without restricting the generality of the terms of the next preceding section hereof and notwithstanding the provisions of any statute or law, the Governor in Council may

- (a) Provide for special relief, works and undertakings under control and direction of the Department of National Defence and the Department of the Interior;
- (b) Take all such other measures as may be deemed necessary or advisable for carrying out the provisions of this Act.

5. The Governor in Council may pay out of the Consolidated Revenue Fund such moneys as may be necessary for all or any of the purposes of this Act.

Payments
out of the
Consolidated
Revenue
Fund.

6. The Governor in Council shall have full power to make all such orders and regulations as may be deemed necessary or desirable to carry out the purposes and intention of this Act.

Orders and
regulations.

7. All orders and regulations of the Governor in Council made hereunder shall have the force of law and may be varied, extended or revoked by any subsequent order or regulation; but if any order or regulation is varied, extended or revoked, neither the previous operation thereof nor anything duly done thereunder shall be affected thereby, nor shall any right, privilege, obligation or liability acquired, accrued, accruing or incurred thereunder be affected by any such variation, extension or revocation.

Enforcement
of orders and
regulations.

8. All Orders in Council and regulations made under the provisions of this Act shall be laid before the House of Commons forthwith after the making thereof if Parliament is then sitting, or if not, said orders in council or regulations or an abstract thereof disclosing their essential provisions shall be published in the next following issue of the *Canada Gazette*.

Orders and
regulations
laid before
Parliament.

9. A report shall be laid before Parliament within fifteen days after the expiration of this Act, or if Parliament is not then in session, shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the moneys expended, guarantees given and obligations contracted under this Act.

Report to
Parliament.

10. Notwithstanding the expiration of *The Relief Act, 1934*, chapter fifteen of the Statutes of 1934, on the thirty-first day of March, 1935, and the provisions of the said Act, all undischarged obligations created under the authority of the said Act may be paid and discharged out of the Consolidated Revenue Fund.

Payment of
undischarged
obligations
under
Relief Act,
1934.

11. This Act shall expire on the thirty-first day of March, 1936, but any obligation or liability incurred or created under the authority of this Act may be paid and discharged out of the Consolidated Revenue Fund notwithstanding the expiration of this Act on the said date.

Duration
of Act.
Payment of
obligations
incurred
after
expiration.

APPENDIX B

P.C. 968

CERTIFIED to be a true copy of a Minute of a Meeting of the Committee of the Privy Council, approved by The Deputy of His Excellency the Governor General on the 12th April, 1935.

The Committee of the Privy Council have had before them a report, dated 9th April, 1935, from the Minister of Labour, representing:

- (1) That Parliament has enacted legislation which may be cited as "The Relief Act, 1935";
- (2) That Clause 6 thereof provides that the Governor in Council shall have full power to make all such Orders and Regulations as may be deemed necessary or desirable to carry out the purposes and intentions of the said Act.

The Committee, on the recommendation of the Minister of Labour, advise that the administration of the said Act be vested in the Minister of Labour.

H. W. LOTHROP,

Asst. Clerk of the Privy Council.

The Honourable the Minister of Labour.

APPENDIX C

TEXT OF RESOLUTION IN RE REGISTRATION OF
THE UNEMPLOYED ON RELIEF

That the following sub-committee report be approved:—

1. Your committee appointed to consider the registration of the unemployed on relief, beg leave to submit as follows:—

2. Under existing conditions of relief administration, the problem of securing a comprehensive registration as aforesaid, may be divided into the following parts:—

The registration of those on relief, including and differentiating (i) unemployed persons, (ii) unemployables, and (iii) farm and other relief not due to unemployment.

3. By an "unemployed" person is meant any person 16 years of age and over, physically and mentally capable of work, and available for gainful occupation. By an "unemployable" person is meant any person 16 years of age and over, available for gainful occupation, but physically incapable of gainful employment.

4. For persons in receipt of relief it is recommended that, for as early a date as may be agreed upon as practicable (say January 31, 1936) a registration be made by the provincial governments covering as a minimum for each individual on relief the data set out in Schedules A, A1 and B, hereto attached, Schedules A, and A1 referring to unemployed and unemployable persons on relief (these categories, it will be observed, being differentiated on the schedule), and Schedule B referring to persons in receipt of farm (family) relief arising from causes other than unemployment.

5. The registration recommended in the preceding paragraph shall be carried out through the agencies—provincial, municipal and other—already operating in the administration of relief measures. Immediately on its completion a compilation of the results shall be forwarded to the Department of Labour, Relief Administration Branch, according to a uniform plan to be agreed upon, showing for the categories designated the numbers on relief by sex, age, conjugal condition and occupation.

6. The registration above described shall thereafter be maintained up to date by the provincial authorities, and the compilation mentioned in the preceding paragraph shall be forwarded at monthly intervals during the continuance of present arrangements for relief administration.

7. It may be pointed out that for the comprehensive analysis of data such as is contemplated in the foregoing, the compilation of the individual returns by the punch card method is the most efficient. The Dominion Bureau of Statistics will be glad to assist in the application of this method and undertake the compilation for any province which will forward the necessary punch cards. It is suggested that a hand count would suffice for the monthly returns above mentioned, but that an analysis on a thoroughly comprehensive scale should be made annually, say, for date of December 1.

TEXT OF RESOLUTIONS IN RE FUTURE POLICY ON UNEMPLOYMENT AND RELIEF IN CANADA

1. That the Dominion Government restrict its services for individuals and families on relief to making provision in association with the province and the municipality, for unemployable men and women with their dependents. In this connection it should be recognized that the Old Age Pension is in the nature of a superannuation for this group on the basis of age.

2. That all those others on unemployment relief who are incapable of self-supporting labour be considered charges upon the municipality and (or) province.

3. That there be established a Dominion Commission on Employment and Relief with broad functions and powers which would include the following:—

(a) In co-operation with the provinces and municipalities to carry out as early as possible a Dominion-wide registration and classification of those on relief who are capable of self-supporting work.

(b) To determine the general standards, regulations and conditions to be met by any province in order to qualify for participation in Dominion funds.

(c) To co-ordinate public works programs and employment policies on a long-range basis, and establish a general consistency of action.

(d) To supervise the distribution of funds voted by the Dominion Parliament (and made available by the Governor in Council) for employment and relief purposes.

(e) To promote the objects set forth in sections 4 and 5 hereof.

4. That the co-operation of commerce and industry be requisitioned to assist in devising plans under which business enterprises shall make year-round provision for their essential quotas of employees and for the increase of employment. Many industries now recognize that it is unjust and anti-social for business management to produce casualties for public treasuries to take care of, regardless of the wrecking of individual and family life involved.

5. That under government leadership a system shall be devised for the training of youth in habits and techniques of work and industry, and for a thorough and well integrated apprenticeship system.

6. That, in view of the fact that the foregoing program will require considerable time before becoming effective, the Dominion grants to the provinces for relief be substantially increased.

TEXT OF RESOLUTION IN RE DOMINION-PROVINCIAL CO- OPERATION IN THE COLLECTION OF STATISTICS

That consideration be given to the extent to which there may be more complete co-operation and co-ordination of effort between the federal and provincial authorities in the collection and publication of statistical information, and what further steps should be taken to secure comprehensive and uniform statistics with regard to social and economic conditions in Canada.

APPENDIX D

The tables which follow provide a summary of relief as reported by Provinces and Federal Departments month by month. In connection with the figures which pertain to the numbers given Direct Relief, it must be borne in mind that these figures include children as well as adults, and every individual given Direct Relief is included, though such relief may have been given for only one day or part of a day during the month.

Total Direct Relief Recipients.....	6,081	21,690	31,027	348,000	386,000	82,672	207,100	63,576	92,244	1,232,390

N.B. 1. The foregoing tables relate to direct relief administered through the municipalities and/or the provinces.

2. Alberta reports that relief to unemployed persons and their dependents is not administered under the joint municipal-provincial relief scheme.

3. Prince Edward Island, Nova Scotia and New Brunswick report no farmers' families receiving relief.

4. "Transients," i.e., individual persons resident for less than thirty days in the particular municipality, are not included in the above.

5. Apparent inconsistencies between the numbers shown in the above table and the numbers afforded direct relief in the month of January 1936 as shown in Appendix "D," are accounted for by—

- The inclusion in this table of single homeless persons cared for by the Provinces of Manitoba, Alberta and British Columbia which are shown under Appendix "D" separately
- While the figures shown in this table and those shown in Appendix "D" are both preliminary, the former were reported after more nearly complete information was available.

APPENDIX "F"

UNEMPLOYMENT RELIEF ACTS
SUMMARY OF LOANS OUTSTANDING AS AT MARCH 31, 1936

The chart which follows indicates the numbers receiving various classes of relief as reported monthly by the provinces and federal departments carrying out projects under relief legislation.

The large increase from *October, 1932* to *November, 1932*, is accounted for by higher numbers afforded direct relief in November in the provinces of New Brunswick, Quebec, Ontario and in Saskatchewan through the Saskatchewan Relief Commission.

From *September, 1933* to *October, 1933*, while all the provinces except Nova Scotia reported increased numbers on direct relief, the increase in Quebec was proportionately greater than the increases in other provinces. In *November, 1933*, there were substantial increases in Ontario direct relief figures and in direct relief distributed by the Saskatchewan Relief Commission.

In *April, 1934*, all provinces reported decreased figures for direct relief as compared with *March, 1934*, the largest decreases being reported by Nova Scotia, Ontario, Manitoba and the Saskatchewan Relief Commission.

Commencing *April 1, 1934*, relief previously administered by the Ontario Department of Northern Development on a subsistence basis was changed to a wage basis.

The decrease in direct relief shown from *May, 1934*, to *June, 1934*, was fairly uniform in all provinces.

The increase in direct relief from *September, 1934*, to *October, 1934*, was chiefly accounted for by an increase of 34% in Saskatchewan, 14½% in Quebec and 11½% in Ontario.

The decrease in direct relief in the months of *September* and *October, 1935* as compared with previous months, is largely accounted for by substantial reductions in the numbers afforded relief in the dried out areas in Saskatchewan.

The employment index is based on the number of employees at work on the first day of the month as indicated by the firms reporting, in comparison with the average number of employees reported during the calendar year 1926, which is taken as 100.

When reading employment index scale, 100,000 is to be read as 10; for example, on February 1, 1935, the employment index is 94·6.

MARCH 31, 1937

OTTAWA

J. O. PATENAUDE, I.S.O.

PRINTER TO THE KING'S MOST EXCELLENT MAJESTY
OTTAWA

OTTAWA, March 31, 1937.

To the Hon. NORMAN McL. ROGERS,
Minister of Labour,
Ottawa.

SIR,—The Unemployment Relief and Assistance Act, 1936, provides that a report shall be laid before Parliament within thirty days after the expiration of the Act, or if Parliament is not then in session shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the moneys expended or loaned, guarantees given, and obligations contracted under the Act.

I have the honour to transmit herewith the report of Mr. Harry Hereford, Dominion Commissioner of Unemployment Relief, which sets forth statements of expenditures, loans, and obligations. There were no guarantees given or authorized under the Act. The report also contains much additional information referring to the administration of The Unemployment Relief and Assistance Act, 1936, and also shows expenditures made under the relief legislation of 1930, 1931, 1932, 1933, 1934 and 1935.

Respectfully submitted,

W. M. DICKSON,
Deputy Minister of Labour.

THE UNEMPLOYMENT RELIEF AND ASSISTANCE ACT, 1936

REPORT OF THE DOMINION COMMISSIONER OF UNEMPLOYMENT RELIEF

OTTAWA, March 31, 1937.

To W. M. DICKSON, Esq.,

Deputy Minister of Labour.

SIR.—The undersigned begs to report as follows concerning the administration of The Unemployment Relief and Assistance Act, 1936.

The Unemployment Relief and Assistance Act, 1936, being Chapter 15 of 1 Edward VIII was assented to May 7, 1936. Chapter 46 of 1 Edward VIII, an Act to amend the Unemployment Relief and Assistance Act, 1936, received royal assent on June 23, 1936. Copies of these statutes follow this report as Appendix "A."

Clause 10 of the Act provides that a report shall be laid before Parliament within thirty days after the expiration of the Act, or if Parliament is not then in session shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the monies expended or loaned, guarantees given, and obligations contracted under the Act.

Clause 11 of the Act provides that the Act shall expire on the 31st day of March, 1937.

Clause 2 of the Act provides that the Act shall be administered by the Minister of Labour.

GRANTS-IN-AID

Under the provisions of the Unemployment Relief and Assistance Act, 1936, the Dominion continued to make grants-in-aid to the provinces to assist each of the provinces in discharging its responsibilities for the relief of necessitous persons within its borders, it being understood that the provinces were to assist the municipalities within their borders financially to such an extent as might be necessary.

In accepting the monthly grants-in-aid each of the provinces provided the Minister of Labour with an undertaking that all moneys received by them as grants-in-aid would be used for the purpose above described without any discrimination as to racial origin, religious views or political affiliations of any individual eligible to share in said relief; to supply the Dominion such statistical and other information respecting relief or the grants-in-aid as might at any time be required; and to co-operate with the Dominion in its endeavours to carry out the purposes of the National Employment Commission Act, 1936.

The amounts paid to each of the provinces by way of grants-in-aid for the fiscal year 1936-37 are shown in table No. 3, while the numbers assisted month by month are set forth in appendices "B" and "C."

WORKS IN CO-OPERATION WITH PROVINCES

At the request of the provinces, the Dominion entered into agreements under the provisions of the Unemployment Relief and Assistance Act, 1936, with each of the provinces, in which agreements provision was made for Dominion contribution of 50 per cent of the cost of certain relief works projects proposed to be undertaken by the provinces. The types of work carried out by the provinces under the agreements which expired March 31, 1937, were as follows:—

Prince Edward Island—Trans-Canada highway construction, provincial highway construction, provincial and municipal works.

Nova Scotia—Trans-Canada highway construction.

New Brunswick—Trans-Canada highway and provincial highway construction.

Quebec—Trans-Canada highway construction, provincial highway construction, provincial works, and certain works carried out by the province in the city of Montreal without any contribution from the municipality.

Ontario—Trans-Canada highway construction, provincial highway construction, and provincial works.

Manitoba—Trans-Canada highway construction, provincial highway construction, provincial works and a sewage disposal plant at Winnipeg.

Saskatchewan—Trans-Canada highway construction, provincial highway construction and provincial works.

Alberta—Trans-Canada highway and provincial highway construction.

British Columbia—Trans-Canada highway construction, provincial highway construction and improvements to Stanley Park.

In addition to the foregoing, provision was made in the agreements with Saskatchewan and Alberta for a Dominion contribution of 50 per cent toward the provinces' cost of moving and placing on suitable farming lands in the northern parts of those provinces agricultural settlers, and in assisting settlers so placed. Provision was also made in the agreement with New Brunswick for a Dominion contribution of 50 per cent toward expenditures incurred by the province in respect of colonization settlers by way of bonuses for clearing and otherwise preparing land for seeding; furnishing seed grain and other seed; furnishing building and fencing materials; and such other expenditures as the Minister of Lands and Mines of the province deemed necessary to assist said settlers to become established on a self-supporting basis.

The Dominion's commitments in regard to these matters together with the disbursements for the fiscal year ending March 31, 1937, are set forth in table No. 3.

Provision was made in the agreements covering relief works, that on all projects authorized by each of the agreements at least 50 per cent of the persons employed at all times should be selected from those in receipt of relief during a specified period prior to the inception of the province's relief works program. An exception was made, that when an undertaking was in an unorganized territory or in a municipality where relief was not being granted, the selection of the 50 per cent quota above mentioned might be taken from needy persons within the district certified to be such by the Clerk of the municipality and/or the appropriate officials of the province, subject to the approval of the Minister of Labour.

Table No. 1 indicates by provinces the average percentage of men taken from relief rolls or certified as eligible in accordance with the terms of the agreements during those months when relief works were carried out.

TABLE No. 1

	Average percentage Taken from relief rolls or certified as eligible
	%
Prince Edward Island.....	69.48
Nova Scotia.....	57.29
New Brunswick.....	57.86
Quebec.....	68.74
Ontario.....	61.02

Saskatchewan.....	52.14
Alberta.....	51.27*
British Columbia.....	51.27

* Complete returns have not been received from Alberta at the date of this report, namely, March 31, 1937.

The agreements also provided, that no persons other than residents of Canada should be employed and that no resident of Canada should with relation to employment or his eligibility for employment be discriminated against nor favoured by reasons of his race, religious views or political affiliations.

With respect to rates of wages of persons employed in the execution of projects under the agreements, it was provided that it be the duty of the provinces to see that all persons in the employ of the contractor, sub-contractor, or any other person doing or contracting to do the whole or any part of the works covered by the agreements during the continuance of the works be paid fair wages. It was further provided that the maximum number of hours per day to be worked by any employee on any of the projects covered by the agreements were to be restricted to eight with the limitation that in no instance was any employee to work in excess of an average of forty-eight hours per week over a period of three consecutive calendar weeks.

The numbers afforded employment on the aforementioned relief works projects as reported by the provinces are set forth month by month in Appendices "B" and "C."

ASSISTANCE IN THE DROUGHT AREAS

Representations were made by the Prairie Provinces that they were unable under the existing conditions to provide the financial assistance necessary to care for those in need in the drought areas within their respective boundaries. As a result of these representations the Dominion entered into an agreement with each of the provinces concerned, providing for assumption by the Dominion of 100 per cent of the costs of direct relief distributed in the drought areas during the period September 1st, 1936, to March 31st, 1937, as those areas were defined by the agreements, exclusive of the costs of provincial and municipal administration. Direct relief for this purpose was defined by the agreements as food, fuel, clothing, and where necessary, shelter. The extent of such assistance was limited by the agreements to \$300,000 for Manitoba, \$4,500,000 for Saskatchewan and \$2,500,000 in the case of Alberta.

There being no parliamentary appropriation available for such expenditures during the fiscal year 1936-37, the moneys required were obtained by Governor General's Warrant. Expenditures under these agreements to March 31, 1937, are set forth in Table No. 3.

Supplementary to the agreements entered into with the Prairie Provinces respecting federal contribution towards the cost of direct relief distributed in the drought areas, agreements were entered into with each of those provinces by the Department of Agriculture, under the terms of which it was agreed that the Dominion would contribute 100 per cent of the cost to the provinces of such feed and fodder purchased, shipped, and distributed on provincial government certificate, as was required in the said drought areas for the necessary feeding of livestock prior to the 31st day of March, 1937, together with all freight charges thereon and the cost of the movement of any equipment used by municipalities or individuals in the areas in providing their own feed requirements. The agreements with Saskatchewan and Alberta took effect on August 20th, 1936, while that entered into with Manitoba was effective from September 15, 1936.

The Dominion commitment was limited by the agreements to \$200,000 for Manitoba, \$2,700,000 for Saskatchewan, and \$1,800,000 for Alberta. The moneys required for such assistance were obtained by Governor General's Warrant.

The agreements with the Prairie Provinces respecting feed and fodder assistance were not entered into under the provisions of the Unemployment Relief and Assistance Act, 1936, but they are mentioned in this report as they formed a definite part of the Dominion's program of assistance for the drought stricken areas of the three provinces.

SINGLE UNEMPLOYED PERSONS

The policy of the Federal Government to close the relief camps operated under the direction of the Department of National Defence as indicated in the report of the undersigned respecting the administration of the Relief Act, 1935, was successfully carried out. The men from the camps were offered employment on special extra gang work on the Canadian National and Canadian Pacific Railways. Arrangements were also made to transport those who so desired to farm employment.

To meet the problem of the single homeless unemployed during the winter of 1936-37, agreements were entered into with all the provinces excepting Ontario and Nova Scotia, providing for the placement of single unemployed on farms under a Farm Improvement and Employment Plan. The arrangement covered by these agreements provided for payment to the farmer of \$5 per month, while those accepting employment under the plan received free transportation, a clothing allowance not exceeding \$3, and \$5 per month with an additional bonus of \$2.50 per month where continuous employment was maintained up to March 31, 1937. In Quebec, at the request of the provincial authorities, no payment was made to the farmer and a straight allowance of \$7.50 was paid each month to the worker. The numbers cared for month by month on these projects are set forth in Appendices "B" and "C."

In addition to the Farm Improvement and Employment Plan, and in order to meet the peculiar needs of British Columbia, Alberta, Manitoba, and New Brunswick, agreements were entered into with those provinces providing for a Dominion contribution of 50 per cent towards the cost of forestry and other works undertaken by the provinces as supplementary means of providing employment for those single unemployed persons deemed unsuitable for farm work. To ensure that the men at the completion of the work would not be without funds, a system of deferred pay was placed in operation in British Columbia and Alberta; the amount of money standing to the credit of any man at the completion of the work being paid in weekly instalments of \$4.

RELIEF SETTLEMENT

Under the provisions of the Relief Act, 1932, agreements were completed with all the provinces, except Prince Edward Island, providing for a non-recoverable expenditure of one-third of an amount not to exceed \$600 per family for the purpose of providing a measure of self-sustaining relief to families who would otherwise be in receipt of direct relief by placing such families on the land. It was provided that the remaining two-thirds of the expenditure should be contributed by the province and the municipality concerned. The agreements covered a period of two years and expired on March 31, 1934.

Under the provisions of the Relief Acts of 1934 and 1935, agreements, effective from April 1, 1934, to March 31, 1936, providing continuity of settlement with the agreements which expired March 31, 1934, were entered into with all the provinces excepting Prince Edward Island. Provision was made in these agreements for an additional non-recoverable contribution by the Dominion, on the recommendation of the province and with the approval of the Governor in Council, of one-third of an amount not exceeding \$100 in the case of a settler who might not be self-supporting at the end of the two-year period, and for whom subsistence expenditure during the third year of settlement was deemed necessary. The additional amount for subsistence during the third year, where necessary, applied both to those settled under the 1932 agreements and those settled under the renewal agreements.

Under the provisions of the Unemployment Relief and Assistance Act, 1936, further agreements, effective from April 1, 1936, to March 31, 1940, providing continuity of settlement with the agreements which expired March 31, 1936,

were entered into with the provinces of Quebec, Manitoba, and Alberta. Provision is made in said agreements for placement of further families on the land and a non-recoverable expenditure of one-third of an amount not to exceed \$1,000 per family for a period of four years. Provision is also made on behalf of families settled under previous agreements, for an additional non-recoverable contribution by the Dominion of one-third of an amount not exceeding \$80 per family for fourth year of settlement and \$70 per family for fifth year of settlement.

Reports received from the provinces in regard to the number of approved settlers on the land under the 1932, 1934, 1935, and 1936 agreements as at March 31, 1937, and the Dominion contributions to the end of the fiscal year 1936-37 are shown in Table 2.

DISBURSEMENTS BY DOMINION REFUNDED AND/OR REFUNDABLE BY PROVINCES

In continuation of the policy adopted in respect to expenditure under the seven preceding relief acts, the Auditor General was authorized by Order in Council dated January 8, 1937 (P.C. 18) to conduct such audit of provincial and municipal accounts in connection with expenditures incurred under the Unemployment Relief and Assistance Act, 1936, as he deemed essential to safeguard the interests of the Federal Treasury.

Reports made during the past year by the Auditor General on examination of provincial and municipal relief accounts in respect to previous years' expenditure indicate, generally, that conditions similar to those to which reference was made on page 8 of the report of the undersigned relative to the Relief Act, 1935, and which tend to make settlement and adjustment of the matters referred to by the Auditor General difficult and protracted, are still existent. Nevertheless, considerable progress has been made during the year towards the adjustment and settlement of the matters still pending and requiring adjustment, negotiations having been carried on continuously with the provinces by correspondence and conferences held with representative officials of several of the provinces, resulting in a number of the outstanding matters having been conceded as adjustable in favour of the Dominion and it is anticipated that adjustment of the amounts involved will be effected during the early part of the present year. Similar conferences will continue to be held with officials of the other provinces concerned.

Totals, by provinces, of all amounts specifically reported by the Auditor General as refundable, of the amounts refunded, otherwise adjusted or pending at the close of the fiscal year 1936-37, under Federal Relief Legislation for the period from September 22, 1930, to March 31, 1937, are shown in Table No. 4.

TABLE No. 4

—	Amounts Established as Refundable through the Auditor General's Reports	Refunded	Otherwise Adjusted	Pending
	\$	\$	\$	\$
Prince Edward Island.....	27,626 14	7,112 84	20,513 30

LOANS

Under authority of section 4 of The Unemployment Relief and Assistance Act, 1936, as amended, the Dominion made loans, where necessary, to the four Western Provinces for unemployment relief purposes. The total amount loaned from April 1, 1936, to the close of the fiscal year ending March 31, 1937, was \$14,178,307.32. As security for repayment, the Dominion holds Provincial Treasury Bills bearing interest at the rate of four per centum per annum to July 1, 1936, and three per centum thereafter payable half-yearly. In addition the Dominion accepted Saskatchewan Treasury Bills to the amount of \$1,526,604.16 in respect to certain interest accruals on relief loans.

The following statement shows by provinces the amounts loaned during the year, 1936-37; the net loans outstanding March 31, 1936; repayments during the year, and the net loans outstanding at the close of the fiscal year 1936-37.

PROVINCE OF MANITOBA—

Loans made during 1936-37:	
For direct relief and farm placement.....	\$ 2,218,000 00
For public works including The Greater Winnipeg Sewage Disposal Scheme.....	2,409,000 00
	\$ 4,627,000 00
Less repayments during the year.....	1,000 00
	\$ 4,626,000 00
Net loans outstanding March 31, 1936.....	15,504,855 23
*Total net loans outstanding at the close of the fiscal year ending March 31, 1937.....	\$20,130,855 23

* NOTE: The above total is inclusive of \$804,897.02 to be written down as a non-active asset as of March 31, 1937, as provided by Vote 392 of the Further Supplementary Estimates, 1936-37.

PROVINCE OF SASKATCHEWAN—

Loans made during 1936-37:	
For direct relief and farm placement.....	\$ 3,810,232 75
For public works.....	645,071 39
For cattle shipped from Drought Area.....	27,553 18

For Northern Re-establishment.....	50,000 00
Acceptance of Treasury Bills in respect to certain interest accruals.	1,526,604 16
	<u>\$ 6,059,461 48</u>
Less repayments during the year.....	582 48
	<u>\$ 6,058,879 00</u>
Net loans outstanding March 31, 1936.....	48,368,629 59
*Total net loans outstanding at the close of the fiscal year ending March 31, 1937.....	<u>\$54,427,508 59</u>

* NOTE: The above total is inclusive of \$17,682,157.61 to be written down as a non-active asset as of March 31, 1937, as provided by Vote 393 of the Further Supplementary Estimates, 1936-37.

PROVINCE OF ALBERTA—

Loans made during 1936-37:	
For direct relief.....	\$ 798,000 00
For public works.....	120,000 00
For cattle shipped from Drought Area.....	56,450 00
	<u>\$ 974,450 00</u>
Less repayments during the year.....	169,252 00
	<u>\$ 805,198 00</u>
Net loans outstanding March 31, 1936.....	25,081,000 00
Total net loans outstanding at the close of the fiscal year ending March 31, 1937.....	<u>\$25,886,198 00</u>

PROVINCE OF BRITISH COLUMBIA—

Loans made during 1936-37:	
For direct relief.....	\$ 2,894,000 00
For public works.....	1,150,000 00
	<u>\$ 4,044,000 00</u>
Less repayments during the year.....	71,600 38
	<u>\$ 3,972,399 62</u>
Net loans outstanding March 31, 1936.....	27,572,680 10
Total net loans outstanding March 31, 1937.....	<u>\$ 31,545,079 72</u>
GRAND TOTAL OF LOANS OUTSTANDING MARCH 31, 1937.	<u>\$131,989,641 54</u>

DEPARTMENT OF FINANCE,
May 2, 1937.

Appendix "E" shows a recapitulation of Dominion disbursements under relief legislation from September 22, 1930, to the end of the fiscal year 1936-37 by provinces, federal departments, etc., and by Acts; also a summary of loans and advances outstanding as at the same date.

Appendix "F" sets forth Dominion disbursements with respect to relief from September 22, 1930, to the end of the fiscal year 1936-37 by provinces, federal departments, etc., and by classes of expenditure.

All Orders in Council and regulations made under the statute have been laid before the House of Commons after the issuance thereof when Parliament has been in session, otherwise abstracts of the said Orders in Council and regulations, disclosing their essential provisions, have been published in the *Canada Gazette*, in accordance with clause 8 of the Act.

Respectfully submitted,

HARRY HEREFORD,
Dominion Commissioner
of Unemployment Relief.

APPENDIX "A"

1 EDWARD VIII

CHAP. 15

An Act to assist in the relief of Unemployment, the promoting of Agricultural Settlement and Rehabilitation, and in the Development, Conservation and Improvement of certain natural and other resources.

[Assented to 7th May, 1936].

WHEREAS it is in the national interest that Canada should co-operate with its provinces and with certain organizations and individuals in their endeavours to expand industrial employment, to foster agricultural settlement and resettlement, to conserve and develop natural resources and to construct and to assist in the construction of public works, for the purposes, amongst other things, of further accelerating the recovery of trade, industry and employment and thereby lessening the present governmental burdens consequent upon unemployment: Therefore His Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

1. This Act may be cited as *The Unemployment Relief and Assistance Act, 1936*. Short title.

2. This Act shall be administered by the Minister of Labour and whenever used in this Act, the word "Minister" shall mean the Minister of Labour. Administration.

3. (1) The Governor in Council may out of moneys appropriated by Parliament authorize the execution of such works and undertakings as the Governor in Council may determine to be in the general interest of Canada and requisite for the purposes of this Act, and for such purposes may authorize the performance of such acts and the execution of such agreements and contracts as he may deem necessary and expedient. Works and undertakings.

(2) In the execution of any such work or undertaking provision shall be made, so far as it may be in the opinion of the Governor in Council practicable and consistent with reasonable efficiency and economy to do so, for the employment of persons who being available and competent are necessarily and properly in receipt of relief in the province in which such work or undertaking is to be performed. Employment of persons on relief.

(3) Where any such work or undertaking to which the Dominion Government is contributing is under provincial jurisdiction, all contracts entered into with respect thereto shall be approved by the Minister and the work thereunder supervised by an engineer in the service of the Dominion Government. Contracts to be approved.

(4) The Minister may take such action as he may deem necessary and proper to ensure compliance with the provisions of subsections two and three of this section. Minister may take action.

Agreements
with
provinces.

4. The Governor in Council may enter into agreements with any of the provinces respecting relief measures therein and providing for any payments on account of such relief measures to be made out of moneys appropriated for relief purposes by Parliament for the fiscal year 1936-37, and where necessary the Governor in Council may by way of loan or advance out of the Consolidated Revenue Fund or by way of guarantee, grant financial assistance to any province to enable the province to provide for any expenditures for direct relief or other relief measures up to an amount not exceeding in the aggregate the total amount which may be otherwise payable to such province under any agreement entered into under the authority of this Act. The Governor in Council may also enter into agreements with corporations, partnerships or individuals engaged in industry respecting the expansion of industrial employment.

Renewals of
loans,
advances or
guarantees.

1932, c. 36;
1932-33, c. 18;
1934, c. 15;
1935, c. 13.

5. The Governor in Council may renew or consolidate, for such periods and upon such terms as the Governor in Council may determine, loans, advances or guarantees made, given or renewed under the authority of *The Relief Act, 1932; The Relief Act, 1933; The Relief Act, 1934; The Relief Act, 1935*, and this Act, and accept as security therefor such Treasury bills, bonds, debentures or other securities as may be approved by the Governor in Council.

Orders and
regulations.

6. The Governor in Council may make all such orders and regulations as may be deemed necessary or desirable to carry out the purposes and intentions of this Act.

Orders and
regulations
to have the
force of law.

7. All orders and regulations of the Governor in Council made hereunder shall have the force of law and may be varied, extended or revoked by any subsequent order or regulation; but if any order or regulation is varied, extended or revoked, neither the previous operation thereof nor anything duly done thereunder shall be affected thereby, nor shall any right, privilege, obligation or liability acquired, accrued, accruing or incurred thereunder be affected by any such variation, extension or revocation.

Laid before
the House of
Commons.

8. All orders in council and regulations made under the provisions of this Act shall be laid before the House of Commons forthwith after the making thereof if Parliament is then sitting, or if not, said orders in council or regulations or an abstract thereof disclosing their essential provisions shall be published in the next following issue of the *Canada Gazette*.

Appointment
of officers,
clerks and
employees.

9. Subject to the approval of the Governor in Council the Minister may appoint such officers, clerks and employees as may be necessary to carry out the purposes of this Act.

Report to
Parliament.

10. A report shall be laid before Parliament within thirty days after the expiration of this Act, or if Parliament is not then in session shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the moneys expended or loaned, guarantees given and obligations contracted under this Act.

Duration of
Act.

11. All the provisions of this Act, except such as are contained in section five and in this section, shall expire on the thirty-first day of March, 1937, but any obligation or liability incurred or created under the authority of this Act may be paid and discharged notwithstanding the expiration of the aforesaid provisions of this Act on the said date.

Payment of
obligations
incurred
after
expiration.

1 EDWARD VIII

CHAP. 46

An Act to amend The Unemployment Relief and Assistance Act, 1936

[Assented to 23rd June, 1936.]

HIS Majesty, by and with the advice and consent of the Senate 1936, c. 15.
and House of Commons of Canada, enacts as follows:—

1. Section four of *The Unemployment Relief and Assistance Act, 1936*, chapter fifteen of the statutes of the present session is repealed and the following substituted therefor:—

“4. The Governor in Council may enter into agreements with any of the provinces respecting relief measures therein and providing for any payments on account of such relief measures to be made out of moneys appropriated for relief purposes by Parliament for the fiscal year 1936-37, and where necessary the Governor in Council may grant financial assistance to any province by way of loan, advance or guarantee to an amount not exceeding in the aggregate the maximum amount which may be payable by the province for its share of the cost of unemployment relief and undertakings during the months of February and March, nineteen hundred and thirty-six, and under any agreement between the Dominion and the province entered into under the authority of this Act as well as the amount for which the province may be obligated by way of loan in connection with the cost of any undertaking for which commitments were made under *The Relief Act, 1935*, and which may be continued under agreements entered into under authority of this Act. The Governor in Council may also enter into agreements with corporations, partnerships, or individuals engaged in industry respecting the expansion of industrial employment.”

Agreements
with
provinces.

Agreements
with
corpora-
tions, etc.
1935, c. 13.

OTTAWA
J. O. PATENAUDE, I.S.O.
PRINTER TO THE KING'S MOST EXCELLENT MAJESTY
1939

OTTAWA, March 31, 1939.

To the HON. NORMAN McL. ROGERS,
Minister of Labour,
Ottawa.

SIR,—The Unemployment and Agricultural Assistance Act, 1938, provides that a report shall be laid before Parliament within thirty days after the expiration of the Act, or if Parliament is not then in session shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the monies expended or loaned, guarantees given and obligations contracted under the Act.

I have the honour to transmit herewith the report of Mr. Harry Hereford, Dominion Commissioner of Unemployment Relief, which sets forth statements of expenditures, loans, and obligations. There were no guarantees given or authorized under the Act. The report contains additional information respecting the administration of The Unemployment and Agricultural Assistance Act, 1938, and also shows expenditures made under relief legislation enacted during the years 1930–1937 inclusive.

Respectfully submitted,

W. M. DICKSON,
Deputy Minister of Labour.

THE UNEMPLOYMENT AND AGRICULTURAL ASSISTANCE ACT, 1938

REPORT OF THE DOMINION COMMISSIONER OF UNEMPLOYMENT RELIEF

OTTAWA, March 31, 1939.

To W. M. DICKSON, Esq.,
Deputy Minister of Labour.

SIR,—The undersigned begs to report as follows concerning the administration of The Unemployment and Agricultural Assistance Act, 1938, being Chapter 25 of 2 George VI, which was assented to May 25, 1938. Copy of the statute follows this report as Appendix "A".

Clause 11 of the Act provides that a report shall be laid before Parliament within thirty days after the expiration of the Act, or if Parliament is not then in session shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the monies expended or loaned, guarantees given and obligations contracted under the Act.

Clause 2 of the Act provides that the Act shall be administered by the Minister of Labour.

GRANTS FOR MATERIAL AID

Under the provisions of The Unemployment and Agricultural Assistance Act, 1938, the Dominion continued to assist the provinces in discharging their responsibilities in connection with the granting of material aid to necessitous persons. Agreements were entered into with all the provinces, excepting New Brunswick, providing that the Dominion would contribute as a grant-in-aid the percentages set forth below of the material aid expenditures of the provinces (including their municipalities) for the fiscal year ending March 31, 1939, or the maximum amounts indicated, whichever was the lesser.

Prince Edward Island.....	30% or \$ 48,000
Nova Scotia.....	30% or 210,000
Quebec.....	30% or 4,800,000
Ontario.....	30% or 5,580,000
Manitoba.....	35% or 1,980,000
Saskatchewan.....	35% or 2,430,000
Alberta.....	35% or 1,500,000
British Columbia.....	30% or 1,380,000

At the request of the province of New Brunswick, in lieu of a grant-in-aid for material aid purposes, a special grant-in-aid agreement was entered into with that province providing for a Dominion contribution of \$225,000 towards expenditures incurred by the province during the fiscal year ending March 31, 1939, in carrying on or assisting in carrying on certain projects and works or 50% of said expenditures, whichever was the lesser.

The term "material aid" was defined by the agreements as meaning either food, fuel, clothing and shelter (or any of them) supplied to individuals in necessitous circumstances or, subject to the approval of the Minister of Labour, the costs of carrying on works or training projects specifically designated by the provinces as projects intended to provide said individuals when employed

thereon the equivalent of food, fuel, clothing and shelter, which otherwise would have to be supplied to those individuals.

The agreements required the provinces and municipalities to follow certain defined lines of identification and segregation of material aid recipients and their dependents in order to distinguish more accurately between employables and unemployables for the purpose of furnishing definite information to the Dominion such being necessary to ensure the reliability of the National Registration.

Under the terms of the agreements the provinces were required to maintain such residence regulations that no person would become ineligible to receive material aid by reason of having lost residence in a municipality or jurisdiction within the province before having established residence in another and to require from all applicants for material aid resident in a district in which there is an office or representative of the Employment Service of Canada (other than resident farm operators and those engaged in farm work) proof of application by them to said Service for work and of determination by said Service of their employability.

It was further provided that the maximum value of material aid contributable to by the Dominion given to any head of family or other individual, of itself, or together with any additional allowances for material aid made by the province or any of its municipalities should be less than the normal earnings of an unskilled labourer in the district wherein the recipient resided, as averaged over the year preceding the granting of said aid. It was provided that in determining said maximum account might be taken of average loss of time, and in respect to heads of families that adjustment might be made for normal earnings of dependents of employable age and of proved employability.

To remove from the minds of recipients of material aid the fear that in accepting such work as was available they might sacrifice the possibility of receiving material aid in the future when further need arose, and to ensure that seasonal workers would make out of their earnings reasonable provision for seasonal unemployment, the agreements provided that the provinces would require such cities and towns as might be designated by the provinces to provide each person in those jurisdictions ceasing to receive material aid during the term of the agreement by reason of entering gainful occupation, a statement of the rate of material aid granted prior to said cessation and a reasonable budget of expenditures for the individual or family while the breadwinner was in gainful occupation. The provinces further agreed in this respect to require each applicant for further aid to obtain a properly certified statement of earnings to be filled in and signed by employers of the applicant prior to his or her readmission to material aid benefits.

Provision was also made in the agreements that no person other than a resident of Canada should be eligible for material aid and that no person should, in relation to his or her eligibility for said aid be discriminated against nor favoured by reason of his or her race, religious views or political affiliations.

As a result of representations by the government of the province of Prince Edward Island to the effect that there were approximately 500 fishermen with dependents in necessitous circumstances owing to adverse conditions existing in the fishing industry, a special agreement was entered into with that province whereby the Dominion agreed to pay to the province 50% of the expenditures incurred by the province for material aid supplied to necessitous fishermen and their dependents during the period December 1, 1938, to March 31, 1939, it being provided that the Dominion's contribution should not exceed \$30,000.

The amounts paid to each of the provinces under the above mentioned agreements at the date of this report, namely March 31, 1939, are shown in Table No. 3, while the numbers assisted month by month are shown in appendices "B" and "C".

YOUTH TRAINING

The Youth Training Programme was carried on in co-operation with the provincial Governments under agreements, which provided contributions to approved expenditures on a 50-50 basis; each province bearing its administration costs.

Those eligible to participate were young people, male or female, between 16 and 30 years of age, not gainfully employed and certified as being in necessitous circumstances, including deserving transients. Trainees were selected by each province subject to approval of a representative of the Dominion Department of Labour. The agreements provided that selection of trainees be made without discrimination or favour in relation to racial origin, religious views or political affiliations.

The agreements provided for the payment of travelling expenses, and living allowances to trainees, where necessary, also for the appointment of special instructors, project supervisors, vocational guidance officers, and placement officers. Over twenty-five placement officers, whose responsibility it was to locate suitable employment for trainees, were appointed, such appointments being made in all the provinces except Prince Edward Island and British Columbia. Instructors of classes and project supervisors also devoted a certain amount of time to placement work. Wherever placements were made the employer agreed that none of his existing staff would be displaced; that he would employ and train the young person in the occupation stated and retain his or her services, if satisfactory, as long as work was available.

The agreements provided that each province submit projects to meet the situation in each provincial area and after approval by the Dominion Department of Labour, necessary regulations were drawn up for each type of project, and were added as schedules to the provincial agreements.

Agreements were signed by the provinces on the following dates:

Prince Edward Island.....	July	26, 1938
Nova Scotia.....	July	21, 1938
New Brunswick.....	August	2, 1938
Quebec.....	July	22, 1938
Ontario.....	July	20, 1938
Manitoba.....	July	25, 1938
Saskatchewan.....	July	21, 1938
Alberta.....	July	22, 1938
British Columbia.....	August	6, 1938

The agreements, apart from the schedules, were practically identical in all provinces.

Amounts allotted to each of the provinces were as follows:—

Prince Edward Island.....	\$	20,000 00
Nova Scotia.....		90,000 00
New Brunswick.....		76,500 00
Quebec.....		325,000 00
Ontario.....		350,000 00
Manitoba.....		150,000 00
Saskatchewan.....		120,000 00
Alberta.....		120,000 00
British Columbia.....		155,000 00

The projects undertaken comprised four main types:

1. Work training projects related to forestry and mining, designed to conserve and develop natural resources and afford work and training to young men.

2. Occupational training, designed to fit young men and young women for specific occupations of a skilled or semi-skilled nature.
3. Courses for rural young men and women to provide the necessary theoretical and practical knowledge which would enable them to obtain a better economic return from their home farm and to improve the comfort of rural home life.
4. Physical recreation and health projects, designed to maintain the morale and increase the physical fitness of young people.

The last two mentioned types of projects were not designed to place young people in wage-earning employment, and it will be seen from section "G" of Table No. 1 that the number enrolled in these courses comprised over seventy per cent of the total number in receipt of training during 1938-39.

The following classes or courses were held in the various provinces:—

PRINCE EDWARD ISLAND—

For women—

Catering for tourists, handicrafts, homecraft and home nursing.

For men—

General agriculture, farm mechanics, egg and poultry grading, rural community leadership, carpentry, fisheries, woodlot cultivation.

NOVA SCOTIA—

For women—

Home service training schools, rural homecraft and handicrafts.

For men—

Mine training, auxiliary industrial apprenticeships, farm mechanics, poultry and egg grading, pruning and grafting, bee-keeping, fur farming, general agricultural short courses.

NEW BRUNSWICK—

For women—

Home service training schools, rural handicrafts and homecraft.

For men—

Forestry, prospecting, surveying, general agriculture, farm mechanics, radio servicing, wireless telegraphy operating, house wiring, motor mechanics, carpentry, building construction, salesmanship, community leadership.

QUEBEC—

For women—

Rural homecraft and handicrafts, hotel assistants.

For men—

Mining, forestry, general agriculture (parish courses), rural co-operatives and credit unions, ski instructors.

ONTARIO—

For women—

Home service training schools, waitresses, art textile design, industrial learnerships.

For men—

Mining, tobacco curing, farm apprentices, male nurses, parks and gardening, wireless telegraphy operating, machine shop, welding, carpentry, industrial apprentices and learners.

MANITOBA—

For women—

Home service training schools, specialized services, rural homecraft, home nursing, dressmaking, commercial refresher, commercial art, retail selling.

For men—

Forestry, industrial learners, agricultural courses, motor mechanics, welding, auto body work, machine shop, radio and electricity, carpentry, mechanical drafting, sheet metal work, diesel engineering, printing, aircraft ground work, commercial refresher, first aid.

SASKATCHEWAN—

For women—

Home service training schools, rural homecraft and handicrafts, agricultural subjects, dressmaking, commercial refresher, interior decorating, home nursing, cooking.

For men—

University agricultural courses, short agricultural courses, carpentry, motor mechanics, radio servicing, machine shop, welding, house wiring, diesel engineering, aviation, commercial refresher, first aid.

ALBERTA—

For women—

Home service training schools, agricultural short courses (homecraft and handicrafts), industrial learnerships, physical recreation, occupational centres.

For men—

Forestry, farm apprentices, industrial apprentices and learners, physical recreation, first aid, occupational centres.

BRITISH COLUMBIA—

For women—

Home service training schools, dressmaking, power sewing machine operation, waitresses, retail selling, commercial refresher, rural short courses, physical recreation.

For men—

Forestry, mining, woodworking, building construction, motor mechanics, radio servicing, diesel engineering, plastering, painting and decorating, first aid, physical recreation.

The Dominion's commitments and disbursements in regard to youth training are shown in Table No. 3, while Table No. 1 is a statistical summary of the youth training plan from its commencement in 1937 to February 28, 1939.

AID IN THE DROUGHT AREAS

As stated in last year's report, March 31, 1938 was the date of the termination of agreements under which the Dominion, through the Department of Agriculture, met the cost of material aid and feed and fodder relief in the drought areas of Saskatchewan and Alberta. With the coming of spring the need for feed and fodder relief was reduced and Dominion assistance was limited to financial guarantees, under the Seed Grain Loans Guarantee Act, in connection with feed required for seeding operations, and to the use of excess feed supplies purchased under the agreements which had terminated. Material aid, however, was still urgently required and the agreements relating to it were therefore renewed for the period April to June, and later were extended to the end of August. The amounts expended under the agreements for the five months' period were: Saskatchewan \$3,391,765.22; Alberta \$299,077.02. Adverse crop conditions were again widespread in Saskatchewan in 1938 and it was found necessary to continue to assist the province in the maintenance of the settlers and their stock in the dried-out districts. An agreement was reached, again through the Department of Agriculture, for the period September 1, 1938, to March 31, 1939, whereby the Dominion undertook to pay the full costs of material aid and feed and fodder relief in a newly defined drought area, consisting of 92 municipalities, to a maximum amount of \$4,500,000. Disbursements up to March 31, 1939, under the agreement were \$2,701,763.07 for material aid and \$255,838.96 for feed and fodder.

In addition to the material aid referred to above, which was distributed by the province and paid for by the Dominion on presentation of accounts, the Dominion purchased and distributed, as in the previous year, a quantity of fish, apples, cheese and beans, at a cost of \$263,867.71, to supplement the food purchases of those affected by drought. Although not carried out under the Unemployment and Agricultural Assistance Act, 1938, this food distribution is mentioned here as it formed a definite part of the Dominion's programme of assistance for the drought-stricken areas of Saskatchewan.

RE-ESTABLISHMENT OF SETTLERS

Another activity administered by Department of Agriculture under the Unemployment and Agricultural Assistance Act, 1938 was the re-establishment of settlers in the provinces of New Brunswick, Saskatchewan, Alberta and British Columbia. This was a continuation of the policy of the previous year, the agreements with the four provinces arrived at under the 1937 Act being extended with slight modifications in one or two instances. The programme is designed to assist settlers in pioneer areas to become self-sustaining and expenditures under the agreements are chiefly made for the breaking and clearing of land and the purchase of building materials, farm implements and livestock. The amounts made available under the agreements for the year 1938-39 were as follows:

New Brunswick.....	\$ 25,000 00
Saskatchewan.....	250,000 00
Alberta.....	75,000 00
British Columbia.....	15,000 00

The Dominion's disbursements in respect to the re-establishment of settlers as at March 31, 1939, are shown in Table No. 3.

SINGLE UNEMPLOYED PERSONS

The agreements respecting the Farm Employment Plan entered into with the Western provinces under the Unemployment and Agricultural Assistance Act, 1937, were, at the request of the provinces and pursuant to the provisions of The Unemployment and Agricultural Assistance Act, 1938, extended for the period April 1 to April 30, 1938. No payment was made to the farmer for the month of April, 1938, the allowance to the worker being \$7.50.

The agreements entered into under The Unemployment and Agricultural Assistance Act, 1937, with the provinces of British Columbia and New Brunswick, respecting works undertaken as a supplementary means of providing employment for those single unemployed persons deemed unsuitable for farm work were also at the request of the provinces extended under The Unemployment and Agricultural Assistance Act, 1938.

In order to meet the problem of the single transient unemployed the Farm Employment Plan, the cost of which is shared jointly between the federal and provincial Governments, was again placed in operation in the four Western provinces from October 1, 1938, to March 31, 1939.

The arrangement covered by the agreements provided for the payment to the farmer of \$5 per month in Alberta and British Columbia, while those accepting employment under the plan received \$5 per month with an additional bonus of \$2.50 per month where continuous employment was maintained up to March 31, 1939, plus free transportation, and a clothing allowance, where necessary, not exceeding \$3.

In addition to the Farm Employment Plan, and in order to meet the peculiar needs of British Columbia, where agriculture does not lend itself to the absorption of large numbers of men, an agreement was entered into providing for a Dominion contribution of 50 per cent towards the cost of forestry and other works undertaken by the province as a supplementary means of providing employment. The agreement covered the period from November 1, 1938, to March 31, 1939. To ensure that the men on completion of the work would not be without funds, a system of deferred pay was placed in operation, payable at specified post offices, the amount of money standing to the credit of any man on the completion of the work being paid in weekly instalments of \$4.

The numbers cared for month by month on these projects are set forth in appendices "B" and "C", while the Dominion's disbursements are shown in Table No. 3.

REHABILITATION OF OLDER UNEMPLOYED

At the 1938 session of Parliament funds were appropriated for the purpose of restoring the skill, physique and morale of those of the middle-age group of workers who through the depression, had suffered the loss of these things. The Dominion offered to contribute 50% of the cost to the provinces of such rehabilitation plans. Agreements have been signed or are in process of being arranged with Manitoba, Ontario, Alberta and British Columbia. Other provinces are studying the possibility of the plan.

TRANSPORTATION FACILITIES INTO MINING AREAS AND DEVELOPMENT OF TOURIST HIGHWAYS

The Department of Mines and Resources entered into agreements with all the provinces under the provisions of The Unemployment and Agricultural

Assistance Act, 1938, to provide for a Dominion contribution towards the costs of certain works projects submitted by the provinces as suitable for relieving the unemployment situation and which would as well serve one of the two following purposes:—

Provision of transportation facilities into mining areas,
Development of tourist highways.

Mining transportation programmes submitted resulted in arrangements for such work projects being entered into with the provinces of Nova Scotia, Quebec, Ontario, Manitoba, Saskatchewan, Alberta and British Columbia. The agreements provided for a uniform basis of assistance to these projects, the Dominion agreeing to contribute two-thirds of the costs of construction of each approved project. Additional to the costs shared with the provinces the mining interests contributed also to the execution of various mining transportation projects.

The same series of agreements provided for Dominion assistance in developing tourist highways, along the lines of programmes submitted by the provinces of Nova Scotia, Ontario, Manitoba, Saskatchewan, and British Columbia. Similar agreements were completed covering Dominion assistance to tourist highway development in Prince Edward Island and New Brunswick. The Dominion assistance granted for tourist road projects was 50 per cent of the costs of construction of approved projects up to amounts indicated in Table 3, except in British Columbia, Manitoba and Saskatchewan. In British Columbia the Dominion's contribution was 60 per cent of the total cost of construction up to the amount allotted to that province. In the cases of Manitoba and Saskatchewan the provincial governments desired to undertake larger programmes than could be carried out under the 50 per cent ratio, and arrangements were made whereby the Dominion would contribute 10 per cent to the costs of construction of the approved projects in Saskatchewan and thirty-nine one hundred and twenty eighths (approximately 30.47 per cent) to the similar costs of the accepted projects in Manitoba.

Provision was made in the agreements that, except in such instances as the Minister of Mines and Resources, or his Deputy, decided it was impracticable or inconsistent with reasonable efficiency and economy so to do, the provincial authorities would enforce a stipulation that "at least 50 per cent of those employed shall, if possible, be men who are relief recipients or those who, but for such employment, would otherwise be in receipt of relief." A further stipulation required that first consideration, as far as practicable and consistent with reasonable efficiency and economy, be given to those most in need in localities where works were to be performed, preference in employment being given to unemployed ex-service men and unemployed married and single men with dependents. Special provision was made in the agreement with British Columbia for the employment of a percentage of "Single Unemployed" in connection with the Tourist Highways' work in that province.

The agreements also provided that no persons other than residents of Canada should be employed; that no resident of Canada should, with relation to his employment or eligibility for employment, be discriminated against or favoured by reason of his race, religious views, or political affiliations; and that it would be the responsibility of the provinces to see that all persons employed in the execution of the projects were paid fair wages.

Particulars of the Dominion's commitments in regard to the work projects assisted by the Department of Mines and Resources under agreements pursuant

to the Act, together with the disbursements as at March 31, 1939, are set forth in Table No. 3, while the numbers reported by the provinces as having been afforded employment on these projects month by month are set forth in appendices "B" and "C".

RELIEF SETTLEMENT

Under the provisions of the Relief Act, 1932, agreements were completed with all the provinces, except Prince Edward Island, providing for a non-recoverable expenditure of one-third of an amount not to exceed \$600 per family for the purpose of providing a measure of self-sustaining relief to families who would otherwise be in receipt of material aid by placing such families on the land. It was provided that the remaining two-thirds of the expenditure should be contributed by the province and the municipality concerned. The agreements covered a period of two years and expired on March 31, 1934.

Under the provisions of the Relief Acts of 1934 and 1935, agreements, effective from April 1, 1934 to March 31, 1936, providing continuity of settlement with the agreements which expired March 31, 1934, were entered into with all the provinces excepting Prince Edward Island. Provision was made in these agreements for an additional non-recoverable contribution by the Dominion, on the recommendation of the province and with the approval of the Governor in Council, of one-third of an amount not exceeding \$100 in the case of a settler who might not be self-supporting at the end of the two-year period, and for whom subsistence expenditure during the third year of settlement was deemed necessary. The additional amount for subsistence during the third year, where necessary, applied both to those settled under the 1932 agreements and those settled under the renewal agreements.

Under the provisions of the Unemployment Relief and Assistance Act, 1936, further agreements, effective from April 1, 1936 to March 31, 1940, providing continuity of settlement with the agreements which expired March 31, 1936, were entered into with the provinces of Quebec, Manitoba, and Alberta. Provision is made in said agreements for placement of further families on the land and a non-recoverable expenditure of one-third of an amount not to exceed \$1,000 per family for a period of four years. Provision is also made on behalf of families settled under previous agreements, for an additional non-recoverable contribution by the Dominion of one-third of an amount not exceeding \$80 per family for fourth year of settlement and \$70 per family for fifth year of settlement while in the agreement with Manitoba provision is made for a Dominion contribution of one-third of an amount not exceeding \$70 for sixth year of settlement on behalf of families settled under the 1932 agreement. It is also provided with respect to Manitoba and Alberta that where the settler has been taken from a district without municipal organization the Dominion and province shall share equally in the expenditures required for the third, fourth, fifth, and, in the case of Manitoba, sixth year of settlement.

Pursuant to the provisions of the Unemployment and Agricultural Assistance Act, 1937, an agreement was entered into with the province of Saskatchewan in similar terms to those entered into with the provinces of Quebec, Manitoba, and Alberta, under the 1936 Act. The agreement with the province of Saskatchewan is effective from June 1, 1937, the date on which it was completed, to March 31, 1941.

During the fiscal year 1938-39 the Dominion continued to assist the provinces in respect to relief settlement measures under the agreements in force. Reports received from the provinces in regard to the number of approved settlers

on the land under the relief settlement agreements as at March 31, 1939, and the Dominion's contributions as at the same date are shown in Table No. 2.

TABLE No. 2

WORKS PROJECTS (DEPARTMENT OF LABOUR)

In addition to works projects carried out by the provinces under the terms of the material aid agreements, the work for single homeless men in New Brunswick and British Columbia, the development of tourist roads and roads into mining areas, all of which are described in the preceding pages of this report, provision was made under The Unemployment and Agricultural Assistance Act, 1938, for the completion of certain works provided for in agreements entered into in previous years with the provinces of Ontario, Manitoba (Greater Winnipeg Sewage System), Saskatchewan, Alberta and British Columbia.

In response to representations made by the government of Nova Scotia that by reason of cancellations of several large coal contracts placed early in 1938 with local mines, large numbers of mine employees had been thrown out of work and that many of them and their dependents would require material aid immediately unless provided with remunerative employment, an agreement was entered into with that province providing for contribution by the Dominion of 50% of the province's expenditures incurred in the carrying on or assisting in carrying on of certain projects and works, during the period October 1, 1938, to March 31, 1939, it being provided that the Dominion's contribution should not in any event exceed \$70,000.

In the fall of 1938 representations were made by the government of New Brunswick to the effect that there were many districts in the southern and eastern part of the province which, owing to conditions in the fishing industry, were in need of assistance. In response to these representations an agreement was entered into with the province of New Brunswick providing for a Dominion

contribution of 50% towards the cost of construction incurred by the province during the period September 1, 1938, to March 31, 1939, in the carrying on of certain highway construction and projects, it being provided that the Dominion's contribution should not in any event exceed \$50,000.

An agreement was entered into with the province of Ontario providing for Dominion contribution of 50% of the cost of construction incurred by the province during the period December 7, 1938, to March 31, 1939, in carrying on projects and works designed to relieve the serious unemployment condition which had developed in the northern sections of the province, with which condition the province had made representations that it would be unable to adequately cope without assistance from the Dominion. The agreement provided that the Dominion's contribution should not exceed \$1,000,000.

An agreement was also entered into with the province of British Columbia providing for a Dominion contribution of 50% towards the cost of construction incurred by the province during the period April 1, 1938, to March 31, 1939, in the construction and improvement of playgrounds, improvements to Stanley Park and improvements to Spanish Banks, it being provided that the Dominion's contribution should not exceed \$30,000.

At the request of the government of Manitoba an agreement was entered into with that province wherein it was provided that the Dominion would contribute 50% up to a maximum of \$50,000 of the costs incurred by the province during the period April 1, 1938, to March 31, 1939, for teaming and trucking, salaries or wages of foremen, specially skilled workmen, and for materials necessary in the carrying on of certain municipal works projects executed for the purpose of enabling recipients of material aid to work thereon to the value in labour of the aid issued.

The Dominion's commitments in regard to these undertakings together with the disbursements up to March 31, 1939, are set forth in Table No. 3, while the numbers reported by the provinces as having been afforded employment are set forth month by month in Appendices "B" and "C".

COMMITMENTS AND DISBURSEMENTS

Table No. 3 shows the various projects and undertakings authorized under The Unemployment and Agricultural Assistance Act, 1938, and the Dominion's disbursements in respect to these matters as at March 31st, 1939.

(B) Not including expenditures which may have been made prior to March 31, 1939, for which accounts have not been received, or if received, have not been passed for payment at the date of this report.

SUPERVISION AND AUDIT OF EXPENDITURES

Order in Council P.C. 1352 of June 16, 1938, which issued on the recommendation of the Minister of Labour instructed that the office of the Comptroller of the Treasury continue to be responsible for the work of examining the accounts in connection with the Dominion-Provincial agreements entered into under relief legislation. In accordance with the provisions of the Order in Council, provincial claims rendered during the fiscal year 1938-39 have been subject to an audit by a representative of the Comptroller of the Treasury at provincial headquarters.

The Auditor General has in addition, continued to conduct such examinations of provincial and municipal relief accounts in respect of expenditures incurred under relief legislation as in his opinion were required. Table No. 4 shows totals by provinces of all amounts specifically reported by the Auditor General as refundable, amounts refunded, otherwise adjusted, and the balances pending settlement as of March 31, 1939.

TABLE No. 4

Province	Amounts computed as Refundable by the Auditor General's Reports	Refunded	Otherwise Adjusted	Pending

	5,715,164 10	1,002,023 84	956,803 28	3,756,336 98

(a) Amount held in suspense for application to claims, the amounts of which are to be computed by the Province.

Progress has continued to be made during the past year in effecting adjustment of claims as computed by the Auditor General against the provinces, correspondence being continuously carried on with the respective provinces with that end in view.

As audits of provincial and municipal relief expenditures conducted by the Auditor General disclosed differences of opinion concerning the correct interpretation of Dominion-Provincial agreements, and as difficulties in effecting adjustments resulted, the Treasury Board set up a committee of Civil Servants to examine objections raised by the provinces to reports of the Auditor General and to make recommendations concerning same.

In addition to examinations conducted by the Auditor General, investigations have continued to be carried on by auditors of the Unemployment Relief Branch of the Department of Labour and the provincial authorities, which have resulted in refunds being made to the Dominion in adjustment of various over-payments.

The amounts thus refunded or established as being refundable by the provinces as at March 31, 1939, are shown in table No. 5.

LOANS

Under authority of The Unemployment and Agricultural Assistance Act, 1938, the Dominion made loans to the Provinces of Manitoba and Saskatchewan, and as security for repayment, accepted Provincial Treasury Bills bearing interest at the rate of 3 per centum per annum, payable half-yearly. The total amount of loans authorized under the Act, exclusive of renewals, was \$15,085,255.86, and during the period April 1, 1938, to March 31, 1939, the total advanced was \$10,429,465.78. Under existing authorities further loans chargeable to the fiscal year 1938-39 may be made before the books for the year are closed. In addition the Dominion accepted Saskatchewan Treasury Bills to the amount of \$1,123,123.28 in respect of certain interest accruals on relief loans.

The following statement shows, by provinces, the amounts loaned during the period April 1, 1938, to March 31, 1939; the net loans outstanding March 31, 1938; repayments during the year, and the net loans outstanding as at March 31, 1939:

PROVINCE OF MANITOBA—

Loans made from April 1, 1938, to March 31, 1939:

For direct relief.....	\$ 520,000 00
For relief works and projects.....	1,260,000 00
	\$ 1,780,000 00
Less repayments during the year.....	906,500 65
	\$ 873,499 35

Net loans outstanding, March 31, 1938, after giving effect to write-off of

\$804,897.02 pursuant to Vote 392 of the Further Supplementary Estimates, 1936-37.....	\$22,285,146 47
--	-----------------

Net loans outstanding as at March 31, 1939.....\$23,153,645 82

PROVINCE OF SASKATCHEWAN—

Loans made from April 1, 1938, to March 31, 1939:

For direct relief, farm placement, re-establishment of settlers, etc.....	\$ 7,198,061 79
For transportation facilities into mining areas and development of tourist highways.....	1,451,403 99
Acceptance of Treasury Bills in respect to certain interest accruals....	1,123,123 28
	<u>\$ 9,772,589 06</u>
Less repayments during the year.....	31,332 39
	<u>\$ 9,741,256 67</u>
Net loans outstanding March 31, 1938.....	66,032,295 07
	<u>\$75,773,551 74</u>
Less amount written down to non-active assets pursuant to Vote 393 of the Further Supplementary Estimates, 1936-37.....	17,682,157 61
Net active loans outstanding as at March 31, 1939.....	<u>\$58,091,394 13</u>

PROVINCE OF ALBERTA—

Net loans outstanding as at March 31, 1939 (no change since close of fiscal
year ending March 31, 1938).....\$26,079,198 00

PROVINCE OF BRITISH COLUMBIA—

Net loans outstanding as at close of fiscal year ending March 31, 1938.....	\$33,086,716 49
Less repayments 1938-39.....	129,505 94
	<u>\$32,957,210 55</u>

GRAND TOTAL OF LOANS OUTSTANDING AS AT MARCH 31,
1939.....\$140,286,448 50

DEPARTMENT OF FINANCE,
April 3, 1939.

Appendix "D" shows a summary of all loans outstanding under Relie
Legislation as at March 31, 1939.

ADMINISTRATION

Table No. 6 shows expenditures made for administration purposes for the
fiscal year as at March 31, 1939.

TABLE No. 6

Salaries.....	\$ 140,641 88

Appendix "E" shows a recapitulation of the Dominion disbursements under relief legislation from September 22, 1930, to March 31, 1939, by provinces, federal departments, etc., and by Acts.

Appendix "F" sets forth Dominion disbursements with respect to relief from September 22, 1930, to March 31, 1939, by provinces, federal departments, etc., and by classes of expenditure.

All Orders in Council and regulations made under the statute have been laid before the House of Commons after the issuance thereof when Parliament has been in session, otherwise abstracts of said Orders in Council and regulations disclosing their essential provisions have been published in the *Canada Gazette* in accordance with Clause 9 of the Act.

Respectfully submitted,

HARRY HEREFORD,
Dominion Commissioner of Unemployment Relief.

APPENDIX "A"

2 GEORGE VI.

CHAP. 25.

An Act to assist in the alleviation of Unemployment and Agricultural Distress.

[Assented to 25th May, 1938.]

Preamble.

WHEREAS it is in the national interest that the Dominion should continue for a further period to support and supplement the measures of the provinces and other bodies to establish certain unemployed persons in gainful occupations, to train other unemployed persons for like establishment and to assist those in need and thereby lessen provincial and municipal burdens consequent upon unemployment and agricultural distress: Therefore His Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

Short title.

1. This Act may be cited as *The Unemployment and Agricultural Assistance Act, 1938*.

Adminis-
tration.

"Minister".

2. This Act shall be administered by the Minister of Labour and whenever used in this Act, the word "Minister" shall mean the Minister of Labour.

Authority
to execute
undertakings.

3. (1) The Governor in Council may out of moneys appropriated by Parliament authorize the execution of such undertakings as the Governor in Council may determine to be in the general interest of Canada and requisite for the purposes of this Act, and for such purposes may authorize the performance of such acts and the execution of such agreements and contracts as the Governor in Council may deem necessary and expedient.

Employment
of persons
on relief.

(2) In the execution of any such undertaking provision shall be made, so far as it may be in the opinion of the Governor in Council practicable and consistent with reasonable efficiency and economy to do so, for the employment of persons who being available and competent are necessarily and properly in receipt of assistance and registered with the Employment Service of Canada for employment in the province in which such undertaking is to be performed.

Contracts
to be
approved.

(3) Where any undertaking towards which the Dominion Government is providing financial assistance is under provincial jurisdiction, then, unless otherwise provided by agreement, all contracts entered into with respect thereto shall be approved by the Minister and the work thereunder supervised by an officer in the service of the Dominion Government.

Agreements
with
Provinces
and others.

4. The Governor in Council may enter into agreements:
(a) with any of the provinces respecting the alleviation of unemployment conditions and of agricultural distress therein and to assist those in need;

(b) with corporations or partnerships or individuals engaged in industry respecting the expansion of industrial employment; and such agreements may provide for payments for any of the purposes aforementioned to be made out of moneys appropriated by Parliament for the fiscal year 1938-39.

5. (1) The Governor in Council, where necessary, may out of any unappropriated moneys in the Consolidated Revenue Fund grant financial assistance to any province by way of loan, advance or guarantee for the purposes of assisting the province to pay its share of expenditures incurred for the purposes mentioned in paragraph (a) of section four of this Act to an amount not exceeding in the aggregate the maximum amount which may be payable by the province for its share of such expenditures under any agreement between the Dominion and the province entered into under the authority of this Act as well as the amount for which the province may be obligated by way of loan in connection with the cost of any undertaking for which commitments were made under *The Unemployment and Agricultural Assistance Act, 1937*, and which may be continued under agreements entered into under authority of this Act. Granting of financial assistance to Provinces. 1937, c. 44.

(2) The Governor in Council may renew or consolidate, for such periods and upon such terms as the Governor in Council may determine, loans, advances or guarantees made, given or renewed under the authority of *The Unemployment Relief and Assistance Act, 1936*, *The Unemployment and Agricultural Assistance Act, 1937*, or this Act and may accept such Treasury Bills, bonds, debentures or other securities as may be approved by the Governor in Council as security for the payment of any indebtedness due by a province to the Dominion arising out of expenditures, advances or loans heretofore or hereafter made for the alleviation of unemployment conditions and of agricultural distress and to assist those in need. Renewals of loans, advances or guarantees. 1936, c. 15; 1937, c. 44.

6. No financial assistance shall be granted to any province under this Act unless the province agrees to furnish such information and permit such examination and audit to be made as the Dominion may deem necessary, and no financial assistance by way of loan, advance or guarantee shall be granted to any province under this Act unless the province furnishes the Dominion, from time to time as required, with certified statements as to its financial position in such detail and in such form as the Dominion may require. Conditions of financial assistance.

7. The Governor in Council may make all such orders and regulations as may be deemed necessary or desirable to carry out the purposes and intentions of this Act. Orders and regulations.

8. All orders and regulations of the Governor in Council made hereunder shall have the force of law and may be varied, extended or revoked by any subsequent order or regulation, but if any order or regulation is varied, extended or revoked, neither the previous operation thereof nor anything duly done thereunder shall be affected thereby, nor shall any right, privilege, obligation or liability acquired, accrued, accruing or incurred thereunder be affected by any such variation, extension or revocation. Orders and regulations to have the force of law.

9. All Orders in Council and regulations made under the provisions of this Act shall be laid before the House of Commons forthwith after the making thereof if Parliament is then sitting, or if not, said Orders in Council or regulations or an abstract thereof disclosing Laid before the House of Commons.

*Canada
Gazette.*

their essential provisions shall be published in the next following issue of the *Canada Gazette*.

Appointment
of officers,
clerks and
employees.

10. Subject to the approval of the Governor in Council the Minister may appoint such officers, clerks and employees as may be necessary to carry out the purposes of this Act.

Report to
Parliament.

11. A report shall be laid before Parliament within thirty days after the expiration of this Act, or if Parliament is not then in session shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the moneys expended or loaned, guarantees given and obligations contracted under this Act.

Duration of
Act.

12. All the provisions of this Act except such as are contained in subsection two of section five and in this section shall expire on the thirty-first day of March, 1939, but any obligation or liability incurred or created under the authority of this Act may be paid and discharged notwithstanding the expiration of the aforesaid provisions of this Act on the said date.

APPENDICES "B" AND "C"

The tables in appendix "B" provide a summary of the numbers afforded aid during each month from April, 1938, to February, 1939, inclusive. The numbers shown for material aid are from the National Registration. The numbers afforded other aid are as reported by the provinces.

In appendix "C" Dominion totals of the numbers assisted from May, 1932, to February, 1939, are shown. Commencing with September, 1936, the material aid totals are from the National Registration.

AND AGRICULTURAL ASSISTANCE
ACT, 1939

REPORT

OF

DOMINION COMMISSIONER OF
UNEMPLOYMENT RELIEF

FOR THE

FISCAL YEAR ENDING MARCH 31, 1940

OTTAWA

J. O. PATENAUDE, I.S.O.

PRINTER TO THE KING'S MOST EXCELLENT MAJESTY

1940

DEPARTMENT OF LABOUR, CANADA

HON. NORMAN A. McLARTY

MINISTER OF LABOUR

THE UNEMPLOYMENT
AND AGRICULTURAL ASSISTANCE
ACT, 1939

REPORT

OF

DOMINION COMMISSIONER OF
UNEMPLOYMENT RELIEF

FOR THE

FISCAL YEAR ENDING MARCH 31, 1940

OTTAWA

J. O. PATENAUDE, I.S.O.

PRINTER TO THE KING'S MOST EXCELLENT MAJESTY

1940

To the Hon. NORMAN A. McLARTY,
Minister of Labour,
Ottawa.

SIR,—The Unemployment and Agricultural Assistance Act, 1939, provides that a report shall be laid before Parliament within thirty days after the expiration of the Act, or if Parliament is not then in session shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the monies expended or loaned, guarantees given and obligations contracted under the Act.

I have the honour to transmit herewith the report of Mr. Harry Hereford, Dominion Commissioner of Unemployment Relief, which sets forth statements of expenditures, loans, and obligations. There were no guarantees given or authorized under the Act. The report contains additional information respecting the administration of The Unemployment and Agricultural Assistance Act, 1939, and also shows expenditures made under relief legislation enacted during the years 1930-38 inclusive.

Respectfully submitted,

W. M. DICKSON,
Deputy Minister of Labour.

THE UNEMPLOYMENT AND AGRICULTURAL ASSISTANCE ACT, 1939

REPORT OF THE DOMINION COMMISSIONER OF UNEMPLOYMENT RELIEF

To W. M. DICKSON, Esq.,
Deputy Minister of Labour.

SIR,—The undersigned begs to report as follows concerning the administration of The Unemployment and Agricultural Assistance Act, 1939, being Chapter 26 of 3 George VI, which was assented to May 2, 1939. Copy of the statute follows this report as Appendix "A".

Clause 11 of the Act provides that a report shall be laid before Parliament within thirty days after the expiration of the Act, or if Parliament is not then in session shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the monies expended or loaned, guarantees given and obligations contracted under the Act.

Clause 2 of the Act provides that the Act shall be administered by the Minister of Labour.

MATERIAL AID (DIRECT RELIEF)

Under the provisions of the The Unemployment and Agricultural Assistance Act, 1939, the Dominion continued to assist the provinces in discharging, their responsibilities in connection with the granting of material aid to necessitous persons. Agreements were entered into with all provinces providing for a Dominion contribution towards the cost of material aid, which was defined by the agreements as meaning either food, fuel, clothing and shelter, or cash in lieu thereof, on a dollar for dollar basis with the provinces up to a maximum Dominion contribution of 40 per cent. The agreements further provided for a Dominion contribution of 50 per cent of the provinces' expenditures for material aid supplied to individuals in necessitous circumstances who had not established provincial residence, it being provided that the provinces should in each instance also contribute 50 per cent. The agreements which were effective from April 1, 1939, expired on March 31, 1940.

Under the terms of the agreements the provinces and municipalities were required to follow certain defined lines of identification and segregation of material aid recipients and their dependents in order to distinguish more accurately between employables and unemployables for the purpose of furnishing definite information to the Dominion, such being necessary to ensure the reliability of the National Registration.

The agreements provided that each of the provinces were to maintain such residence regulations that no person should become ineligible to receive material aid by reason of having lost residence in one municipality or jurisdiction within the province before having established residence in another and, further, to collaborate with the other provinces of the Dominion along lines of reciprocal action in respect to individuals in necessitous circumstances lacking provincial residence within the province wherein they were destitute, to the end that no resident of Canada should become ineligible to receive material aid by reason of having lost residence in one province before having established residence in another.

It was further provided that the provinces should set an amount as the maximum amount of material aid to be issued to any one family, which maximum was to be based on the estimated earnings of a man following the occupation of an unskilled labourer, the provinces agreeing to require municipalities not to exceed the maximum so set except in cases of large families or other special circumstances and then only on authority of special exemption in each individual case when granted in writing by the province.

To remove from the minds of recipients of material aid the fear that in accepting such work as was available they might sacrifice the possibility of receiving aid in the future when further need arose, and to ensure that seasonal workers made out of their earnings reasonable provision for seasonal unemployment, the agreements provided that the provinces would require such cities and towns as might be designated by the provinces to provide each person in those jurisdictions ceasing to receive material aid by reason of entering gainful occupation, a reasonable budget of expenditures for the individual or family while the breadwinner was in gainful occupation, and also to require applicants for further relief to obtain a properly certified statement of earnings to be filled in and signed by their respective employers prior to his or her readmission to material aid benefits.

Provision was also made in these agreements, and in fact in all the agreements entered into under the Act, that no person other than a resident of Canada should be eligible for assistance and that no person should, in relation to his or her eligibility for said assistance be discriminated against nor favoured by reason of his or her race, religious views or political affiliations.

Order in Council P.C. 3204 dated October 21, 1939, authorized Dominion expenditures for food, fuel, clothing, shelter, and health services, or any of said commodities or services supplied to any residents in Canada who were necessitous dependents of enemy aliens interned in Canada if supplied during a term or terms of internment falling within the federal fiscal year ending March 31, 1940, and supplied on a scale not exceeding that given by governmental or municipal agencies to necessitous persons in the locality where said dependents resided. Pursuant to the authority contained in Order in Council P.C. 3204, arrangements were made with the provinces whereby the municipality or, in any district where no municipal organization existed, the province would distribute assistance to dependents of interned enemy aliens who were after investigation found to be in necessitous circumstances, the Dominion reimbursing the province and/or the municipality through the province 100 per cent for such expenditures incurred.

The co-operation of the provinces and municipalities enabled the distribution of relief to necessitous dependents of interned enemy aliens to be made through existing agencies, obviating the necessity of setting up federal machinery.

The material aid agreements entered into with all of the provinces excepting Ontario provided an alternative to material aid (direct relief) by way of a Dominion contribution of 50 per cent of the direct labour costs incurred in the carrying out of approved municipal improvement projects during the fiscal year

ending March 31, 1940. The provinces were required to submit for approval, schedules setting forth a description of the proposed projects, the estimated total cost and the estimated direct labour cost thereof, the condition of unemployment then existent in the municipality concerned, and containing a certificate of the municipality and province that the projects described therein were being undertaken primarily to relieve unemployment. Under the terms of the agreements the provinces were required to also contribute 50 per cent of the direct labour cost, the municipalities being left to absorb the costs of materials and supervision.

The agreements provided in respect to municipal improvement projects that the Dominion contribution should only apply to wages paid to unemployed persons in necessitous circumstances and that said persons should as a condition precedent to their employment on authorized projects be certified as unemployed and in necessitous circumstances by a committee consisting of a representative of the province, a representative of the Dominion, and the municipal official charged with the administration of relief. In municipalities of less than 5,000 persons provision was made for a substitution for the committee when jointly approved in writing by the province and the Dominion.

Under the agreements it was the duty of the provinces to see that all persons employed on municipal improvement projects carried out under the terms of the agreements were paid fair wages. The agreements provided that in general the maximum number of hours per day to be worked by any individual should be restricted to eight, but in such instances as the province deemed advisable the maximum of eight hours might be exceeded, with the limitation that in no instance should any employee work in excess of an average of forty-eight hours per week over a period of three consecutive calendar weeks.

At the request of the Province of New Brunswick, which has adopted a policy of not granting material aid generally but rather to require those in need of assistance to perform some form of work, an agreement was entered into with that province by which the Dominion agreed to contribute 50 per cent of expenditures incurred by the province during the period April 1, 1939, to March 31, 1940, inclusive, in carrying on certain provincial undertakings.

In response to representations from the Province of Nova Scotia to the effect that the municipalities of that province were unable to bear the costs of materials and supervision involved in the undertaking of municipal improvement projects, an agreement in similar form to that entered into with the Province of New Brunswick was executed providing that the Dominion would contribute 50 per cent of the cost of construction incurred by the province during the period of April 1, 1939, to March 31, 1940, inclusive, in carrying on or assisting in carrying on certain works projects.

A proposal put forward by the Province of Ontario was duly incorporated in an agreement providing for a Dominion contribution of 40 per cent of the total expenditures incurred from October 1, 1939, to March 31, 1940, by the province and those of its municipalities which participated in projects for assisting necessitous individuals to cultivate and crop garden plots on vacant land.

While there was no maximum amount set as the Dominion's contribution to material aid (direct relief) in the agreements entered into with the provinces, it being provided that the Dominion would contribute dollar for dollar with the provinces up to a maximum of 40 per cent, certain of the other arrangements outlined above were subject to maximum amounts beyond which the Dominion would not contribute. Table No. 2 sets forth the amounts authorized by the various agreements referred to, together with the amounts expended under each during the fiscal year 1939-40, while the numbers assisted month by month are shown in Appendices "C" and "D".

NATIONAL FORESTRY AND DOMINION-PROVINCIAL YOUTH TRAINING PROGRAMS

At the 1939 session of Parliament \$1,000,000 was appropriated for a national forestry program. Of this sum \$575,000 was allotted to the provinces for the carrying on of forestry projects under agreements with the Dominion, the Dominion and provinces each contributing 50 per cent of expenditures incurred on approved projects. Of the balance, \$415,000 was made available to the Dominion Department of Mines and Resources for work to be carried on in National Parks and Forest Experiment Stations under the direction of the Dominion Forest Service.

This program, which was initiated to supplement the work carried on under The Youth Training Act, 1939, was administered by the Dominion Supervisor of Youth Training and his report of the administration of the program appears herein as Appendix "B". The maximum Dominion contribution authorized by the various agreements and expenditures incurred under the program are set forth in Table No. 2, while statistics regarding the numbers assisted are presented in various ways in Appendices "B", "C", and "D".

The Dominion-Provincial Youth Training Program which was carried on during the fiscal years 1937-38 and 1938-39 under the relief legislation then in force, was during the fiscal year just closed carried on under the Youth Training Act, 1939, enacted by Parliament at the 1939 session. The Youth Training Act, 1939, provides for Dominion contribution to the expenditures of the provinces for youth training for a three-year period ending March 31, 1942.

The administration of the Dominion-Provincial Youth Training Program during the fiscal year 1939-40 will be the subject of a report to be made under the Youth Training Act, 1939, and therefore is not dealt with in detail here. However, the numbers assisted under the youth training program during the first two years of its operation, namely 1937-38 and 1938-39, are set forth month by month in Appendix "D" of this report. It might be pointed out that while the Youth Training Act, 1939, provides for the appointment of a Supervisor of Youth Training, the staff of the Unemployment Relief Branch appointed under The Unemployment and Agricultural Assistance Act, 1939, continues to be responsible for accounting, clerical, inspection and stenographic work involved in the administration of the Youth Training Act, 1939.

REHABILITATION OF OLDER UNEMPLOYED

At the 1939 session of Parliament funds were appropriated for the purpose of restoring the skill, physique and morale of those higher-aged persons who through continuous unemployment experienced difficulty in establishing themselves. The Dominion offered to contribute 50 per cent of the cost to the provinces of such rehabilitation plans. Agreements were entered into with British Columbia, Alberta, Saskatchewan, Manitoba, Ontario, New Brunswick and Nova Scotia. The projects initiated by the provinces under these agreements were as follows:—

Nova Scotia.. . . .	Training in hardrock mining.
New Brunswick.. . . .	Agricultural training.
Ontario.. . . .	Agricultural training; training in skilled trades and industrial occupations.
Manitoba.. . . .	Farm chore plan; hand-made rustic furniture making.
Saskatchewan.. . . .	Farm chore plan.
Alberta.. . . .	Farm chore plan; making of furniture, baskets, brushes, etc.
British Columbia.. . . .	Park and tourist camp work.

Details of the Dominion's commitments and disbursements under these agreements are set forth in table No. 2, while the numbers assisted month by month are shown in appendices "C" and "D".

TRANSPORTATION FACILITIES INTO MINING AREAS AND DEVELOPMENT OF TOURIST HIGHWAYS

The Department of Mines and Resources entered into agreements with all the provinces under the provisions of The Unemployment and Agricultural Assistance Act, 1939, to provide for a Dominion contribution towards the costs of certain works projects submitted by the provinces as suitable for relieving the unemployment situation and which would as well serve one of the two following purposes:

Provision of Transportation Facilities into Mining Areas,
Development of Tourist Highways.

Mining Transportation programs submitted resulted in arrangements for such work projects being entered into with the provinces of Nova Scotia, Quebec, Ontario, Manitoba, Saskatchewan, Alberta and British Columbia. The agreements provided for a uniform basis of assistance to these projects, the Dominion agreeing to contribute two-thirds of the provinces' costs of construction of each approved project. Additional to the costs shared with the provinces the mining interests contributed also to the execution of various mining transportation projects.

The same series of agreements provided for Dominion assistance in developing tourist highways, along the lines of programs submitted by the provinces of Nova Scotia, Ontario, Manitoba, Saskatchewan, Alberta and British Columbia. Similar agreements were completed covering Dominion assistance to tourist highway development in Prince Edward Island and New Brunswick. The Dominion assistance granted for tourist road projects was 50 per cent of the costs of construction of approved projects up to amounts indicated in table 2, except in Manitoba and Saskatchewan. In the cases of Manitoba and Saskatchewan the provincial governments desired to undertake larger programs than could be carried out under the 50 per cent ratio, and arrangements were made whereby the Dominion would contribute 20 per cent to the costs of construction of the approved projects in Saskatchewan and 33½ per cent to the similar costs of the accepted projects in Manitoba.

Provision was made in the agreements that, except in such instances as the Minister of Mines and Resources, or his Deputy, decided it was impracticable or inconsistent with reasonable efficiency and economy so to do, the provincial authorities would enforce a stipulation that "at least 50 per cent of those employed shall, if possible, be men who are relief recipients or those who, but for such employment, would otherwise be in receipt of relief." A further stipulation required that first consideration, as far as practicable and consistent with reasonable efficiency and economy, be given to those most in need in localities where works were to be performed, preference in employment being given to unemployed ex-service men and unemployed married and single men with dependents. Special provision was made in the agreement with British Columbia for the employment of a percentage of "Single Unemployed" in connection with the tourist highways' work in that province.

The agreements also provided that no persons other than residents of Canada should be employed; that no resident of Canada should, with relation to his employment or eligibility for employment, be discriminated against or favoured by reason of his race, religious views, or political affiliations; and that it would be the responsibility of the provinces to see that all persons employed in the execution of the projects were paid fair wages.

Particulars of the Dominion's commitments in regard to the work projects assisted by the Department of Mines and Resources under agreements pursuant to the Act, together with the disbursements for the fiscal year ending March 31,

1940, are set forth in table No. 2, while the numbers reported by the provinces as having been afforded employment on these projects month by month, are set forth in appendices "C" and "D."

DEPARTMENT OF MINES AND RESOURCES, April 15, 1940

AID IN THE DROUGHT AREAS

As stated in last year's report, the agreements under which the Dominion, through the Department of Agriculture, met the cost of material aid and feed and fodder relief in the drought areas of Saskatchewan and Alberta for the year 1938-39, terminated as at March 31, 1939. With the coming of spring the need for feed and fodder relief was reduced but assistance was required by the Province of Saskatchewan for seeding operations, and the Dominion agreed to contribute \$200,000 and to loan an additional \$1,300,000 for seed and seeding supplies. Seeding supplies included tractor fuel, feed and fodder, and repairs to implements and harness. Material aid was also required in parts of Saskatchewan until the returns from the 1939 crop might be in sight, and the agreement relating to it was, therefore, renewed for the period April 1 to June 30 and was later extended to the end of August. An amount of \$1,404,263.15 was expended under the agreement for the five months' period. As direct Dominion assistance to such parts of the prairie provinces as might experience adverse crop conditions was to take the form of acreage payments under the Prairie Farm Assistance Act as from December 1, 1939, drought area relief, as such, ceased at August 31 and the "drought areas" were dealt with, like any other rural relief areas, under the material aid agreements with the provinces, administered by the Department of Labour. Payments under the Prairie Farm Assistance Act were intended to eliminate the need for material aid after December 1 in the townships of low wheat yields where the Act became applicable.

In addition to the material aid and seeding assistance referred to above, which were distributed by the province and paid for through the Dominion Department of Agriculture on presentation of accounts, the Dominion purchased and distributed a quantity of apples, at a cost of approximately \$87,500, to supplement the food purchases of those affected by adverse crop conditions. This also helped to reduce a surplus of apples which has resulted from the loss of normal markets through the outbreak of war. Although not carried out under the Unemployment and Agricultural Assistance Act, 1939, this apple distribution is mentioned here as it formed a part of the Dominion's assistance in the drought-stricken areas of the prairies.

DEPARTMENT OF AGRICULTURE, April 20, 1940

RE-ESTABLISHMENT OF SETTLERS

Another activity administered by the Department of Agriculture under the Unemployment and Agricultural Assistance Act, 1939, was the re-establishment of settlers in the provinces of New Brunswick, Saskatchewan, Alberta and British Columbia. This was a continuation of the policy of previous years, the agreements with the four provinces arrived at under the 1937 Act being extended with slight modifications in one or two instances. The program is designed to assist settlers in pioneer areas to become self-sustaining and expenditures under the agreements are chiefly made for the breaking and clearing of land and the purchase of building materials, farm implements and live stock. The amounts made available under the agreements for the year 1939-40 were as follows:—

New Brunswick	\$ 30,000
Saskatchewan	250,000
Alberta	75,000
British Columbia	15,000

The Dominion's disbursements in respect to re-establishment of settlers for the fiscal year ending March 31, 1940, are shown in table No. 2.

DEPARTMENT OF AGRICULTURE, April 20, 1940

RELIEF SETTLEMENT

Under the provisions of the Relief Act, 1932, agreements were completed with all the provinces, except Prince Edward Island, providing for a non-recoverable expenditure of one-third of an amount not to exceed \$600 per family for the purpose of providing a measure of self-sustaining relief to families who would otherwise be in receipt of material aid by placing such families on the land. It was provided that the remaining two-thirds of the expenditure should be contributed by the province and the municipality concerned. The agreements covered a period of two years and expired on March 31, 1934.

Under the provisions of the Relief Acts of 1934 and 1935, agreements, effective from April 1, 1934, to March 31, 1936, providing continuity of settlement with the agreements which expired March 31, 1934, were entered into with all the provinces excepting Prince Edward Island. Provision was made in these agreements for an additional non-recoverable contribution by the Dominion, on the recommendation of the province and with the approval of the Governor in Council, of one-third of an amount not exceeding \$100 in the case of a settler who might not be self-supporting at the end of the two-year period, and for whom subsistence expenditure during the third year of settlement was deemed necessary. The additional amount for subsistence during the third year, where necessary, applied both to those settled under the 1932 agreements and those settled under the renewal agreements.

Under the provisions of the Unemployment Relief and Assistance Act, 1936, further agreements, effective from April 1, 1936, to March 31, 1940, providing continuity of settlement with the agreements which expired March 31, 1936, were entered into with the provinces of Quebec, Manitoba, and Alberta. Provision is made in said agreements for placement of further families on the land and a non-recoverable expenditure of one-third of an amount not to exceed \$1,000 per family for a period of four years. Provision is also made on behalf of families settled under previous agreements, for an additional non-recoverable contribution by the Dominion of one-third of an amount not exceeding \$80 per family for fourth year of settlement and \$70 per family for fifth year of settlement while in the agreement with Manitoba provision is made for a Dominion contribution of one-third of an amount not exceeding \$70 for sixth year of settlement on behalf of families settled under the 1932 agreement. It is also provided with respect to Manitoba and Alberta that where the settler has been taken from a district without municipal organization the Dominion and province shall share equally in the expenditures required for the third, fourth, fifth, and, in the case of Manitoba, sixth year of settlement.

During the fiscal year 1939-40 the Dominion continued to assist the provinces in respect to relief settlement measures under the agreements in force.

Table No. 1 shows by provinces the Dominion's contributions under the relief settlement agreements and the numbers approved for settlement. The abandonments and cancellations reported by the provinces are also shown together with the number of settlers still on the land classified by years of settlement.

NOTE.—The abandonments and cancellations shown for the provinces of Nova Scotia, Ontario, Saskatchewan and British Columbia are as at the date of the latest submissions from those provinces which were February 14, 1938, March 31, 1937, April 27, 1938 and June 30, 1937, respectively.

SINGLE UNEMPLOYED PERSONS

The agreements respecting the Farm Employment Plan entered into with the western provinces under The Unemployment and Agricultural Assistance Act, 1938, were at the request of the provinces and pursuant to the provisions of The Unemployment and Agricultural Assistance Act, 1939, extended, owing to the lateness of the spring season, for the period April 1 to May 31, 1939. No payment was made to the farmer for the months of April and May, 1939, the allowance to the worker being \$7.50.

In order to meet the problem of the single and transient unemployed the Farm Employment Plan, the cost of which is shared jointly between the federal and provincial governments, was again placed in operation in British Columbia, Alberta and Manitoba from October 1, 1939, to March 31, 1940.

The arrangements covered by the agreements provided for the payment to the farmer of \$5 per month in Alberta and British Columbia, while those accepting employment under the plan in the three provinces received \$5 per month with an additional bonus of \$2.50 per month where continuous employment was maintained up to March 31, 1939, plus free transportation, and a clothing allowance, where necessary, not exceeding \$3.

In addition to the Farm Employment Plan, and in order to meet the peculiar needs of British Columbia, where agriculture does not lend itself to the absorption of large numbers of men, the agreement of November 8, 1938, was renewed and provision made for a Dominion contribution of 50 per cent towards the cost of forestry and other works undertaken by the province as a supplementary means of providing employment. The agreement covered the period from April 1, 1939, to March 31, 1940. To ensure that the men on completion of the work would not be without funds, a system of deferred pay was placed in operation, payable at specified post offices, the amount of money standing to the credit of any man on the completion of the work being paid in weekly instalments of \$4.

The agreement entered into under The Unemployment and Agricultural Assistance Act, 1938, with the province of New Brunswick respecting works undertaken as a means of providing employment for single unemployed persons was also at the request of the province extended under The Unemployment and Agricultural Assistance Act, 1939.

The Dominion's commitments and disbursements under these agreements are set forth in table No. 2, while the numbers assisted month by month are shown in appendices "C" and "D".

COMMITMENTS AND DISBURSEMENTS

Table No. 2 shows the various projects and undertakings authorized under The Unemployment and Agricultural Assistance Act, 1939, and the Dominion's disbursements in respect to these matters for the fiscal year ending March 31, 1940.

LOANS

Under authority of Orders in Council passed pursuant to The Unemployment and Agricultural Assistance Acts of 1938 and 1939, the Dominion made loans to the Provinces of Manitoba, Saskatchewan and British Columbia, and as security for repayment, accepted Provincial Treasury Bills bearing interest at the rate of 3 per centum per annum, payable half-yearly. The total amount of loans advanced during the fiscal year 1939-40 was \$12,191,965.86. In addition the Dominion accepted Saskatchewan Treasury Bills to the amount of \$1,655,864.25 in respect of certain interest accruals on relief loans. Total repayments during the year amounted to \$1,240,273.48.

The following statement shows, by provinces, the amounts loaned during the year 1939-40; the net loans outstanding March 31, 1939; repayments during the year and the net loans outstanding at the end of the year:

PROVINCE OF MANITOBA—

Loans made during 1939-40:

For direct relief	\$ 412,000 00
For relief works and projects	1,600,000 00
	<hr/>
	\$ 2,012,000 00
Less repayments during the year	129,507 28
	<hr/>
	\$ 1,882,492 72
Net loans outstanding March 31, 1939	23,690,645 82
	<hr/>
Net loans outstanding as at March 31, 1940	\$ 25,573,138 54

PROVINCE OF SASKATCHEWAN—

Loans made during 1939-40:

For direct relief, youth training, re-establishment of settlers, etc.	5,720,307 20
For mining roads and tourist highways	1,613,106 91
For seed grain	1,300,000 00
Acceptance of Treasury Bills in respect to certain interest accruals	1,655,864 25
	<hr/>
	\$ 10,289,278 36
Less repayments during the year	1,057,068 20
	<hr/>
	\$ 9,232,210 16
Net loans outstanding March 31, 1939	62,058,984 65

Appendix "E" shows a recapitulation of Dominion disbursements under relief legislation from September 22, 1930, to the end of the fiscal year 1939-40 by provinces, federal departments, etc., and by Acts.

Appendix "F" sets forth Dominion disbursements with respect to relief from September 22, 1930, to the end of the fiscal year 1939-40 by provinces, federal departments, etc., and by classes of expenditures.

All Orders in Council and regulations made under the statute have been laid before the House of Commons after the issuance thereof when Parliament has been in session, otherwise abstracts of said Orders in Council and regulations disclosing their essential provisions have been published in the *Canada Gazette* in accordance with Clause 9 of the Act.

Respectfully submitted,

HARRY HEREFORD,
Dominion Commissioner of Unemployment Relief.

APPENDIX "A"

3 GEORGE VI

CHAP. 26

An Act to assist in the alleviation of Unemployment and Agricultural Distress

[Assented to 2nd May, 1939.]

Preamble.

WHEREAS it is in the national interest that the Dominion should continue for a further period to support and supplement the measures of the provinces and other bodies to establish certain unemployed persons in gainful occupations, to train other unemployed persons for like establishment and to assist those in need and thereby lessen provincial and municipal burdens consequent upon unemployment and agricultural distress: Therefore His Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

Short title.

1. This Act may be cited as *The Unemployment and Agricultural Assistance Act, 1939*.

Adminis-
tration.
"Minister".

2. This Act shall be administered by the Minister of Labour and whenever used in this Act, the word "Minister" shall mean the Minister of Labour.

Undertaking
of measures.

3. (1) The Governor in Council may out of moneys appropriated by Parliament authorize the execution of such undertakings as the Governor in Council may determine to be in the general interest of Canada and requisite for the purposes of this Act, and for such purposes may authorize the performance of such acts and the execution of such agreements and contracts as the Governor in Council may deem necessary and expedient.

Employment
of persons
on relief.

(2) In the execution of any such undertaking provision shall be made, so far as it may be in the opinion of the Governor in Council practicable and consistent with reasonable efficiency and economy to do so, for the employment of persons who being available and competent are necessarily and properly in receipt of assistance and registered with the Employment Service of Canada for employment in the province in which such undertaking is to be performed.

Contracts
to be
approved.

(3) Where any undertaking towards which the Dominion Government is providing financial assistance is under provincial jurisdiction, then, unless otherwise provided by agreement, all contracts entered into with respect thereto shall be approved by the Minister and the work thereunder supervised by an officer in the service of the Dominion Government.

4. The Governor in Council may enter into agreements:

Agreements
with
Provinces
and others.

- (a) with any of the provinces respecting the alleviation of unemployment conditions and of agricultural distress therein and to assist those in need;
- (b) with corporations or partnerships or individuals engaged in industry respecting the expansion of industrial employment;

and such agreements may provide for payments for any of the purposes aforementioned to be made out of moneys appropriated by Parliament for the fiscal year 1939-40.

5. (1) The Governor in Council, where necessary, may, out of any unappropriated moneys in the Consolidated Revenue Fund, grant financial assistance to any province by way of loan, advance or guarantee for the purpose of assisting the province to pay its share of expenditures incurred for the purposes mentioned in paragraph (a) of section four of this Act, and for the same purposes under the provisions of *The Youth Training Act, 1939*, to an amount not exceeding in the aggregate the maximum amount which may be payable by the province for its share of such expenditures under any agreement between the Dominion and the province entered into under the authority of this Act or *The Unemployment and Agricultural Assistance Act, 1938* or *The Youth Training Act, 1939*, as well as the amount for which the province may be obligated by way of loan in connection with the cost of any undertaking for which commitments were made under *The Unemployment and Agricultural Assistance Act, 1938*, and which may be continued under agreements entered into under the authority of this Act.

Grants of
financial
assistance to
provinces.

(2) The Governor in Council may renew or consolidate, for such periods and upon such terms as the Governor in Council may determine, loans, advances or guarantees made, given or renewed under the authority of *The unemployment Relief and Assistance Act, 1936*, the *Unemployment and Agricultural Assistance Act, 1937*, *The Unemployment and Agricultural Assistance Act, 1938*, or this Act and may accept such Treasury bills, bonds, debentures or other securities as may be approved by the Governor in Council as security for the payment of any indebtedness due by a province to the Dominion arising out of expenditures, advances or loans heretofore or hereafter made for the alleviation of unemployment conditions and of agricultural distress and to assist those in need.

Renewals
of loans,
advances or
guarantees.

1936, c. 15.
1937, c. 44.
1938, c. 25.

6. No financial assistance shall be granted to any province under this Act unless the province agrees to furnish such information and permit such examination and audit to be made as the Dominion may deem necessary, and no financial assistance by way of loan, advance or guarantee shall be granted to any province under this Act unless the province furnishes the Dominion, from time to time as required, with certified statements as to its financial position in such detail and in such form as the Dominion may require.

Conditions
of financial
assistance.

7. The Governor in Council may make all such orders and regulations as may be deemed necessary or desirable to carry out the purposes and intentions of this Act.

Orders and
regulations.

Orders and regulations to have the force of law.

8. All orders and regulations of the Governor in Council made hereunder shall have the force of law and may be varied, extended, or revoked by any subsequent order or regulation, but if any order or regulation is varied, extended or revoked, neither the previous operation thereof nor anything duly done thereunder shall be affected thereby, nor shall any right, privilege, obligation or liability acquired, accrued, accruing or incurred thereunder be affected by any such variation, extension or revocation.

Laid before the House of Commons.

9. All orders in council and regulations made under the provisions of this Act shall be laid before the House of Commons forthwith after the making thereof if Parliament is then sitting, or if not, said Orders in Council or regulations or an abstract thereof disclosing their essential provisions shall be published in the next following issue of the *Canada Gazette*.

Canada Gazette.

Appointment of officers, clerks and employees. 1939, c. 38.

10. Subject to the approval of the Governor in Council, the Minister may appoint such officers, clerks and employees as may be necessary to carry out the purposes of this Act and *The Youth Training Act, 1939*.

Report to Parliament.

11. A report shall be laid before Parliament within thirty days after the expiration of this Act, or if Parliament is not then in session shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the moneys expended or loaned, guarantees given and obligations contracted under this Act.

Duration of Act.

12. All the provisions of this Act except such as are contained in subsection two of section five and in this section shall expire on the thirty-first day of March, 1940, but any obligation or liability incurred or created under the authority of this Act may be paid and discharged notwithstanding the expiration of the aforesaid provisions of this Act on the said date.

APPENDIX "B"

REPORT OF MR. R. F. THOMPSON, SUPERVISOR OF YOUTH TRAINING, REGARDING ADMINISTRATION OF THE NATIONAL FORESTRY PROGRAM

The National Forestry Program was carried on under authority of the Unemployment and Agricultural Assistance Act, 1939, by means of Vote 508, which provided a Dominion appropriation of \$1,000,000, \$415,000 of this was turned over to the Dominion Department of Mines and Resources for forestry projects to be carried on by the Dominion Forest Service on forest experiment stations and in National Parks throughout the country. The Dominion Forest Service also assumed responsibility for approving and inspecting the technical aspects of the forestry projects carried on by the Provincial Governments under this Vote.

The balance of the appropriation was allotted to the different provinces under agreements similar to the Youth Training Agreements, providing for a refund by the Dominion of 50 per cent of approved expenditures incurred by the province for the purposes of the program.

TABLE No. 1

	Agreement Signed 1939	Dominion Allotment	Claims Paid during Fiscal Year Ending March 31, 1940
		\$	\$
Prince Edward Island.....	Aug. 3	5,000 00	3,909 11
Nova Scotia.....	June 22	30,000 00	13,242 64

Unallotted.....		10,000 00	
		1,000,000 00	595,121 65

Those eligible to participate were unemployed young men, aged 18 to 25, with preference given to those in necessitous circumstances. As in the Youth Training Agreements, they were selected without discrimination or favour on account of race, religion or politics. The usual rate of allowance given the trainees was \$1 for each day worked, plus board and lodging and medical services. All trainees were medically examined before admission to camp. Uniforms were provided, with the trainees paying half the cost.

In addition to the work part of the Program, there was provision for class instruction in practical forestry subjects and in such other things as the use and care of tools, mechanical equipment, First Aid, health, citizenship, etc. Physical training and organized recreation were also included.

The first camps opened early in June and most of them ceased operations on November 1. Following the outbreak of war, a considerable number of the trainees left the camp to enlist.

The size of the camps varied with the nature of the project. The average unit consisted of 30 to 40 trainees, but in many cases the work was carried on by small trail crews of 6 to 10, who moved camp as required. In one or two of the projects larger, semi-permanent camps of from 60 to 100 trainees each were established. In some provinces the trainees were taken on as assistants to the regular forest rangers and received valuable individual instruction of a varied nature.

* Includes those who left (a) for harvest work; (b) to return to school; (c) to enlist; (d) discharged for cause; (e) left for other reasons.

† Includes 99 who enlisted.

‡ In addition to the above, over 200 came from families in receipt of other forms of public assistance, such as old age pension, veterans' allowances, mothers' allowances, etc.

APPENDICES "C" AND "D"

The tables set forth in Appendix "C" provide a summary of the numbers assisted during each month from April, 1939, to March, 1940, inclusive. The numbers shown for direct relief are from the National Registration. The numbers afforded other assistance are as reported by the Provinces.

In Appendix "D" Dominion totals of the numbers assisted from May, 1932, to March, 1940, are shown. Commencing with September, 1936, the direct relief totals are from the National Registration.

REPORT
of
DOMINION COMMISSIONER OF
UNEMPLOYMENT RELIEF

for the
Fiscal Year Ending March 31, 1941

OTTAWA
EDMOND CLOUTIER
PRINTER TO THE KING'S MOST EXCELLENT MAJESTY
1941

To the Hon. NORMAN A. McLARTY,
Minister of Labour,
Ottawa.

SIR,—The Unemployment and Agricultural Assistance Act, 1940, provides that a report shall be laid before Parliament within thirty days after the expiration of the Act, or if Parliament is not then in session shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the moneys expended or loaned, guarantees given and obligations contracted under the Act.

I have the honour to transmit herewith the report of Mr. Harry Hereford, Dominion Commissioner of Unemployment Relief, which sets forth statements of expenditures, loans, and obligations. There were no guarantees given or authorized under the Act. The report contains additional information respecting the administration of The Unemployment and Agricultural Assistance Act, 1940, and also shows expenditures made under relief legislation enacted during the years 1930-39 inclusive.

Respectfully submitted,

BRYCE M. STEWART,
Deputy Minister of Labour.

THE UNEMPLOYMENT AND AGRICULTURAL ASSISTANCE ACT, 1940

REPORT OF THE DOMINION COMMISSIONER OF UNEMPLOYMENT RELIEF

To Dr. BRYCE M. STEWART,
Deputy Minister of Labour.

SIR,—The undersigned begs to report as follows concerning the administration of The Unemployment and Agricultural Assistance Act, 1940, being Chapter 23 of 4 George VI, which was assented to July 12, 1940. Copy of the statute follows this report as Appendix "A."

Clause 10 of the Act provides that a report shall be laid before Parliament within thirty days after the expiration of the Act, or if Parliament is not then in session shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the moneys expended or loaned, guarantees given and obligations contracted under the Act.

Clause 2 of the Act provides that the Act shall be administered by the Minister of Labour.

DIRECT RELIEF (MATERIAL AID)

Under the provisions of The Unemployment and Agricultural Assistance Act, 1940, the Dominion continued to assist the provinces in discharging their responsibilities in connection with the granting of direct relief to necessitous persons. Agreements, effective from April 1, 1940, to March 31, 1941, were entered into with all the provinces providing for Dominion contributions towards the cost of direct relief which was defined by the agreements as meaning food, fuel, clothing and shelter or any of them, cash in lieu thereof or scrip exchangeable therefor.

The Dominion agreed to contribute on a dollar for dollar basis with the provinces up to a maximum of 40 per cent of the total expenditures for direct relief in respect to individuals residing in a province and having provincial residence established there. In the case of individuals within a province having provincial residence in another province or having no ascertainable provincial residence the Dominion agreed to contribute 50 per cent of the total direct relief expenditures, and the same percentage in respect to necessitous individuals having provincial residence in a province but who were destitute within another Canadian jurisdiction. The Dominion agreed to contribute 100 per cent of expenditures incurred by the province for direct relief to individuals in necessitous circumstances within the province whose residence was established in the Northwest Territories or any National Park and the province agreed to pay to the Dominion 50 per cent of any expenditures incurred by the Dominion, the Northwest Territories or National Park Administrations in providing direct relief to any individuals having provincial residence in the province but who were destitute in the Territories or any National Park.

The agreements provided that each of the provinces should maintain such residence regulations that no person might become ineligible to receive direct relief by reason of having lost residence in one municipality or jurisdiction within the province before having established residence in another and further to collaborate with the Dominion and the other provinces with a view to instituting reciprocal and uniform procedure and action in respect to individuals in necessitous circumstances lacking provincial residence in the jurisdiction wherein they were destitute, to the end that no resident of Canada should become ineligible to receive direct relief by reason of having lost provincial residence in one jurisdiction before having established it in another.

In the agreements with the provinces of Quebec and Ontario the maximum amount to be contributed by the Dominion towards the direct relief expenditures of each of those provinces was specified as five million dollars. No maximum amounts were set as the Dominion contribution to direct relief in the agreements with the other provinces but all the agreements provided that the Dominion contribution would be on a dollar for dollar basis with the provinces.

Provision was made in the direct relief agreements and in fact in all agreements entered into under the Act, that no person other than a resident of Canada should be eligible for assistance and that no person should in relation to his or her eligibility for said assistance be discriminated against nor favoured by reason of his or her nationality, race, religious views or political affiliations.

Under the terms of the agreements the provinces and municipalities were required to follow certain defined lines of identification and segregation of direct relief recipients and their dependents in order to distinguish more accurately between employables and unemployables for the purpose of furnishing definite information to the Dominion to ensure reliability of the National Relief Registration.

It was provided that the provinces should set an amount as the monthly, quarterly or half-yearly maximum for direct relief to be issued to any one family, which maximum was to be based on the estimated earnings of a man following the occupation of an unskilled labourer within the province during the set period, the provinces agreeing to require municipalities not to exceed the maximum so set except in cases of large families or other special circumstances and then only on authority of special exemption in each individual case when granted in writing by the province.

To remove from the minds of recipients of direct relief the fear that in accepting such work as was available they might sacrifice the possibility of receiving relief in future if further need arose, and to ensure that seasonal workers made out of their earnings reasonable provision for seasonal unemployment the agreements provided that the provinces would require such cities and towns as might be designated by the provinces to provide each person in those jurisdictions who ceased to receive direct relief by reason of entering gainful employment, a reasonable budget of expenditures for the individual or family while the breadwinner was in gainful occupation and also to require applicants for further relief to produce prior to their re-admission to relief benefits, detailed statements of their full earnings since last in receipt of relief, signed and certified by their respective employers, together with a satisfactory explanation of disbursements thereof if these amounted to appreciably more than direct relief for the earner and his or her dependents (if any) would have cost for the period during which they were off the relief rolls.

Arrangements were continued with the provinces whereby the municipalities or in any district where no municipal organization existed, the province, would distribute assistance to dependents of persons interned or detained in Canada under Defence of Canada Regulations who were after investigation found to be in necessitous circumstances, the Dominion reimbursing the province and/or the municipality through the province 100 per cent for such expenditures as were

incurred. Expenditures by the Dominion for this purpose were authorized by Order in Council P.C. 2195 of May 27, 1940, under the authority of the War Measures Act, the expenditures to be charged to War Measures appropriations.

The co-operation of the provinces and municipalities enabled the distribution of this assistance to be made through existing agencies, obviating the necessity of setting up Dominion machinery.

Dominion contribution of 50 per cent of the direct labour costs incurred by the provinces in completing, during the term of the agreements, certain municipal improvement projects authorized in the 1939-40 agreements, was provided for in the direct relief agreements with all provinces with the exception of Nova Scotia and Ontario, in which provinces municipal improvement projects were not carried on under the 1939-40 relief legislation. Maximum amounts which the Dominion would contribute were specified in the agreements; these amounts are shown in table No. 2, which also shows the Dominion disbursements to the respective provinces. The projects were specifically listed in schedules of the agreements and it was provided that the special terms of these schedules should apply to the completion of these projects as fully and effectively as though contained in the agreements.

The terms of the schedules provided that the contributions of the provinces should at least equal those of the Dominion and that with the exception of supervisory personnel, whose wages were excluded from costs to which the Dominion would contribute, only unemployed persons in necessitous circumstances should be employed and that as a condition precedent to their employment these persons should be certified as unemployed and in necessitous circumstances by a committee consisting of a representative of the province, a representative of the Dominion and the municipal official charged with the administration of relief or such other person as might be authorized by the province with the approval of the Dominion to act on behalf of the municipality, with the proviso that in municipalities of less than 5,000 persons substitution for the said committee might be made jointly, approved in writing by the province and Dominion.

It was provided that it should be the duty of the province to see that all persons employed were paid fair wages, and that in general the maximum number of hours per day to be worked by any individual should be restricted to eight, but in such instances as the province deemed advisable the maximum of eight hours might be exceeded with the limitation that in no instance should any individual work in excess of an average of forty-eight hours per week over a period of three consecutive weeks.

At the request of the Province of New Brunswick, which province had adopted a policy of substituting for direct relief, public works projects, an agreement was completed with the province providing for a Dominion contribution of 50 per cent of expenditures incurred by the province from April 1, 1940, to March 31, 1941, in carrying on certain provincial undertakings.

A similar agreement was entered into with the Province of Nova Scotia following representations from that province that emergent unemployment conditions existed in certain sections of the province and that the municipalities were unable to bear the costs of materials and supervision involved in the undertaking of municipal improvements. The agreement provided for contribution by the Dominion of 50 per cent of the cost incurred by the province for certain provincial highway construction and park works.

An agreement entered into with the Province of Quebec provided that the Dominion would contribute through the province to expenditures incurred by the City of Quebec, from October 31, 1940, to March 31, 1941, in constructing an intercepting sewer system to be undertaken during the fiscal year for the alleviation of unemployment conditions in that city. It was provided that the province would contribute an amount not less than that contributed by the

Dominion, it was further provided that in respect to salaries and wages paid in connection with the project, the Dominion and province should contribute only to those of supervisory personnel and of unemployed persons who were in necessitous circumstances at the date of their first employment on the project, and as a condition precedent to their employment they should be certified as unemployed and in necessitous circumstances by a committee consisting of a representative of the province, a representative of the Dominion and the official of the City of Quebec charged with the administration of relief, or such other person as might be authorized by the province with the approval of the Dominion, to act on behalf of the city. The province agreed to see that fair wages were paid and that in general the maximum number of hours worked per day be restricted to eight. Further Dominion assistance to this project was authorized by Order in Council P.C. 2994, dated July 8, 1940, which provided that \$355,000.00 be transferred, from funds appropriated by Parliament for relief, to the Federal Department of Public Works for the completion of works administered by that department in connection with the project.

At the request of the Province of Ontario an agreement was entered into with that province providing for Dominion contribution of 40 per cent of the total expenditures incurred by the province and its municipalities from April 1, 1940 to March 31, 1941 in assisting necessitous individuals to cultivate and crop garden plots on vacant land. A similar agreement had been in effect during the preceding year.

Following representations of the provincial authorities, an agreement, similar to one in effect during the preceding year, was entered into with the Province of Manitoba providing for a Dominion contribution of 50 per cent of the costs incurred by the province for teaming and trucking, salaries or wages of foremen and specially skilled workmen and for materials necessary in the carrying on of certain municipal works projects to be executed for the purpose of enabling recipients of direct relief to work thereon to the value in labour of the relief issued.

In each of these agreements the maximum amounts which the Dominion would contribute were specified; these amounts are shown in table No. 2 which also shows the Dominion disbursements for each of these undertakings.

FORESTRY TRAINING, YOUTH TRAINING AND WAR EMERGENCY TRAINING

Under The Unemployment and Agricultural Assistance Act, 1940, agreements were entered into with the provinces of Prince Edward Island, New Brunswick, Quebec and British Columbia which provided for Dominion contribution of 50 per cent of expenditures incurred by those provinces in training and rehabilitating young men by forestry work and other related occupations designed to conserve and develop natural resources. Maximum Dominion contributions were specified and these are shown in table No. 2 as are the Dominion disbursements. The projects were administered by the Dominion Supervisor of Youth Training whose report of administration appears herein as Appendix "B".

Dominion-Provincial Youth Training was carried on during the fiscal years 1937-38 and 1938-39 under the relief legislation then in force, since then the program has been carried on under The Youth Training Act, 1939 which provided for Dominion contribution to the expenditures of the provinces for youth training for a three-year period ending March 31, 1942.

The administration of Dominion-Provincial Youth Training during the fiscal year 1940-41 and of the War Emergency Training initiated during the year will be the subject of a report to be made under The Youth Training Act, 1939 and therefore is not dealt with in detail here. The numbers afforded

training during the first two years the plan was in operation are shown, however, in Appendix "D" of this report and the amounts disbursed by the Dominion in those years are included in Appendices "E" and "F". It might be pointed out that the Unemployment Relief Staff continued during 1939-40 and 1940-41 to be responsible for accounting, statistical, inspection and stenographic work involved in the administration of the Youth Training Act, 1939.

REHABILITATION OF UNEMPLOYED HIGHER AGE PERSONS

Agreements were entered into with all the provinces with the exception of Prince Edward Island and Quebec, providing for Dominion contribution of 50 per cent of expenditures incurred by the provinces in re-training and rehabilitating certain unemployed persons who were over the established Youth Training age limit. No projects were proposed, however by the Province of British Columbia. The projects initiated by the other provinces and approved by the Dominion were as follows:—

Nova Scotia.. . . .	Training in hardrock mining,
New Brunswick.. . . .	Agricultural training,
Ontario.. . . .	Training in skilled trades and industrial occupations;
	Agricultural training,
Manitoba.. . . .	Hand-made rustic furniture making;
	Farm chore plan,
Saskatchewan.. . . .	Farm chore plan,
Alberta.. . . .	Farm chore plan.

Under the terms of an agreement entered into with the Province of Ontario under The Unemployment and Agricultural Assistance Act, 1939 which covered a three year period to March 31, 1942, the Dominion continued to contribute to expenditures incurred in connection with a Farm Rehabilitation Plan, the Dominion and province each contributing 40 per cent and the municipalities concerned 20 per cent.

Details of the Dominion's commitments and disbursements under these agreements are set forth in table No. 2, while the numbers assisted month by month are shown in appendices "C" and "D."

FARM EMPLOYMENT PLAN

The agreements respecting the Farm Employment Plan entered into with the provinces of Manitoba, Alberta and British Columbia under The Unemployment and Agricultural Assistance Act, 1939, were at the request of the provinces extended for the month of April, 1940. These agreements provided for contribution by the Dominion of 50 per cent of the costs incurred by the provinces in placing unemployed necessitous persons in employment on farms. Those placed were paid \$5 per month plus an additional bonus of \$2.50 per month where continuous employment was maintained. The Dominion also contributed half the cost of transportation to the farm, and of suitable winter work clothing where necessary. The agreement with Alberta provided that those eligible for employment must have been registered in the cities of Edmonton, Calgary, Lethbridge, Medicine Hat or Drumheller as single, homeless unemployed. The agreements with Alberta and British Columbia had also provided for a payment of \$5 per month to the farmer employer, but this provision was not extended for the month of April.

Similar agreements for the winter of 1940-41 were completed with the same provinces under The Unemployment and Agricultural Assistance Act, 1940, but the Plan was operated only in the Province of British Columbia.

Dominion disbursements under these agreements are set forth in table No. 2 while the numbers assisted are shown in appendices "C" and "D."

RELIEF SETTLEMENT

Under the provisions of the Relief Act, 1932, agreements were completed with all the provinces, except Prince Edward Island, providing for a non-recoverable expenditure of one-third of an amount not to exceed \$600 per family for the purpose of providing a measure of self-sustaining relief to families who would otherwise be in receipt of material aid by placing such families on the land. It was provided that the remaining two-thirds of the expenditure should be contributed by the province and the municipality concerned. The agreements covered a period of two years and expired on March 31, 1934.

Under the provisions of the Relief Acts of 1934 and 1935 agreements, effective from April 1, 1934, to March 31, 1936, providing continuity of settlement with the agreements which expired March 31, 1934, were entered into with all the provinces excepting Prince Edward Island. Provision was made in these agreements for an additional non-recoverable contribution by the Dominion, on the recommendation of the province and with the approval of the Governor in Council, of one-third of an amount not exceeding \$100 in the case of a settler who might not be self-supporting at the end of the two-year period, and for whom subsistence expenditure during the third year of settlement was deemed necessary. The additional amount for subsistence during the third year, where necessary, applied both to those settled under the 1932 agreements and those settled under the renewal agreements.

Under the provisions of the Unemployment Relief and Assistance Act, 1936, further agreements, effective from April 1, 1936, to March 31, 1940, providing continuity of settlement with the agreements which expired March 31, 1936, were entered into with the provinces of Quebec, Manitoba, and Alberta. Provision is made in said agreements for placement of further families on the land and a non-recoverable expenditure of one-third of an amount not to exceed \$1,000 per family for a period of four years. Provision is also made on behalf of families settled under previous agreements, for an additional non-recoverable contribution by the Dominion of one-third of an amount not exceeding \$80 per family for fourth year of settlement and \$70 per family for fifth year of settlement while in the agreement with Manitoba provision is made for a Dominion contribution of one-third of an amount not exceeding \$70 for sixth year of settlement on behalf of families settled under the 1932 agreement. It is also provided with respect to Manitoba and Alberta that where the settler has been taken from a district without municipal organization the Dominion and province shall share equally in the expenditures required for the third, fourth, fifth, and, in the case of Manitoba, sixth year of settlement.

Further agreements providing continuity of settlement with the agreements which expired March 31, 1940, were entered into with the provinces of Quebec, Manitoba and Alberta under the provisions of The Unemployment and Agricultural Assistance Act, 1940. The agreements provided for contributions by the Dominion to expenditures incurred for a period of four years in respect to settlers placed to March 31, 1942, and to expenditures for further assistance, where necessary, to those settled under prior agreements, with the understanding that Dominion contributions to any expenditures incurred after March 31, 1941, should be contingent upon Parliament appropriating from time to time the funds necessary to meet such contribution. The agreements with Manitoba and Alberta provided for contribution by the Dominion of one-third of the total expenditures incurred not to exceed \$1,000 per family settled, while in the Quebec agreement the total expenditure per family to which the Dominion would contribute was \$800, \$1,000 or \$1,200 depending upon the number in the family and the locality in which settlement was made, it being provided however that the aggregate maximum amount to be contributed by the Dominion should not exceed such total as would result if a contribution of \$333.33 was

made on behalf of each family. The agreements with Manitoba and Alberta provided that, the total expenditures on behalf of any one family during the first two years of settlement should not exceed \$820, and that \$100 should be reserved for the third year and \$80 for the fourth year of settlement. Similar provisions were incorporated in the agreement with Quebec, the maximum amounts to be spent in the first two years and the amounts to be reserved for the third and fourth years being proportionate with those set forth in the Manitoba and Alberta agreements.

The agreement with the Province of Quebec provided that the Dominion would contribute to the settlement of not more than 1,200 families in 1940-41 and 400 families in 1941-42. For the Province of Manitoba the maximum number to be settled with Dominion assistance was 100 in 1940-41 and 50 in 1941-42 and for Alberta, 150 families in 1940-41 and 100 in 1941-42. Provision was made on behalf of families settled under previous agreements for additional contribution by the Dominion of one-third of all amounts expended by the province for subsistence, stock, or equipment up to certain specified amounts.

Table No. 1 shows by provinces the Dominion contributions under the Relief Settlement Agreements and the numbers approved for settlement. The abandonments and cancellations reported by the province are also shown together with the number of settlers still on the land classified by years of settlement.

RE-ESTABLISHMENT OF SETTLERS

The only activity administered by the Department of Agriculture under the Unemployment and Agricultural Assistance Act, 1940, was that of granting continued assistance to the provinces of New Brunswick, Saskatchewan, Alberta and British Columbia for the re-establishment of agricultural settlers in certain areas. While the amounts of money made available were reduced, the work was carried on as a continuance of the program which had been in effect since the agreements between the Dominion and the respective provinces were arrived at in 1937. The program is designed to assist settlers in pioneer areas to become self-sustaining and expenditures under the agreements are chiefly made for the breaking and clearing of land and the purchase of building materials, farm implements and live stock. The amounts made available under the agreements for the year 1940-41 were as follows:

New Brunswick.....	\$ 20,000
Saskatchewan	125,000
Alberta	25,000
British Columbia	15,000

The Dominion's disbursements in respect to re-establishment of settlers for the fiscal year ending March 31, 1941, are shown in table No. 2.

Department of Agriculture, April 8, 1941.

TRANSPORTATION FACILITIES INTO MINING AREAS AND DEVELOPMENT OF TOURIST HIGHWAYS

No new agreements were entered into with the provinces by the Department of Mines and Resources in respect to the provision of transportation facilities into mining areas. Payments were made however during the fiscal year 1940-41 to the provinces of Quebec, Manitoba and Saskatchewan on account of unliquidated commitments relating to works performed under the 1939-40 agreements pursuant to the Unemployment and Agricultural Assistance Act, 1939. These were as follows:

	Provincial Expenditure	Per Cent Dominion	Dominion Share Paid
Quebec	\$ 4,597.49	66 $\frac{2}{3}$	\$3,065.00
Manitoba	13,311.21	66 $\frac{2}{3}$	8,874.14
Saskatchewan	3,938.18	66 $\frac{2}{3}$	2,625.45

Agreements providing for Dominion assistance in developing tourist highways were entered into by the Department of Mines and Resources with the provinces of Manitoba and British Columbia under the provisions of The Unemployment and Agricultural Assistance Act, 1940. The agreement provided Dominion contribution of 50 per cent of the costs incurred by the provinces, the maximum Dominion contributions were \$155,000.00 to Manitoba and \$93,000.00 to British Columbia. It was provided in the agreement with Manitoba that at least 50 per cent of those employed should be, if possible, men who were relief recipients or those who but for such employment would otherwise be in receipt of relief. The agreement with British Columbia provided that at least 85 per cent of the common labour employed should be needy cases, including men who were relief recipients.

The Dominion disbursements in respect to these undertakings are shown in table No. 2, while the numbers afforded employment are set forth in appendices "C" and "D".

Department of Mines and Resources, April 9, 1941.

COMMITMENTS AND DISBURSEMENTS

Table No. 2 shows the various projects and undertakings authorized under The Unemployment and Agricultural Assistance Act, 1940, and the Dominion disbursements in respect to these matters for the fiscal year 1940-41 as at March 31, 1941.

See text for basis of contribution on other Relief Projects.

LOANS

Under authority of Orders in Council passed pursuant to the Unemployment and Agricultural Assistance Act, 1939, the Dominion made two loans during the year totalling \$1,271,890.96, and as security for repayment accepted Provincial Treasury Bills bearing interest at the rate of 3 per centum per annum, payable half-yearly. A loan of \$1,000,000 was made to Saskatchewan to enable the province to meet, in part, its share of relief costs for 1940-41. The other loan of \$271,890.96 was made to British Columbia to cover in part the province's share of relief costs for its fiscal year 1939-40.

The following statement shows by provinces the amounts loaned during the year 1940-41; the net loans outstanding March 31, 1940; repayments during the year, and the net loans outstanding March 31, 1941:

PROVINCE OF MANITOBA—

Loans made during 1940-41.....	Nil
Net loans outstanding March 31, 1940.....	\$25,573,138.54
Less repayments during 1940-41.....	355,924.36
Net loans outstanding March 31, 1941.....	\$25,217,214.18

PROVINCE OF SASKATCHEWAN—

Loans made during 1940-41.....	\$ 1,000,000.00
Net loans outstanding March 31, 1940.....	69,875,686.46
Less repayments during 1940-41.....	\$70,875,686.46
	62,993.77
Net loans outstanding March 31, 1941.....	\$70,812,692.69

Appendix "E" is a recapitulation of Dominion disbursements under relief legislation from September 22, 1930 to March 31, 1941 by provinces, Federal departments, etc.

Appendix "F" sets forth Dominion disbursements with respect to relief from September 22, 1930 to March 31, 1941 by provinces, Federal departments, etc., and by classes of expenditures.

All Orders in Council and regulations made under the statute have been laid before the House of Commons after the issuance thereof when Parliament has been in session, otherwise abstracts of said Orders in Council and regulations disclosing their essential provisions have been published in the *Canada Gazette* in accordance with Clause 8 of the Act.

Respectfully submitted,

HARRY HEREFORD,

Dominion Commissioner of Unemployment Relief

APPENDIX "A"

4 GEORGE VI.

CHAPTER 23

An Act to assist in the alleviation of Unemployment and
Agricultural Distress.

[Assented to 12th July, 1940.]

Whereas notwithstanding greatly increased employment under war conditions it appears still to be necessary in the national interest to make provision for some contribution by the Dominion, where circumstances so warrant, to supplement the measures taken by the provinces towards providing assistance to those in need, establishing unemployed persons in employment and training and fitting suitable persons for productive occupations, thereby lessening provincial and municipal burdens in so far as they may be consequent upon extraordinary conditions of unemployment heretofore existing and at the same time developing the economic capacity of the Nation to carry on the war: Therefore His Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

1. This Act may be cited as *The Unemployment and Agricultural Assistance Act, 1940.* Short title.

2. This Act shall be administered by the Minister of Labour, and whenever used in this Act the word "Minister" shall mean the Minister of Labour. Administration.
"Minister."

3. The Governor in Council may enter into agreements: Agreements with provinces and others.
(a) with any of the provinces respecting the alleviation of unemployment conditions and of agricultural distress therein and to assist those in need;
(b) with corporations or partnerships or individuals engaged in industry respecting the expansion of industrial employment; and such agreements may provide for payments for any of the purposes aforementioned to be made out of moneys appropriated by Parliament for the fiscal year 1940-41.

4. (1) The Governor in Council in cases where in his opinion the circumstances make it necessary in the national interest, and subject to such requirements and conditions as he may consider advisable, may, out of any unappropriated moneys in the Consolidated Revenue Fund, grant financial assistance to any province by way of a loan, advance or guarantee for the purpose of assisting the province to pay its share of expenditures incurred for the purposes mentioned in paragraph (a) of section three of this Act, and for the same purposes under the provisions of *The Youth Training Act, 1939*, to an amount Grants of financial assistance to provinces.

not exceeding in the aggregate the maximum amount which may be payable by the province for its share of such expenditures under any agreement between the Dominion and the province entered into under the authority of this Act or *The Unemployment and Agricultural Assistance Act, 1939*, or *The Youth Training Act, 1939*.

(2) The Governor in Council may renew or consolidate, for such periods and upon such terms as the Governor in Council may determine, loans, advances or guarantees made, given or renewed under the authority of *The Unemployment Relief and Assistance Act, 1936*, *The Unemployment and Agricultural Assistance Act, 1937*, *The Unemployment and Agricultural Assistance Act, 1938*, *The Unemployment and Agricultural Assistance Act, 1939*, or this Act and may accept such Treasury Bills, bonds, debentures or other securities as may be approved by the Governor in Council as security for the payment of any indebtedness due by a province to the Dominion arising out of expenditures, advances or loans heretofore or hereafter made for the alleviation of unemployment conditions and of agricultural distress and to assist those in need.

5. No financial assistance shall be granted to any province under this Act unless the province agrees to furnish such information and permit such examination and audit to be made as the Dominion may deem necessary, and no financial assistance by way of loan, advance or guarantee shall be granted to any province under this Act unless the province furnishes the Dominion, from time to time as required, with certified statements as to its financial position in such detail and in such form as the Dominion may require.

6. The Governor in Council may make all such orders and regulations as may be deemed necessary or desirable to carry out the purposes and intentions of this Act.

7. All orders and regulations of the Governor in Council made hereunder shall have the force of law and may be varied, extended, or revoked by any subsequent order or regulation, but if any order or regulation is varied, extended or revoked, neither the previous operation thereof nor anything duly done thereunder shall be affected thereby, nor shall any right, privilege, obligation or liability acquired, accrued, accruing or incurred thereunder be affected by any such variation, extension or revocation.

8. All orders in council and regulations made under the provisions of this Act shall be laid before the House of Commons forthwith after the making thereof if Parliament is then sitting, or if not, said orders in council or regulations or an abstract thereof disclosing their essential provisions shall be published in the next following issue of the *Canada Gazette*.

9. Subject to the approval of the Governor in Council the Minister may appoint such officers, clerks and employees as may be necessary to carry out the purposes of this Act and *The Youth Training Act, 1939*.

10. A report shall be laid before Parliament within thirty days after the expiration of this Act, or if Parliament is not then in session shall be published and made available for distribution by the Department of Labour, containing a full and correct statement of the moneys expended or loaned, guarantees given and obligations contracted under this Act.

1939, c. 26.

1939, c. 35.

Renewals
of loans,
advances or
guarantees.

of officers,
clerks and
employees.

1939, c. 35.

Report to
Parliament.

11. All the provisions of this Act except such as are contained in subsection two of section four and in this section shall expire on the thirty-first day of March, 1941, but any obligation or liability incurred or created under the authority of this Act may be paid and discharged notwithstanding the expiration of the aforesaid provisions of this Act on the said date.

Duration
of Act.

APPENDIX " B "

Report of Supervisor of Youth Training Regarding Administration of the

NATIONAL FORESTRY PROGRAM

The appropriation made available by Parliament for the purposes of the National Forestry Program during the fiscal year 1940-41 was \$360,000. Agreements were entered into with the provinces of Prince Edward Island, New Brunswick, Quebec and British Columbia pursuant to the provisions of The Unemployment and Agricultural Assistance Act, 1940, providing for a Dominion contribution of 50% towards the cost of approved forestry projects in those provinces. The following table sets forth the amounts allotted to each of the provinces, the date the agreements were entered into and the Dominion's disbursements under the agreements as at March 31, 1941:

TABLE No. 1

	Date of Agreement 1940	Dominion Allotment \$	Claims paid to Mar. 31, 1941 \$
Prince Edward Island	Oct. 1	5,000.00	3,595.11
New Brunswick	Oct. 4	20,000.00	3,202.94
Quebec	Oct. 4	140,000.00	64,528.98
British Columbia	Sept. 27	75,000.00	14,069.47
		<hr/> 240,000.00	<hr/> 85,396.50

The agreements were similar to those entered into during the previous year and were practically identical to the Youth Training Agreements. Those eligible to participate were single young men 17 to 23 years of age who were not gainfully employed and came from families in necessitous circumstances, and single men up to 27 years of age who were not gainfully employed and who had been rejected for enlistment for the present war in any of His Majesty's armed forces. The agreements provided that the selection of trainees was to be made without discrimination or favour in relation to the racial origin, religious views or political affiliations of applicants, but that preference should be given to those rejected for enlistment in the armed forces and to relief recipients. All applicants were medically examined before being accepted for training to ensure that they were physically able to do the work and were free from communicable disease.

In addition to the regular forestry work, provision was made for class instruction and for organized sports and recreation. The normal working week was forty-four hours and wet weather was generally utilized for class instruction.

The size of the camps varied according to the nature of the work being undertaken. In some cases individual trainees were posted to assist forest rangers and received instruction and training of a very valuable nature.

To ensure that all trainees were adequately clothed and to create esprit de corps, a standard uniform was provided. Half the cost of the uniform was paid by the trainee, the other half by the Project, and the uniform became the boy's property on leaving camp.

The work was laid out and supervised by trained foresters who also gave a considerable part of the class instruction. Every endeavour was made to obtain the services of foremen and sub-foremen who were not only competent from the point of view of the work to be done, but who also understood boys and could give proper leadership. It was found that the success of the project and the results obtained were very largely dependent on the type of supervisory personnel employed.

ALLOWANCES TO TRAINEES

Allowances were paid to trainees in the different provinces at the following rates:

Prince Edward Island—\$1 per day worked and up to 75 cents per day for board and lodging.

New Brunswick and Quebec—\$1.75 per day for each day worked with a deduction of 75 cents per day for board and lodging, but no deduction made for Sundays, statutory holidays or days not in excess of three per month when weather conditions prohibited working.

British Columbia—Trainees acting as Forest Rangers' assistants—\$45 per month when living at home or \$55 per month when away from home.

DESCRIPTION OF THE PROJECTS IN THE DIFFERENT PROVINCES

Prince Edward Island—Small crews did work on demonstration woodlots.

New Brunswick—General forestry work, cocoon collection and geological survey parties.

Quebec—General forestry work.

British Columbia—Training of Forest Rangers' assistants.

TABLE No. 2

NATIONAL FORESTRY PROGRAM

STATISTICAL SUMMARY FOR THE FISCAL YEAR ENDING MARCH 31, 1941

	Total Enrolled	Dis- continued Training	Secured Employ- ment	Enlisted	Completed Course	Days Training Given
Prince Edward Island. . . .	36	5	9	3	19	2,174
New Brunswick.	88	56	5	3	24	1,520
Quebec	1,019	251	172	22	574	59,941
British Columbia	190	44	26	5	115	14,990
	<u>1,333</u>	<u>356</u>	<u>212</u>	<u>33</u>	<u>732</u>	<u>78,625</u>

APPENDICES "C" AND "D"

The tables set forth in Appendix "C" provide a summary of the numbers assisted during each month from April, 1940, to March, 1941, inclusive. The numbers shown for direct relief are from the National Relief Registration. The numbers afforded other assistance are as reported by the Provinces.

In Appendix "D" Dominion totals of the numbers assisted from May, 1932 to March, 1941, are shown. Commencing with September, 1936, the direct relief totals are from the National Relief Registration.
